

Least Tern RFP Oral Interview Questions

1. Why is your firm uniquely qualified for this RFP? Tell us specifically about your experience with CLT.
2. Assuming you have familiarity with our previous annual reports, do you have any suggestions or ideas to improve the way we have done things in the past?
3. How will your firm handle project management? For example, updates and weekly communication?
4. Please tell about your familiarity or experience with migratory birds, specifically those that are CLT predators, and give us a specific example of a project you were involved in that dealt with this topic.
5. Sometimes the Port comes across situations in which birds are inhibiting work or events around the Port. How would your firm handle time sensitive events, such as investigating dead or injured birds, or birds that were present at work sites? Include timelines and reporting processes.
6. What is your proposal to manage costs for travel to and from the site for routine tern monitoring and for as-needed (unscheduled) events?
7. Please tell about any experience you have regarding CEQA and the process including when you would need to go through the process.
8. Is there anything you would like to add that we haven't covered?
