

**FIRST AMENDMENT TO AGREEMENT NO. 20-3760
BETWEEN THE CITY OF LOS ANGELES AND PACIFIC BELL TELEPHONE
COMPANY dba AT&T CALIFORNIA, AT&T WHOLESALE, AT&T DATACOM**

THIS FIRST AMENDMENT to Agreement No. 20-3760 is made and entered into by and between the CITY OF LOS ANGELES, a municipal corporation ("City"), acting by and through its Board of Harbor Commissioners ("Board"), and PACIFIC BELL TELEPHONE COMPANY dba AT&T CALIFORNIA, AT&T WHOLESALE, AT&T DATACOM ("Consultant") as follows:

WHEREAS, Consultant entered into Agreement No. 20-3760 effective July 2, 2020 to equip the Los Angeles Port Police with the capability of becoming a primary 9-1-1 Public Safety Answering Point (PSAP); and

WHEREAS, on April 10, 2017, the State of California awarded the new statewide 9-1-1 systems and services contract agreements to nine (9) contractors (including Consultant) who were responsive to Invitation For Bid (IFB) 8500-2016 technical and administrative requirements. All contract agreements are competitively bid and available to agencies that expend public funds; and

WHEREAS, City has determined a need to increase the Los Angeles Port Police 9-1-1 PSAP system functionality to additional locations within the Harbor District; and

WHEREAS, City has determined that it is in the best interests of the City to utilize the existing Agreement No. 20-3760, incorporating terms of the State of California IFB 8500-2016, in order to provide this additional 9-1-1 PSAP system functionality.

NOW THEREFORE, the parties agree as follows:

1. Section 5 of Agreement No. 20-3760 is amended by revising subsection B to read:

"B. The maximum payable under this Agreement, including reimbursable expenses, shall be Three Hundred Five Thousand Nine Dollars and Thirty-Nine Cents (\$305,009.39)."

2. Exhibit A "Scope of Work" of Agreement No. 20-3760 is amended to include Exhibit A-1, which is attached hereto and made a part hereof.

Except as amended herein, all remaining terms and conditions of Agreement No. 20-3760 shall remain in full force and effect.

Subject to the provisions of Charter Section 245, the effective date of this Amendment shall be the date of its execution by Executive Director upon authorization of the Board. Consultant is aware that the City Council, pursuant to Charter Section 245 of the City of Los Angeles, has the right to review this Amendment. Accordingly, in no event shall this Amendment become effective until after the expiration of the fifth Council meeting day after Board action, or the date of City Council's approval of the Amendment.

IN WITNESS THEREOF, the parties hereto have executed this First Amendment to Agreement No. 20-3760 on the date to the left of their signatures.

EXHIBIT A-1

Additional Scope of Work

The Consultant shall add hardware, software and services to support the additional required functionality that is not available in the native Motorola Vesta 9-1-1 PSAP solution previously approved in Agreement No. 20-3760 to include the following:

1. **Hardware** - physical rack mounted server and peripherals to support additional database for storing numbers from Port of Los Angeles emergency call boxes and elevator phones that are not sent to Port Police.
2. **Software** - Motorola Vesta "Peabody" Automatic Location Information (ALI) database solution that provides Port Police with private and independent on-site storage of phone location data and ALI conversion utility for adding additional ALI information from new emergency call boxes and elevators that are programmed to dial the Port Police 7-digit emergency line directly.
3. **Services** - Hardware installation, software provisioning, providing integration with existing Motorola Vesta 9-1-1 PSAP solution and "Peabody" Data Format and Conversion Services for converting the ALI data from the emergency call boxes and elevator phones and data conversion of existing emergency call boxes and elevator phones.

This functionality described here is not available in the Motorola Vesta 9-1-1 PSAP solution included in Agreement No. 20-3760. The emergency call boxes and elevator phones were identified as a requirement for the project; however, in the process of installing the Vesta solution, It was later determined that additional functionality would be needed to identify ALI data from the call boxes and elevators and thus the complete "Peabody" solution would be required
