SUMMARY

In a report to the Mayor and Council dated May 24, 2012 (attached to the Council file), the CAO states that the Mayor requests authority to accept the FY 2011 UASI grant award in the amount of \$58,035,381, to be divided among the City of Los Angeles and 27 Los Angeles/Long Beach Urban Area Partner Jurisdictions including the LA-RICS JPA. The City of Los Angeles acts as the administrative and fiscal agent for the grant, receives the total allocation, and distributes grant funds to other jurisdictions in accordance with an approved grant budget.

The CAO reports that the UASI Grant Program provides funds to governments to prepare, prevent, respond to, and recover from terrorist attacks and other disasters. The program focuses on enhancing regional preparedness in major metropolitan areas, and is intended to assist participating jurisdictions in developing integrated regional systems for prevention, protection, response, and recovery. Grant award funds support the purchase of homeland security equipment, as well as the costs of planning, training, exercises, organization, limited operational costs and grant administration.

According to the CAO, the FY 2011 UASI budget includes four major homeland security focus areas, or Investment Justifications: strengthening interoperable and survivable communications capabilities; strengthening information sharing, collaboration capabilities, and law enforcement investigations; protecting critical infrastructure and key resources; and, catastrophic incident planning, response, and recovery. Specific jurisdictions are provided funding allocations for program projects and each project is designed to have a primarily regional impact. Of the total \$58 million award, the City of Los Angeles will receive funding in the amount of \$17,376,473. Project descriptions are attached to the Mayor's report to Council. The CAO recommends approval of the Mayor's request.

At its meeting held May 25, 2012, the Public Safety Committee discussed this matter with representatives of the Mayor's Office, the CAO, the CLA, and the Fire Department. The Fire Department representative stated that LA-RICs project has seen major progress. According to the CLA, the project is complex and requires the presence of Fire Department staff of an appropriate rank at the LA-RICS headquarters. The positions are grant-funded and therefore work full-time on the project. The Mayor's Office representative stated that the UASI grant award budget must first be approved by CalEMA and the Department of Homeland Security prior to coming to Council for approval. Committee recommended that Council authorize the Mayor to accept the UASI grant award and approve the related actions above, as recommended by the CAO.

Respectfully submitted,

PUBLIC SAFETY COMMITTEE
