

To whom it may concern,

We, the undersigned, join ILWU, Locals 13, 26, 63, OCU (Office Clerical Union) and 94 in requesting that the Los Angeles Board of Harbor Commissioners hold over the permit (Level One Coastal Permit 18-25: APM Terminals-Landside Infrastructure to Operate Battery-Electric Powered Equipment) to fully consider the job loss that will drastically impact the surrounding communities if APM (Maersk) Terminals is allowed to automate its facility.

We support terminal operators who purchase human operated zero-emission equipment and human operated near zero-emission equipment. Taking steps to improve the environment does not have to mean taking good jobs away from our community and giving those jobs to robots.

ROBOTS DO NOT PATRONIZE LOCAL BUSINESSES OR LIVE IN OUR COMMUNITY.

The negative trickle-down effect of these job losses will be felt in every corner of our local economy from grocery stores and restaurants to real estate and health care. Eventually, these job losses could be devastating.

Port sovereign lands are held in trust for the benefit of the people of California. The Los Angeles Board of Harbor Commissioners has an obligation to take time to consider whether it is appropriate to use Port property in a manner that will result in substantial job loss to the people of the Harbor community.

To whom it may concern,

We, the undersigned, join ILWU, Locals 13, 26, 63, OCU (Office Clerical Union) and 94 in requesting that the Los Angeles Board of Harbor Commissioners hold over the permit (Level One Coastal Permit 18-25: APM Terminals-Landside Infrastructure to Operate Battery-Electric Powered Equipment) to fully consider the job loss that will drastically impact the surrounding communities if APM (Maersk) Terminals is allowed to automate its facility.

We support terminal operators who purchase human operated zero-emission equipment and human operated near zero-emission equipment. Taking steps to improve the environment does not have to mean taking good jobs away from our community and giving those jobs to robots.

ROBOTS DO NOT PATRONIZE LOCAL BUSINESSES OR LIVE IN OUR COMMUNITY.

The negative trickle-down effect of these job losses will be felt in every corner of our local economy from grocery stores and restaurants to real estate and health care. Eventually, these job losses could be devastating.

Port sovereign lands are held in trust for the benefit of the people of California. The Los Angeles Board of Harbor Commissioners has an obligation to take time to consider whether it is appropriate to use Port property in a manner that will result in substantial job loss to the people of the Harbor community.

To whom it may concern,

We, the undersigned, join ILWU, Locals 13, 26, 63, OCU (Office Clerical Union) and 94 in requesting that the Los Angeles Board of Harbor Commissioners hold over the permit (Level One Coastal Permit 18-25: APM Terminals-Landside Infrastructure to Operate Battery-Electric Powered Equipment) to fully consider the job loss that will drastically impact the surrounding communities if APM (Maersk) Terminals is allowed to automate its facility.

We support terminal operators who purchase human operated zero-emission equipment and human operated near zero-emission equipment. Taking steps to improve the environment does not have to mean taking good jobs away from our community and giving those jobs to robots.

ROBOTS DO NOT PATRONIZE LOCAL BUSINESSES OR LIVE IN OUR COMMUNITY.

The negative trickle-down effect of these job losses will be felt in every corner of our local economy from grocery stores and restaurants to real estate and health care. Eventually, these job losses could be devastating.

Port sovereign lands are held in trust for the benefit of the people of California. The Los Angeles Board of Harbor Commissioners has an obligation to take time to consider whether it is appropriate to use Port property in a manner that will result in substantial job loss to the people of the Harbor community.

We support terminal operators who purchase human operated zero-emission equipment and human operated near zero-emission equipment. Taking steps to improve the environment does not have to mean taking good jobs away from our community and giving those jobs to robots.

ROBOTS DO NOT PATRONIZE LOCAL BUSINESSES OR LIVE IN OUR COMMUNITY.

The negative trickle-down effect of these job losses will be felt in every corner of our local economy from grocery stores and restaurants to real estate and health care. Eventually, these job losses could be devastating.

Port sovereign lands are held in trust for the benefit of the people of California. The Los Angeles Board of Harbor Commissioners has an obligation to take time to consider whether it is appropriate to use Port property in a manner that will result in substantial job loss to the people of the Harbor community.

To whom it may concern,

We, the undersigned, join ILWU, Locals 13, 26, 63, OCU (Office Clerical Union) and 94 in requesting that the Los Angeles Board of Harbor Commissioners hold over the permit (Level One Coastal Permit 18-25: APM Terminals-Landside Infrastructure to Operate Battery-Electric Powered Equipment) to fully consider the job loss that will drastically impact the surrounding communities if APM (Maersk) Terminals is allowed to automate its facility.

We support terminal operators who purchase human operated zero-emission equipment and human operated near zero-emission equipment. Taking steps to improve the environment does not have to mean taking good jobs away from our community and giving those jobs to robots.

ROBOTS DO NOT PATRONIZE LOCAL BUSINESSES OR LIVE IN OUR COMMUNITY.

The negative trickle-down effect of these job losses will be felt in every corner of our local economy from grocery stores and restaurants to real estate and health care. Eventually, these job losses could be devastating.

Port sovereign lands are held in trust for the benefit of the people of California. To whom it may concern,

We, the undersigned, join ILWU; Locals 13, 26, 63, OCU (Office Clerical Union) and 94 in requesting that the Los Angeles Board of Harbor Commissioners hold over the permit (Level One Coastal Permit 18-25: APM Terminals-Landside Infrastructure to Operate Battery-Electric Powered Equipment) to fully consider the job loss that will drastically impact the surrounding communities if APM (Maersk) Terminals is allowed to automate its facility.

We support terminal operators who purchase human operated zero-emission equipment and human operated near zero-emission equipment. Taking steps to improve the environment does not have to mean taking good jobs away from our community and giving those jobs to robots.

ROBOTS DO NOT PATRONIZE LOCAL BUSINESSES OR LIVE IN OUR COMMUNITY.

The negative trickle-down effect of these job losses will be felt in every corner of our local economy from grocery stores and restaurants to real estate and health care. Eventually, these job losses could be devastating.

Port sovereign lands are held in trust for the benefit of the people of California. The Los Angeles Board of Harbor Commissioners has an obligation to take time to consider whether it is appropriate to use Port property in a manner that will result in substantial job loss to the people of the Harbor community.
