Mr. Eugene D. Seroka Executive Director Port of Los Angeles San Pedro, California

This Comprehensive Annual Financial Report (CAFR) of the Port of Los Angeles (the Port), Harbor Department of the City of Los Angeles, California (the City), for the fiscal years ended June 30, 2020 and 2019, is hereby submitted.

Introduction

The management of the Port has prepared this annual report and assumes responsibility for both the accuracy of the presented data, and the completeness and fairness of the presentation, including all disclosures, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. To the best of management's knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and changes in financial position of the Port. All disclosures necessary to enable the reader to gain an understanding of the Port's financial activities have been included.

The report contains the audited financial statements of the Port for the fiscal years ended June 30, 2020 and 2019, which have received an unmodified opinion from the Port's independent auditors and are presented in accordance with accounting principles generally accepted in the United States of America (GAAP). The report is presented in three sections: Introductory, Financial, and Statistical.

The Introductory Section outlines the relationship of the Port to the City and describes the organization and reporting entity. It additionally provides an overview of Port properties, operations. and key personnel. This letter of transmittal is designed to complement the management's discussion and analysis (MD&A), which provides a narrative introduction, overview, and analysis to the financial statements, and should be read in conjunction with it.

The Financial Section includes the independent auditor's report, MD&A, financial statements, and required supplementary information. The MD&A presents a comparative review of financial position and changes in financial position for fiscal years 2020, 2019, and 2018. Also included in this section are a description of current and proposed capital development plans, a discussion of revenue growth, and an overview of the economic conditions and the competitive environment in which the Port operates.

Financial statements are prepared on an accrual basis and use an economic resources measurement focus. Financial statements comprise the statements of net position that present the financial position as of June 30, 2020 and 2019, statements of revenues, expenses, and changes in net position depicting financial performance for fiscal years 2020 and 2019, statements of cash flows that present the source and application of funds from operations, financing (noncapital and capital related), and investment activities for fiscal years 2020 and 2019, and notes to financial statements. The accompanying notes to financial statements further explain and support the information in the statements.

Profile of the Reporting Entity

The Port is a proprietary department of the City and is held in trust by the City for the people of the State of California (the State) pursuant to a series of tidelands grants. The Port is operated independently from the City, generating its own revenues, and administering and controlling its own expenses and fiscal activities. The Port is governed by the Board of Harbor Commissioners (the Board) which consists of five commissioners, appointed by the Mayor and confirmed by the City Council (the Council).

Most of the properties on which the Port's land, docks, wharves, transit sheds, terminals and other facilities are located is owned by the State and administered by the City through the Port, pursuant to certain tidelands grants from the State. The Port has the duty to provide for the needs of maritime commerce, navigation, fishing and recreation and environmental activities that are water-dependent and are intended to be of statewide benefit. In accordance with GAAP, the accompanying financial statements are included as an Enterprise Fund of the City.

In addition, based on the foregoing criteria of oversight responsibility and accountability of all Port-related entities, the operations of the Los Angeles Harbor Improvements Corporation, a nonprofit corporation, have been included in the accompanying financial statements. Activities of Intermodal Container Transfer Facility Joint Powers Authority and Alameda Corridor Transportation Authority, two joint ventures with the Port of Long Beach, have been recorded as investments of the Port in accordance with the equity method of accounting. Additional information regarding these joint ventures and shareholders agreement may be found in the notes to financial statements for the Port.

The management and operation of the Port are under the direction of the Executive Director, who is responsible for coordinating and directing the activities of several major management groups or bureaus. These bureaus each consist of multiple divisions and fall under the responsibilities of five senior executives who report directly to the Executive Director. The Port's management structure is described in more detail below.

- The Deputy Executive Director of Stakeholder Engagement leads the Stakeholder Engagement Bureau, which consists of the Communications (including Community Relations and Media Relations), Government Affairs, Labor Relations and Workforce Development, and Trade Development divisions.
- The Deputy Executive Director & Chief Financial Officer leads the Finance and Administration Bureau, which consists of the Contracts and Purchasing, Human Resources, Accounting, Debt and Treasury Management, Financial Management, Management Audit, and Risk Management divisions.
- The Chief of Public Safety & Emergency Management leads the Public Safety & Emergency Management Bureau, which consists of the Los Angeles Pilot Service, Port Police, and Information Technology divisions.
- The Deputy Executive Director of Marketing & Customer Relations leads the Marketing & Customer Relations Bureau, which consists of the Planning & Strategy, Cargo Marketing, Environmental Management, Waterfront/Commercial Real Estate, and Cargo/Industrial Real Estate divisions.
- The Deputy Executive Director of Development leads the Development Bureau, which consists of the Construction, Goods Movement, Construction and Maintenance, and Engineering divisions.

The Port is located in the San Pedro Bay, approximately 20 miles south of downtown Los Angeles. The Port's facilities lie within the shelter of a nine-mile long breakwater constructed by the federal

government in several stages, the first of which commenced in 1899. The breakwater encloses the largest man-made harbor in the Western hemisphere.

The Port operates primarily as a landlord, as opposed to an operating port. Its docks, wharves, transit sheds, and terminals are leased to shipping or terminal companies, agents, and to other private firms. Although the Port owns these facilities, it has no direct hand in managing the daily movement of cargo. The Port is a landlord to close to 300 entities. In addition to major terminal operators, other tenants include marinas, commercial fishing operations, cruise operations, restaurants, and recreational facilities.

The major sources of income for the Port are from shipping services (wharfage, dockage, pilotage, space assignment charges, etc.), land rentals, fees, concessions, and royalties. It currently serves approximately 80 shipping companies and agents with facilities that include 270 berthing facilities along 43 miles of waterfront.

In terms of its size and volume, the Port is one of the world's largest and busiest ports. The Port encompasses approximately 4,300 acres of land and 3,200 acres of water. The Port is a deep-water port with a minimum depth of 45 feet below mean low water mark and 53 feet in its main channel and at the bulk loader and supertanker channels. Two major railroads serve the Port.

The Port lies at the terminus of two major freeways within the Los Angeles freeway system. Subsurface pipelines link the Port to major refineries and petroleum distribution terminals within the Los Angeles Basin.

The Port handles the largest volume of containerized cargo of all U.S. ports, and additionally ranks as number one in cargo value for U.S. waterborne foreign traffic. The Port's major trading partners, concentrated along the Pacific Rim, include China/Hong Kong, Japan, South Korea, Taiwan, and Vietnam. Cargo to and from these countries represents the bulk of the total value of all cargo shipped through the Port.

The Port must be financially self-sufficient through the revenues it generates as it has no taxing authority. When appropriate, it seeks to obtain State and Federal funding for defined projects. The Port continues to maintain an AA/Aa2/AA credit ratings with S&P Global Ratings, Moody's Investors Service, and Fitch Ratings, respectively, with a "stable" outlook. These are the highest credit ratings for any stand-alone U.S. port.

Initiatives and Developments

The Port aims to continue to maintain its competitive edge by developing infrastructure that promotes growth and supports efficiency, secure, and sustainable port operations. As such, the Port has adopted a capital budget of \$190.3 million in fiscal year 2020. Comprising 12.7% of its total budget of \$1.5 billion, the adopted capital expenditures include \$163.7 million for direct costs of capital improvement projects, indirect costs of \$18.3 million in overhead costs, and \$8.3 million for capital equipment. The adopted capital expenditures of \$163.7 million include \$61.0 million for terminal improvement projects, \$7.3 million for transportation projects, \$54.3 million for public access/environmental enhancement projects, \$7.8 million for security projects, and \$33.3 million for maritime services.

Since March 2020, the outbreak of the COVID-19 pandemic has affected the global supply chain resulting in an 11.6% decline in annual containers volume relative to the prior fiscal year. On the other hand, based on the historical trend, a reduction in the containers volume now could be followed by a subsequent surge in inbound cargo at a later time as inventories are depleted.

Award and Acknowledgement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Port for its CAFR for the fiscal year ended June 30, 2019. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This CAFR must satisfy GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement program requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

Publication of this CAFR is a reflection of the excellence and professionalism of the Port's entire staff. The preparation of this report would not have been possible without the skill, effort, and dedication of the entire staff of the Finance and Administration Bureau. We wish to thank all Port's divisions for their assistance in providing the data necessary to prepare this report.

Sincerely,

Mark Bleavin

FINANCIAL SECTION

Independent Auditor's Report

Honorable Members of the Board of Harbor Commissioners Port of Los Angeles (Harbor Department of the City of Los Angeles)

Report on the Financial Statements

We have audited the accompanying financial statements of the Port of Los Angeles (Harbor Department of the City of Los Angeles) (Port), an enterprise fund of the City of Los Angeles, California, as of and for the fiscal years ended June 30, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the Port's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Port's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Port's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Port, as of June 30, 2020 and 2019, and the changes in its financial position and its cash flows for the fiscal years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 1, the financial statements present only the Port and do not purport to, and do not, present fairly the financial position of the City of Los Angeles, California, as of June 30, 2020 and 2019, the changes in its financial position, or, where applicable, its cash flows for the fiscal years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

As discussed in Note 2, the Port adopted the provisions of Governmental Accounting Standards Board Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, effective July 1, 2019. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of proportionate share of the net pension liability and net other postemployment benefits (OPEB) liabilities and schedules of pension and OPEB contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the Port's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2020 on our consideration of the Port's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Port's internal control over financial reporting and compliance.

Macias Gini É O'Connell LAP

Los Angeles, California November 30, 2020

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Using This Financial Report

The management of the Port of Los Angeles (the Port) presents an overview of the Port's financial performance during the fiscal years ended June 30, 2020 and 2019. This discussion and analysis should be read in conjunction with the transmittal letter on pages 1-4 and the Port's financial statements starting from page 40.

The Port's financial report consists of this management's discussion and analysis (MD&A), and the following financial statements:

- Statements of Net Position present information of all of the Port's assets, deferred outflows of resources, liabilities, and deferred inflows of resources as of June 30, 2020 and 2019. The sum of assets and deferred outflows of resources minus the sum of liabilities and deferred inflows of resources is reported as net position, which over time may increase or decrease and serves as an indicator of the Port's financial position.
- Statements of Revenues, Expenses, and Changes in Net Position present the results of operations during the current and prior fiscal year. These show the sources of the Port's revenues and its expenses. Revenues and expenses are recorded and reported for some items that will result in cash flows in future periods. Changes in net position are reported when the underlying events occurred, regardless of the timing of the related cash flows.
- Statements of Cash Flows present the inflows and outflows of cash and cash equivalents resulting from operating, noncapital financing, capital and related financing, and investing activities. A reconciliation is also provided to assist in understanding the difference between operating income and cash flows from operating activities.
- *Notes to Financial Statements* present information that is not displayed on the face of the financial statements. Such information is essential to a full understanding of the Port's financial activities.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Overview of the Port's Financial Statements

The Port is a fiscally independent department and an enterprise fund of the City of Los Angeles, California (the City). The Port's financial statements are prepared on an accrual basis using the economic resources measurement focus in accordance with accounting principles generally accepted in the United States of America (GAAP) promulgated by the Governmental Accounting Standards Board (GASB). The notes to financial statements on pages 47 to 108 provide additional information that is essential to a full understanding of the data provided in the financial statements.

Financial Highlights for Fiscal Year 2020

- Current assets exceeded current liabilities by \$810.7 million.
- Capital assets, net of accumulated depreciation and amortization of \$2.5 billion amounted to \$3.8 billion.
- Total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$3.6 billion.
- Bonded debt net of unamortized discounts/premiums of \$77.4 million, totaled \$788.5 million.
- Operating revenue amounted to \$467.7 million.
- Net operating expenses excluding depreciation of \$158.6 million amounted to \$273.6 million.
- Capital contributions amounted to \$3.4 million.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Financial Highlights for Fiscal Year 2019

- Current assets exceeded current liabilities by \$742.2 million.
- Capital assets, net of accumulated depreciation and amortization of \$2.4 billion amounted to \$3.8 billion.
- Total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$3.5 billion.
- Bonded debt net of unamortized discounts/premiums of \$60.0 million, totaled \$870.1 million.
- Operating revenue amounted to \$506.4 million.
- Net operating expenses excluding depreciation of \$162.0 million amounted to \$240.4 million.
- Capital contributions amounted to \$3.5 million.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Analysis of Net Position

Net position is the sum of assets and deferred outflows of resources minus liabilities and deferred inflows of resources. Over time, increases or decreases in net position may serve as an indicator of whether the Port's financial position is improving or deteriorating. The following is a condensed summary of the Port's net position as of June 30, 2020, 2019, and 2018 (in thousands):

Condensed Net Position

						Increase (Decrea	ase) Over Prior Year		
	 FY 2020		FY 2019	 FY 2018		FY 2020	FY 2019		
Assets									
Current and other assets Capital assets, net	\$ 1,028,303 3,758,030	\$	976,353 3,812,608	\$ 823,721 3,871,402	\$	51,950 (54,578)	\$	152,632 (58,794)	
Total assets	4,786,333	1	4,788,961	 4,695,123		(2,628)		93,838	
Deferred outflows of resources	 68,699		78,020	 66,313		(9,321)		11,707	
Liabilities									
Current liabilities Long-term liabilities Total liabilities	 157,331 <u>1,103,900</u> 1,261,231		154,115 1,169,568 1,323,683	 164,527 1,224,655 1,389,182		3,216 (65,668) (62,452)		(10,412) (55,087) (65,499)	
Deferred inflows of resources	 31,778		39,620	 37,383		(7,842)		2,237	
Net position Net investment in capital assets Restricted for debt service Unrestricted	 2,979,268 42,281 540,474		2,954,017 63,348 486,313	 2,964,553 62,230 308,088		25,251 (21,067) 54,161		(10,536) 1,118 178,225	
Total net position	\$ 3,562,023	\$	3,503,678	\$ 3,334,871	\$	58,345	\$	168,807	

Net Position, Fiscal Year 2020

The largest portion of the Port's net position (\$3.0 billion or 83.6%) reflects its net investment in capital assets (e.g. land, facilities and equipment, construction in progress and intangible assets). These assets are used for the construction, operation and maintenance of Port facilities. An additional portion of the Port's net position (\$42.3 million or 1.2%) represents resources that are restricted for the debt service reserve fund. The remaining balance of \$540.5 million or 15.2% are unrestricted resources that may be used to meet the Port's ongoing obligations.

Current and other assets increased by \$51.9 million or 5.3% from \$976.4 million in fiscal year 2019 to \$1,028.3 million in fiscal year 2020. This increase in current assets occurred due to higher year-over-year unrestricted cash levels.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Unrestricted and restricted cash, cash equivalents, and investments consist primarily of cash and pooled investments held by the City Treasury on behalf of the Port. The increase of \$75.0 million from \$919.2 million at June 30, 2019 to \$994.2 million at June 30, 2020 was primarily due to the aforementioned increased unrestricted cash levels. Unrestricted cash increased over the course of the fiscal year as cash receipts derived from operating income and nonoperating sources more than sufficiently covered capital spending needs, debt service obligations, pollution remediation payments and workers' compensation payments. At June 30, 2020, the Port's share in the fair value measurement of the City's pooled investments reflected an increase of \$20.0 million. The Port reported additional investments of \$2.0 million from its share in the City's investment purchases on June 30, 2020, and \$5.6 million in securities lending transactions.

Grants receivable increased by \$0.6 million or 27.0% as more amount of grant invoices remained outstanding at fiscal year-end relative to prior fiscal year.

Capital assets, net of depreciation decreased by \$54.6 million or 1.4% as the increase in accumulated depreciation associated with the Port's existing facilities and equipment more than offset the increase in new capital assets associated with capital project development and construction in progress.

Current liabilities increased by \$3.2 million or 2.1% as increases of \$11.7 million in accounts payable for goods and services received in the fiscal years and \$2.2 million in accrued salaries and employee benefits were offset by decreases of \$2.6 million in obligations from securities lending transactions, \$2.1 million in accrued interest payable, \$1.1 million in current portion of outstanding bonds payable, \$0.9 million in fiscal year end accruals for construction costs, and \$4.0 million in the net balance of other current liabilities,.

Long-term liabilities decreased by \$65.7 million or 5.6% primarily due to a decrease of \$80.5 million in the noncurrent portion of bonds payable arising from the customary repayment of principal and refunding of remaining 2009 series A and C bonds in conjunction with the Port's debt activities, and a decrease of \$2.1 million in net postemployment benefits other than pensions (other postemployment benefits or OPEB) liabilities due to changes in actuarial assumptions. These decreases were offset by increases of \$8.0 million in net pension liabilities attributable to the return on pension plans' assets were less than assumed return in the actuarial valuation, \$1.4 million in long-term liabilities from restricted assets, \$5.3 million in noncurrent portion of estimated employee benefits, and \$2.2 million in the net balance of other noncurrent liabilities. Additional information regarding the Port's proportionate shares of pension and OPEB liabilities may be found in Notes 13 and 14 starting on pages 80 and 93, respectively.

Net Position, Fiscal Year 2019

The largest portion of the Port's net position (\$3.0 billion or 84.3%) reflects its net investment in capital assets (e.g. land, facilities and equipment, construction in progress and intangible assets). These assets are used for the construction, operation and maintenance of Port facilities. An additional portion of the Port's net position (\$63.3 million or 1.8%) represents resources that are restricted for the debt service reserve fund. The remaining balance of \$486.3 million or 13.9% are unrestricted resources that may be used to meet the Port's ongoing obligations.

Current and other assets increased by \$152.6 million or 18.5% from \$823.7 million in fiscal year 2018 to \$976.4 million in fiscal year 2019. This increase in current assets occurred due to higher year-over-year unrestricted cash levels.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Unrestricted and restricted cash, cash equivalents, and investments consist primarily of cash and pooled investments held by the City Treasury on behalf of the Port. The increase of \$160.7 million from \$758.5 million at June 30, 2018 to \$919.2 million at June 30, 2019 was primarily due to the aforementioned increased unrestricted cash levels. Unrestricted cash increased over the course of the fiscal year as cash receipts derived from operating income and nonoperating sources more than sufficiently covered capital spending needs, debt service obligations, pollution remediation payments and workers' compensation payments. At June 30, 2019, the Port's share in the fair value measurement of the City's pooled investments reflected an increase of \$26.5 million. The Port reported additional investments of \$0.1 million from its share in the City's investment purchases on June 30, 2019, and \$8.2 million in securities lending transactions.

Grants receivable decreased by \$1.8 million or 45.3% as lesser amount of grant invoices remained outstanding at fiscal year-end relative to prior fiscal year.

Capital assets, net of depreciation decreased by \$58.8 million or 1.5% as the increase in accumulated depreciation associated with the Port's existing facilities and equipment more than offset the increase in new capital assets associated with capital project development and construction in progress.

Current liabilities decreased by \$10.4 million or 6.3% as decreases of \$3.3 million in obligations from securities lending transactions, \$5.8 million in litigation and mitigation reserves, \$3.4 million in fiscal year end accruals, \$3.5 million for the Port's share in the City's investment purchases on June 30, 2019 settled subsequently in the next fiscal year, and \$0.3 million in the net balance of other current liabilities were offset by increases of \$2.5 million in current portion of outstanding bonds payable and \$3.4 million in accrued salaries and employee benefits.

Long-term liabilities decreased by \$55.1 million or 4.5% primarily due to a decrease of \$54.9 million in the noncurrent portion of bonds payable arising from the customary repayment of principal in conjunction with the Port's annual servicing of its debt, a decrease of \$4.2 million in long-term portion of estimated employee benefits, and a decrease of \$5.1 million in estimated pollution remediation obligations. These decreases were offset by an increase of \$9.1 million or 4.3% in net pension liabilities attributable to change in the actuarial assumptions. Additional information regarding pollution remediation may be found in Note 9 on page 75.

Changes in Net Position, Fiscal Year 2020

The Port reported a \$58.3 million change in net position in fiscal year 2020, a 65.4% decrease as compared to fiscal year 2019. Approximately \$442.7 million or 94.7% of total operating revenues were derived from fees for shipping services and leasing of facilities to customers. Since the Port operates as a landlord, operating expenses are principally administrative in nature. Operating expenses were higher by \$33.1 million in fiscal year 2020 compared to the previous fiscal year.

Depreciation expense decreased by \$3.4 million to \$158.6 million in fiscal year 2020 from \$162.0 million in fiscal year 2019, primarily due to certain assets being fully depreciated in the prior year.

Nonoperating revenues for fiscal year 2020 totaled \$56.7 million, while nonoperating expenses were \$37.3 million, thereby resulting in net nonoperating revenue of \$19.4 million. Nonoperating revenues of \$56.7 million include: \$19.7 million of interest and investment income from the Port's cash in the City's pooled investments and bond funds, \$20.0 million of unrealized gain for fair value adjustment of investments, \$2.5 million of income from an investment in the Intermodal Container Transfer Facility Joint Powers Authority, \$1.7 million from noncapital grants, \$7.8 million from pass through grant revenue, as well as \$5.0 million from various

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

rebates, reimbursements, and miscellaneous other receipts. Nonoperating expenses of \$37.3 million include \$24.7 million of interest on indebtedness, \$8.0 million from pass through grant expenses, \$3.6 million of expenses resulting from certain capitalized projects being discontinued during the fiscal year, and \$1.0 million for other nonoperating expenses during the fiscal year.

As a result, income before capital contributions decreased by \$110.5 million or 66.8% to \$54.9 million in fiscal year 2020 from \$165.3 million in fiscal year 2019.

Capital contributions decreased by \$0.1 million from \$3.5 million earned in fiscal year 2019 to \$3.4 million in fiscal year 2020 following the completion of more grant-funded initiatives in fiscal year 2019 relative to fiscal year 2020. Capital grants in fiscal year 2020 funded initiatives such as Harbor Boulevard/Sampson Way/7th Street Reconfiguration (\$2.6 million), Yusen Terminal Efficiency Enhancements and Truck Trip Redesign Program (\$0.4 million), and I-110/C-Street Access Ramp Improvements (\$0.4 million).

Changes in Net Position, Fiscal Year 2019

The Port reported a \$168.8 million change in net position in fiscal year 2019, an 80.8% increase as compared to fiscal year 2018. Approximately \$476.3 million or 94.0% of total operating revenues were derived from fees for shipping services and leasing of facilities to customers. Since the Port operates as a landlord, operating expenses are principally administrative in nature. Operating expenses were higher by \$3.5 million in fiscal year 2019 compared to the previous fiscal year.

Depreciation expense decreased by \$6.0 million to \$162.0 million in fiscal year 2019 from \$168.0 million in fiscal year 2018, primarily due to certain assets being fully depreciated in the prior year.

Nonoperating revenues for fiscal year 2019 totaled \$72.4 million, while nonoperating expenses were \$11.1 million, thereby resulting in net nonoperating revenue of \$61.3 million. Nonoperating revenues of \$72.4 million include: \$26.9 million of recovery of license fees that had been held in abeyance due to litigation, \$15.9 million of interest and investment income from the Port's cash in the City's pooled investments and bond funds, \$16.9 million of unrealized gain for fair value adjustment of investments, \$2.6 million of income from an investment in the Intermodal Container Transfer Facility Joint Powers Authority, \$1.4 million from noncapital grants, \$4.9 million from pass through grant revenue, as well as \$3.8 million from various rebates, reimbursements, and miscellaneous other receipts. Nonoperating expenses of \$11.1 million include \$1.3 million of interest on indebtedness, \$4.9 million from pass through grant expenses through grant expenses, \$4.7 million include \$1.3 million form certain capitalized projects being discontinued during the fiscal year, and \$0.2 million related to maintaining liquidity support for the commercial paper program during the fiscal year.

As a result, income before capital contributions increased by \$76.5 million or 86.1% to \$165.3 million in fiscal year 2019 from \$88.8 million in fiscal year 2018.

Capital contributions decreased by \$1.0 million from \$4.5 million earned in fiscal year 2018 to \$3.5 million in fiscal year 2019 following the completion of more grant-funded initiatives in fiscal year 2018 relative to fiscal year 2019. Capital grants in fiscal year 2019 funded initiatives such as Harbor Boulevard/Sampson Way/7th Street Reconfiguration (\$2.2 million), Yusen Terminal Efficiency Enhancements and Truck Trip Redesign Program (\$0.7 million), I-110/C-Street Access Ramp Improvements (\$0.4 million), and I-110/SR-47/Harbor Boulevard Connectors and Vincent Thomas Bridge (\$0.2 million).

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

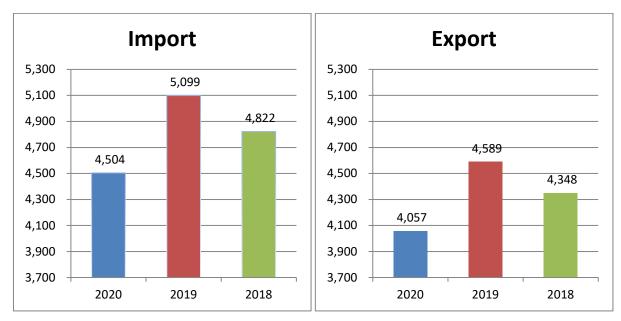

Operating Revenue

Annual container counts for the Port in twenty-foot equivalent units (TEUs), a standard measurement used in the maritime industry for measuring containers of varying lengths, for the last three fiscal years are as follows (in thousand TEUs):

		In TEUs		% Change Over Prior Year					
Container Volume	FY 2020	FY 2019	FY 2018	FY 2020	FY 2019				
Import	4,504	5,099	4,822	-11.7%	5.7%				
Export	4,057	4,589	4,348	-11.6%	5.5%				
Total	8,561	9,688	9,170	-11.6%	5.6%				

The Port is the number one port by container volume in North America. Overall container volume totaled 8.6 million TEUs in fiscal year 2020 which represented an 11.6% decrease relative to the prior fiscal year. The significant decrease in container volume was primarily due to the impact of the COVID-19 pandemic (Pandemic) as well as the on-going trade war between China and the United States.

Following is the graphical presentation of the Port's container counts (in thousand TEUs) for fiscal years 2018 to 2020:

Management's Discussion and Analysis

June 30, 2020 and 2019

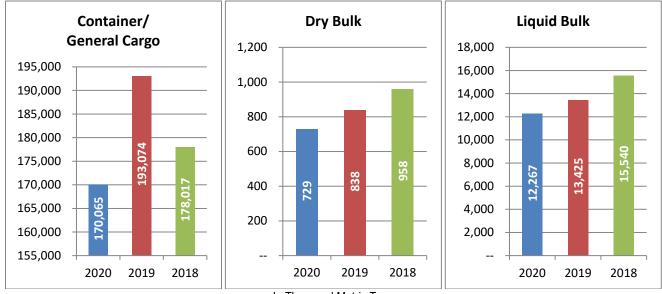

(Unaudited)

The following charts show the major components of the Port's sources of operating revenue for fiscal years 2020 and 2019:

Fiscal Year 2020

Fiscal Year 2019

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Operating Revenue, Fiscal Year 2020

Operating revenue for fiscal year 2020 decreased to \$467.7 million, reflecting a 7.7% decrease from the prior year revenue of \$506.4 million. The decrease was primarily due to the economic impact of the Pandemic as well as the on-going trade war between China and the United States. As stated earlier, the Port derives its operating revenues primarily from shipping services, rentals, and fees from royalties, concessions and other fees.

Shipping Services

Shipping services revenues represented 79.0% of fiscal year 2020 total operating revenues and consist of several classifications of fees assessed for various activities relating to vessel and cargo movement. Of these fees, wharfage is the most significant and comprised 93.4% of the total shipping service revenues in fiscal year 2020. Wharfage is the fee charged against merchandise for passage over wharf premises, to and from vessels, and barges. Wharfage was \$38.4 million lower compared to fiscal year 2019 mainly due to lower cargo volumes moved through terminals in the period March through June 2020 due to the Pandemic. Other shipping services revenues were \$2.4 million lower as dockage and demurrage revenue, pilotage revenue, and assignment revenues decreased by \$0.1 million, \$1.5 million, and \$0.8 million, respectively.

Rentals

The Port generates revenues from making available various types of rental properties such as land, buildings, warehouses, wharves, and sheds. Rates are negotiated for these properties based upon two general classifications, waterfront and backland. Independent appraisals are performed periodically to establish benchmark rates for these properties. Rates ultimately set in land rental agreements may be adjusted, within reason, to reflect general market conditions. Rates for other categories of properties are also set taking into account the condition, location, utility, and other aspects of the property.

During fiscal year 2020, rental income at the Port, which represented 15.6% of fiscal year 2020 total operating revenues, increased by \$7.1 million, or 10.8%, over last fiscal year. The increase was mainly due to net rental rate increases and new permits.

Royalties, Fees, and Other Operating Revenue

The Port levies fees for a variety of activities conducted on the Port properties. Examples include royalties from the production of oil and natural gas, fees for parking lots, motion picture productions, foreign trade zone operations, miscellaneous concessions, distribution of utilities, and maintenance and repair services conducted by the Port at the request of customers.

Revenues from royalties, fees, and other operating revenues in fiscal year 2020 was \$25.0 million or 5.3% of the total operating revenues. This represented a decrease of \$5.1 million in this revenue category compared with fiscal year 2019 mainly due to \$4.7 million in lower Harbor Maintenance Tax revenue, \$2.1 million in lower utility reimbursements, and \$0.6 million in lower parking fee revenue, partially offset by \$1.7 million in higher Clean Truck revenues and \$0.6 million in higher operating reimbursements.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Operating Revenue, Fiscal Year 2019

Operating revenue for fiscal year 2019 increased to \$506.4 million, reflecting a 3.2% increase from the prior year revenue of \$490.8 million. As stated earlier, the Port derives its operating revenues primarily from shipping services, rentals, and fees from royalties, concessions and other fees.

Shipping Services

Shipping services revenues represented 81.0% of fiscal year 2019 total operating revenues and consist of several classifications of fees assessed for various activities relating to vessel and cargo movement. Of these fees, wharfage is the most significant and comprised 93.5% of the total shipping service revenues in fiscal year 2019. Wharfage is the fee charged against merchandise for passage over wharf premises, to and from vessels, and barges. Wharfage was \$7.4 million higher compared to fiscal year 2018 mainly due to higher cargo volumes moved through terminals. Other shipping services revenues were \$2.3 million lower as dockage and demurrage revenue as well as assignment revenues decreased by \$0.2 million and \$2.6 million, respectively, due to construction projects at wharves. These decreases were offset by an increase of \$0.5 million in pilotage revenues.

Rentals

The Port generates revenues from making available various types of rental properties such as land, buildings, warehouses, wharves, and sheds. Rates are negotiated for these properties based upon two general classifications, waterfront and backland. Independent appraisals are performed periodically to establish benchmark rates for these properties. Rates ultimately set in land rental agreements may be adjusted, within reason, to reflect general market conditions. Rates for other categories of properties are also set taking into account the condition, location, utility, and other aspects of the property.

During fiscal year 2019, rental income at the Port, which represented 13.0% of fiscal year 2019 total operating revenues, increased by \$4.5 million, or 7.4%, over last fiscal year. The increase was mainly due to net rental rate increases and new permits.

Royalties, Fees, and Other Operating Revenue

The Port levies fees for a variety of activities conducted on the Port properties. Examples include royalties from the production of oil and natural gas, fees for parking lots, motion picture productions, foreign trade zone operations, miscellaneous concessions, distribution of utilities, and maintenance and repair services conducted by the Port at the request of customers.

Revenues from royalties, fees, and other operating revenues in fiscal year 2019 was \$30.1 million or 6.0% of the total operating revenues. This represented an increase of \$6.1 million in this revenue category compared with fiscal year 2018 mainly due to \$7.3 million in higher Harbor Maintenance Tax revenue, \$3.6 million in higher utility reimbursements, \$1.7 million in higher one-time reimbursements and \$0.5 million in other miscellaneous revenue, partially offset by \$6.8 million in lower license fees due to a terminated project and \$0.2 million in lower accommodation work revenues.

Management's Discussion and Analysis

Operating Expenses, Net of Direct and Indirect Costs (amounts in thousands)

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

The following chart shows the graphical comparison of the Port's operating expenses, net of direct and indirect costs, for fiscal years 2020, 2019 and 2018:

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Operating Expenses, Fiscal Year 2020

Operating expenses are presented net of direct and indirect costs allocated to capitalized construction projects. Direct costs are costs of materials, labor, and expenses assigned or identified with specific capital projects. Indirect costs are overhead costs not directly identified with a particular capital project such as administrative expenses, maintenance costs and City services, and hence, are allocated based on the average outstanding balance of capitalized construction projects.

In fiscal year 2020, operating expenses increased by \$33.1 million to \$273.6 million, a 13.8% increase from prior fiscal year expenses of \$240.4 million. Major components of operating expenses are salaries and benefits, city services, outside services, utilities, materials and supplies, and other operating expenses that are further discussed and analyzed below.

Salaries and benefits expense including pension and OPEB expenses increased by \$22.8 million to \$145.8 million, or 18.5% higher than the prior year expense of \$123.1 million due to salary and benefit increases for certain classes of represented employees as well as retroactive salary payments as result of renewal of labor agreements.

Total payments for City services of \$48.4 million increased by \$3.1 million or 7.0% relative to the prior fiscal year of \$45.2 million due to \$2.7 million related to higher utilization of fire service, \$1.2 million in higher recreation and park services, and \$0.2 million in higher miscellaneous city services, which was partially offset by \$0.5 million in lower personnel services, \$0.4 million in lower outside counsel services, and \$0.1 million in lower general services.

Outside services expenses of \$31.8 million decreased by \$1.6 million or 4.8% relative to the prior fiscal year of \$33.4 million with spending decreases totaling \$4.1 million across various divisions throughout the Port offset by \$2.5 million spending increases in legal services for environmental matters, investigation services for personnel matters, and construction costs.

Materials and supplies expenses of \$5.7 million decreased by \$0.9 million or 14.0% relative to the prior fiscal year of \$6.6 million primarily due to lower materials and supplies purchases within the Construction and Maintenance division. As a direct result from the Pandemic, many maintenance projects were deferred to focus on health and safety, maintaining the Port's infrastructure, and to assist Logistics Victory LA (LoVLA), a partnership with local hospitals to expedite the movement of critically needed personal protective equipment (PPE). Deferring maintenance projects, as well as delays in delivery of materials and supplies drove lower spending.

Other operating expenses of \$21.1 million represented an increase of \$11.4 million, or 117.6%, relative to prior fiscal year other operating expenses of \$9.7 million. This increase in other operating expenses was primarily attributable to higher pollution remediation expense by \$4.2 million for last year's downward adjustment to provisioning and this year's estimated provision for future spending to remediate pollution at various sites throughout the Port, higher customer incentive expense by \$6.1 million for container incentive payouts, higher provisioning for workers' compensation liabilities by \$1.7 million, higher provisioning for litigation and claim expenses by \$1.4 million, higher taxes and assessments expense by \$0.7 million due to higher tax rate and higher environmental incentive payouts by \$0.6 million. These increases were partially

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

offset by \$2.1 million related to lower subsidies in the clean truck program and \$1.2 million in lower spending in utilities and miscellaneous expenses.

Operating Expenses, Fiscal Year 2019

Operating expenses are presented net of direct and indirect costs allocated to capitalized construction projects. Direct costs are costs of materials, labor, and expenses assigned or identified with specific capital projects. Indirect costs are overhead costs not directly identified with a particular capital project such as administrative expenses, maintenance costs and City services, and hence, are allocated based on the average outstanding balance of capitalized construction projects.

In fiscal year 2019, operating expenses increased by \$3.5 million to \$240.4 million, a 1.5% increase from prior fiscal year expenses of \$237.0 million. Major components of operating expenses are salaries and benefits, city services, outside services, utilities, materials and supplies, and other operating expenses that are further discussed and analyzed below.

Salaries and benefits expense including pension and OPEB expense increased by \$1.5 million to \$123.0 million, or 1.3% higher than the prior year expense of \$121.5 million due to salary increases for certain classes of represented employees.

Total payments for City services of \$45.2 million increased by \$2.5 million or 5.8% relative to the prior fiscal year of \$42.7 million due to higher fire and city attorney services.

Outside services expenses of \$33.4 million increased by \$3.5 million or 11.8% relative to the prior fiscal year of \$29.9 million with spending increases totaling \$6.8 million across various divisions throughout the Port offset by \$3.3 million spending decreases in various environmental, management audits, photocopier rental service, and bond assistance programs. These increases in outside services expenses were primarily attributable to the following: higher spending on the supply chain optimization GE Portal project by \$2.5 million, higher spending on facility maintenance relating to wharf demolition work by \$2.3 million, higher spending on external legal service for environmental documents by \$0.6 million, higher spending on federal advocacy by \$0.3 million, higher spending on consulting costs associated with the lashing training program for local work force by \$0.3 million, higher spending across various divisions by \$0.8 million.

Materials and supplies expenses of \$6.6 million decreased by \$0.4 million or 5.3% relative to the prior fiscal year of \$7.0 million primarily due to \$0.7 million in lower materials and supplies purchases within the Construction and Maintenance division, lower spending of \$0.1 million within the Maintenance Improvement Program, and lower spending of \$0.1 million in the Waterfront and Commercial Real Estate division which was partially offset by a \$0.5 million increase in Port Police supply purchases.

Other operating expenses of \$9.7 million represented a decrease of \$7.7 million, or 44.3%, relative to prior fiscal year other operating expenses of \$17.4 million. This decrease in other operating expenses was primarily attributable to lower provisioning for bad debt by \$5.6 million due to the non-recurrence of a prior year provision for anticipated collection issues associated with the Southern California Intermodal Gateway project, lower provisioning for pollution remediation obligations by \$0.3 million, lower provisioning for workers' compensation liabilities by \$1.3 million, and lower provisioning for litigation and claim expenses by \$2.5 million. These decreases were partially offset by payments of \$2.0 million related to the clean truck program.

Nonoperating Revenues and Expenses, Fiscal Year 2020

Net nonoperating revenues (expenses) for fiscal year 2020 of \$19.4 million decreased by \$41.8 million relative to net nonoperating revenues of \$61.3 million in fiscal year 2019.

Nonoperating revenues decreased by \$15.7 million due to a one-time recovery receipts of \$26.9 million in prior year from an intermodal gateway project and lower joint powers authority revenues by \$0.1 million. These decreases were partially offset by higher grant revenues by \$3.2 million, higher interest and investment income by \$6.8 million, and higher other nonoperating revenues by \$1.3 million.

Nonoperating expenses increased by \$26.2 million in fiscal year 2020 primarily due to higher interest expense by \$23.4 million, capitalization of which is no longer required (see page 55), higher pass-through grant expenses by \$3.1 million, and higher other nonoperating expenses by \$0.7 million. These increases were partially offset by lower discontinued capital projects by \$1.0 million.

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

Nonoperating Revenues and Expenses, Fiscal Year 2019

Net nonoperating revenues (expenses) for fiscal year 2019 of \$61.3 million increased by \$58.3 million relative to net nonoperating revenues of \$3.0 million in fiscal year 2018.

Nonoperating revenues increased by \$61.5 million due to higher interest and investment income by \$5.7 million, higher unrealized gain from better investment yields by \$26.5 million, higher recovery receipts from an intermodal gateway project that was set aside through a court decision by \$26.9 million and higher other nonoperating revenues by \$2.4 million.

Nonoperating expenses increased by \$3.2 million in fiscal year 2019 primarily due to higher discontinued capital project by \$3.0 million, higher pass-through grant expenses by \$2.2 million. These increases were partially offset by lower losses on assets sales by \$1.2 million, lower commercial paper costs by \$0.5 million, and lower interest expense by \$0.3 million.

Long-Term Debt

The Port's long-term debt is comprised of senior lien debt in the form of Harbor Department Revenue Bonds. As of June 30, 2020 and 2019, the Port's outstanding long-term debt was \$711.1 million and \$810.1 million, respectively. For all outstanding bonds, the Port continues to maintain Aa2, AA, and AA credit ratings from Moody's Investors Service (Moody's), S&P Global Ratings (S&P), and Fitch Ratings (Fitch), respectively. See Note 7 starting on page 68 of this report for additional information.

Bonded Debt

Under Section 609 of the City Charter and the Bond Procedural Ordinance, the Port's capacity to issue debt is not limited. However, the Port's capacity is constrained under covenants of the currently outstanding debt to an aggregate ratio of annual net revenue to annual debt service of at least one hundred twenty-five percent (125%). The Port's financial policy requires that a minimum of 2.0x debt service coverage be maintained at all times. At June 30, 2020, the Port's debt service coverage was 3.0x debt service.

The Port's long-term debt consisted of the following as of June 30, 2020, 2019, and 2018 (in thousands):

	FY 2020	FY 2019	FY 2018			
Revenue bonds payable Net unamortized premiums	\$ 711,080 77,409	\$ 810,110 59,950	\$	854,125 68,308		
Total	\$ 788,489	\$ 870,060	\$	922,433

Capital Assets

The Port's investment in capital assets, net of accumulated depreciation and amortization as of June 30, 2020, 2019 and 2018 amounted to \$3.8 billion, \$3.8 billion, and \$3.9 billion, respectively. These accounted for 78.5%, 79.6%, and 82.5%, of total assets, respectively. The following table presents the Port's capital assets, net of accumulated depreciation for fiscal years 2020, 2019 and 2018 (in thousands):

Summary of Capital Assets

					Increase(Decrease) Over Prior Year			
	 FY 2020		FY 2019	 FY 2018		FY 2020		FY 2019

See Note 5 on pages 65 – 66 of this report for additional information.

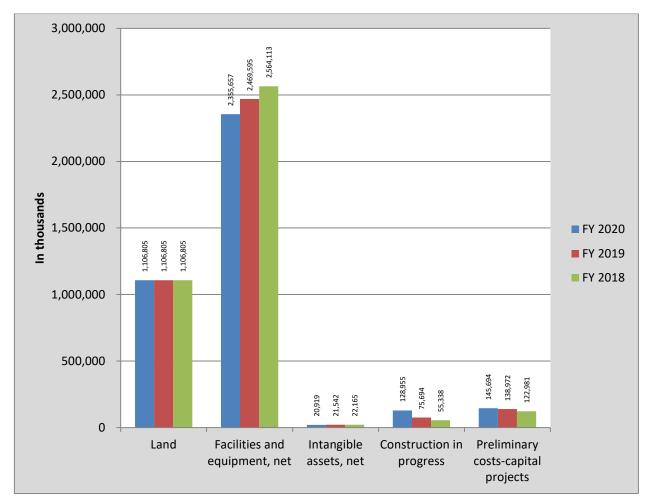

The Port has active construction projects as of June 30, 2020. The projects include Berth 226-236 Everport Terminal Improvements, San Pedro Waterfront Redevelopment, Wilmington Waterfront Redevelopment, State Route 47/Vincent Thomas Bridge and Front Street/Harbor Boulevard Interchange Reconfiguration, and various other capital projects. At June 30, 2020, 2019, and 2018, the Port's commitments with contractors for capital projects were \$1.6 million, \$1.7 million, and \$1.5 million, respectively.

Capital Assets, Fiscal Year 2020

Major capital assets activities during fiscal year 2020 are as follows:

- \$16.6 million various projects at buildings and facilities of the Port including street modifications, facilities and buildings improvements.
- \$10.0 million continued design and construction of San Pedro Waterfront and Wilmington Waterfront Development projects including, but not limited to Sampson Way roadway improvements, the Wilmington Waterfront Promenade, the Avalon Promenade and Gateway, and Ports O' Call Promenade and Town Square.
- \$9.5 million redevelopment projects at the Everport Container Terminal including installation and upgrade of Alternative Maritime Power (AMP) system, wharf and backland improvements, and terminal infrastructure reconstruction.
- \$9.2 million various homeland security projects including acquisition of port police radio system, development of dispatch and records management system, and facility security improvements.
- \$9.0 million various transportation projects including construction of the interchange reconfiguration project at SR-47/Vincent Thomas Bridge and Front Street/Harbor Boulevard, south Wilmington grade separation, construction of Berth 200 rail yard track connection enhancements and drainage improvements, and various street resurfacing projects.
- \$5.1 million various miscellaneous projects for sidewalk improvements, berth pile and log replacement, dockside facility improvements.
- \$4.7 million redevelopment projects at various terminals including wharf rehabilitation, facility expansion, and infrastructure improvements.
- \$1.5 million redevelopment projects at Pier 400 for storage tracks expansion.
- \$1.4 million various projects at berths with liquid bulk oil cargo handling facilities to comply with Marine Oil Terminal Engineering Maintenance Standards (MOTEMS).
- \$1.4 million various projects at the Port's World Cruise Center including installation of new elevators, repairs of vehicular and pedestrian ramp, modernization of terminal escalator, and other miscellaneous improvements.
- \$1.2 million redevelopment projects at Berth 171-181 including wharf restoration, facility replacement, and electrical infrastructure improvements.
- \$1.1 million redevelopment projects at the Trapac Terminal including backland and intermodal facility improvements.

Management's Discussion and Analysis

Capital Assets, Fiscal Year 2019

Major capital assets activities during fiscal year 2019 are as follows:

- \$11.5 million continued design and construction of San Pedro Waterfront and Wilmington Waterfront Development projects including, but not limited to Sampson Way roadway improvements, the Wilmington Waterfront Promenade, the Avalon Promenade and Gateway, and Ports O' Call Promenade and Town Square.
- \$8.2 million various projects at buildings and facilities of the Port including street modifications, facilities and buildings improvements.
- \$5.9 million various transportation projects including preparation of the interchange reconfiguration project at SR-47/Vincent Thomas Bridge and Front Street/Harbor Boulevard, reconstruction of Navy Way speed hump, construction of Berth 200 rail yard track connection enhancements, and various street resurfacing projects.
- \$5.4 million various miscellaneous projects for sidewalk improvements, berth pile and log replacement, dockside facility improvements.
- \$4.8 million wharf rehabilitation at the WWL Vehicle Services Americas, Inc. terminal and seawall improvement projects.
- \$2.3 million redevelopment projects at the Everport Container Terminal including wharf and backland improvements.
- \$2.1 million various projects at berths with liquid bulk oil cargo handling facilities to comply with Marine Oil Terminal Engineering Maintenance Standards (MOTEMS).
- \$2.0 million various projects at the Port's World Cruise Center including installation and upgrade of Alternative Maritime Power (AMP) system, installation of new elevators, repairs of vehicular and pedestrian ramp, modernization of terminal escalator, and other miscellaneous improvements.
- \$1.0 million projects for various security enhancements.

(Unaudited)

Factors That May Affect the Port's Operations

There is significant competition for container traffic among North American ports. The availability of alternate port facilities at competitive prices affects the use of the Port's facilities and therefore the revenues of the Port. Formation of shipping alliances adds to the complexity as shipping lines which have ownership in terminals route cargo to terminals that are not owned by them, but by their Alliance partners. While the shipping industry remains volatile in 2020, shipping lines are searching for the best terminal handling rates and even looking to the Port to provide incentives. The Port cannot predict the scope of such impact.

All of the ports on the West Coast of the U.S. compete for discretionary intermodal cargo destined for locations across the U.S. and Canada. Discretionary cargo makes up approximately 33% of cargo arriving at the Port. Currently, this discretionary cargo moves eastward both by rail and through the Panama Canal or westward through the Suez Canal. The use of all-water routes primarily through the Panama and Suez Canal to the East and Gulf Coasts of the U.S. is an alternative to Asian intermodal cargo moving through U.S. West Coast ports. Routing cargo via all-water service has a longer transit time and is usually less expensive to the beneficial cargo owner vs. routing via West Coast Ports and loading via rail. The newly completed Panama Canal Expansion Program added a new set of locks, which allows ships of greater size (up to 12,500 TEU) to transit the Canal. The expansion creates a route to the East and Gulf Coast for ships of greater capacity than the current "Panamax" ships. While the effects of an expanded Canal are unknown, the Port has an existing ability to handle the New Panamax and Super Post-Panamax ships and continues to maintain and improve its strong infrastructure and intermodal capabilities.

The activities at the Port may generate air emissions that are subject to legal and regulatory requirements. Such requirements mandate and offer certain incentives for reductions of air pollution from ships, trains, trucks and other operational activities. Paying for mandated air pollution reduction infrastructure, equipment and other measures may become a significant portion of the Port's capital budget and operating budget. Such expenditures may be necessary even if the Port does not undertake any new revenue-generating capital improvements.

Since taking office in January 2017, the Trump Administration has issued several executive orders and proclamations, and has indicated its intent to initiate additional executive orders, legislation, and regulations affecting Federal policy in areas such as tariffs and trade. Since January 2018, President Trump has applied a significant amount of new tariffs to a wide variety of products imported from China and other nations, including aluminum, steel, and consumer goods. While tariffs imposed by the U.S., China and other nations may have a financial impact upon the Port's revenues, as of the date of this report, insufficient information is available to estimate the magnitude of such potential impacts.

Since March 2020, the outbreak of the COVID-19 pandemic has affected the global supply chain resulting in an 11.6% decline in annual containers volume relative to the prior fiscal year. On the other hand, based on the historical trend, a reduction in the containers volume now could be followed by a subsequent surge in inbound cargo at a later time as inventories are depleted.

Competitive Environment

As of the fiscal year ended June 30, 2020, five major container ports controlled 98.6% of the entire U.S. West Coast containerized cargo market: the ports of Los Angeles, Long Beach, and Oakland in California, and the

Management's Discussion and Analysis

June 30, 2020 and 2019

(Unaudited)

ports of Seattle and Tacoma in Washington State. The ports of Los Angeles and Long Beach together had 72.3% of all U.S. West Coast market share based on a loaded TEU basis.

The industry is capital intensive and requires long lead times to plan and develop new facilities and infrastructure. Resources are typically allocated and facilities developed based upon the commitment of customers to long-term permits at the Port that currently range from 15 to 30 years before expiration. Occupancy remains high and West Coast ports have limited land areas for expansion. Additionally, the greater Los Angeles area represents not only a large destination market for waterborne goods, but also an attractive point of origin for supply chain distribution throughout the Southern California region and the rest of nation as the Port has extensive on-dock rail facilities creating intermodal connections that provide for time-to-market advantages.

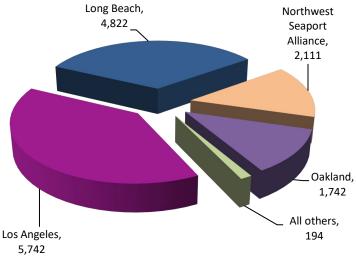

The following presents a summary of the West Coast container market share for fiscal years 2018 to 2020:

	Loaded	Loaded TEUs (in thousands)* Percentage Market Sha			Share	
Ports	FY 2020	FY 2019	FY 2018	FY 2020	FY 2019	FY 2018

Notes to Financial Statements

June 30, 2020 and 2019

1. Organization and Summary of Significant Accounting Policies

The financial statements of the Harbor Department of the City of Los Angeles, California (hereafter referred to as "Port of Los Angeles" or "Port") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Port's significant accounting policies are described below.

A. Organization and Reporting Entity

The Harbor Department is a proprietary department of the City of Los Angeles, California (the City), formed for the purpose of managing the tidelands property granted by the State of California commonly known as the Port of Los Angeles and operations thereon for specific maritime related purposes as explained below. The Port is under the control of a five-member Board of Harbor Commissioners (BHC), who are appointed by the Mayor and confirmed by the City Council. The Port is administered by an Executive Director and subject to the State public trust doctrine as described below.

The real property and related assets of the Port including land, waters, docks, wharves, transit sheds, terminals, and other facilities (i.e., Trust Assets), were granted to the City in tidelands grants from the State of California (State), with retained oversight by the State Lands Commission. The State's statutory grants specify the granted tidelands are subject to the Trust Purposes, which require the Trust Assets to be used for maritime commerce, navigation, fisheries, and water-dependent activities for the benefit of the State. The Trust Purposes are also codified in the Charter of the City, which placed management and control of the Trust Assets under the Port. All revenues arising from the Trust Assets (Port operating revenues and proceeds of asset sales) are limited as to use for the Trust Purposes, including operation and maintenance of Port facilities, the acquisition and construction of improvements, and other similar Trust Purposes.

The Port prepares and controls its own financial plan, administers and controls its fiscal activities, and is responsible for all Port construction and operations. The Port operates as principal landlord for the purpose of assigning or leasing port facilities and land areas. The Port's principal source of revenue is from shipping services under tariffs (dockage and wharfage, etc.), rental of land and facilities, fees (parking and foreign trade zones), and royalties (oil wells). Capital construction is financed by cash from operations, debt secured by future revenues, and federal and state grants. The Port's permanent work force attends to the daily operation of the Port facilities and its regular maintenance. Generally, the Port uses commercial contractors for large construction projects.

Operations of the Port are financed in a manner similar to that of a private business. The Port recovers its costs of providing services and improvements through tariff charges for shipping services and the leasing of facilities to Port customers.

In evaluating how to define the Port for financial reporting purposes, management has considered all potential component units by applying the criteria set forth by the GASB. The financial statements present only the financial activities of the Port in conformity with GAAP and are not intended to present the financial position and results of operations of the City.

Notes to Financial Statements

June 30, 2020 and 2019

Reporting Entity

The Los Angeles Harbor Improvements Corporation (LAHIC) is a nonprofit public benefit corporation organized under the laws of the state of California for public purposes. LAHIC was formed to assist the Port in undertaking financing third party capital expenditures at potentially advantageous terms that the BHC deems necessary for the promotion and accommodation of commerce.

The board of directors of LAHIC consists of five members. Election of the LAHIC board of directors occurs by vote of the BHC. The BHC is financially responsible for LAHIC's activities. Further, although LAHIC is legally separate from the Port, it is reported as if it were part of the Port, because its sole purpose is to help finance and construct facilities and improvements, related to Port activities.

LAHIC is included in the reporting entity of the Port, and accordingly, the operations of LAHIC are blended in the Port's accompanying financial statements. LAHIC's cash balance in the amount of \$21 thousand equaled to the payable amount owed to the Port as of both June 30, 2020 and 2019. LAHIC reported no net position at June 30, 2020 and 2019. Separate financial statements for LAHIC may be obtained from the Deputy Executive Director and Chief Financial Officer, Port of Los Angeles, 425 S. Palos Verdes Street, San Pedro, California 90731.

B. Summary of Significant Accounting Policies

Method of Accounting – The Port's activities are accounted for as an enterprise fund, and as such, its financial statements are presented using the economic resources measurement focus and the accrual method of accounting. Under this method of accounting, revenues are recognized when earned and expenses are recorded when the related liabilities are incurred regardless of the timing of cash flow.

Cash, Cash Equivalents, and Investments – The Port pools its available cash with that of the City. All cash and investments pooled with the City, plus cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition are considered cash and cash equivalents.

Interest income and realized gains and losses arising from such pooled cash and investments are apportioned to each participating City department fund based on the relationship of such department fund's respective average daily cash balances to aggregate pooled cash and investments. The change in the fair value of pooled investments is allocated to each participating City department fund based on the aggregate respective cash balances at year-end.

The Port's investments, including its share of the City's Investment Pool, are stated at fair value. Fair value is determined based upon market closing prices or bid/ask prices for regularly traded securities. The fair value of investments with no regular market is estimated based on similarly traded investments. The fair value of mutual funds, government-sponsored investment pools, and other similar investments is stated at share value or an allocation of fair value of the pool, if separately reported. Certain money market investments with initial maturities at the time of purchase of less than one year are recorded at amortized cost. The calculation of realized gains is independent of the calculation of the net increase in the fair value of investments. Realized

Notes to Financial Statements

June 30, 2020 and 2019

gains and losses on investments that had been held more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in fair value of investments reported in the prior year and the current year.

Securities Lending – As a participant in the City's Investment Pool, the Port's funds are also part of the City's securities lending program (SLP). The investment collateral received by the City together with the corresponding liability is allocated among the City's participating funds based on the aggregate respective cash balances at fiscal year-end.

Materials and Supplies Inventories – Inventories of materials and supplies are stated at lower of weighted average cost or market.

Capital Assets – Capital assets are carried at cost or at acquisition value at the date received, in the case of properties acquired by donation, and by termination of leases for tenant improvements, less allowance for accumulated depreciation. The Port has a capitalization threshold of \$5,000. Capital assets include intangible assets for the Port's radio frequency licenses, emission mitigation credits, and capitalized costs of the Port's integrated financial accounting system, the Enterprise Resource Planning System.

Preliminary costs for developing proposed capital projects that are incurred prior to the finalization of formal capital projects are capitalized. Upon completion of capital projects, such preliminary costs are transferred to the appropriate property account. In the event the proposed capital projects are abandoned, the associated preliminary costs are charged to expense in the year of abandonment. Preliminary costs - capital projects as of June 30, 2020 and 2019 are \$145.7 million and \$139.0 million, respectively.

Prior to the beginning of fiscal year 2020, the Port capitalized interest costs incurred on indebtedness issued in connection with the acquisition, construction or improvement of capital assets, net of interest revenue on reinvested debt proceeds. Interest capitalized in fiscal year 2019 was \$31.6 million. At the beginning of fiscal year 2020, the Port early implemented GASB Statement No. 89, *"Accounting for Interest Cost Incurred before the End of a Construction Period,"* that requires interest costs to be expensed instead of capitalized. Interest costs incurred in fiscal year 2020 are expensed.

The Port capitalizes indirect project costs associated with the acquisition, development, and construction of new capital projects. Indirect project costs allocated to construction projects for fiscal years 2020 and 2019 were \$19.1 million and \$18.6 million, respectively.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets. The estimated useful lives of the Port's depreciable assets are as follows:

Wharves and sheds	15 to 30 years
Buildings and facilities	10 to 50 years
Equipment	3 to 18 years
Intangible assets	20 years

Investments in Joint Powers Authorities – Investments in joint power authorities are accounted for by the equity method.

Notes to Financial Statements

June 30, 2020 and 2019

Accrued Salaries and Employee Benefits – Aside from accrued salaries, the Port records as liabilities all accrued employee benefits, including estimated liabilities for certain unused vacation and sick leave in the period the benefits are earned. Port employees accumulate annual vacation and sick leave based on their length of service up to a designated maximum. Upon termination or retirement, employees are paid the cash value of their accumulated leave benefits in accordance with the City policy.

Deferred Outflows and Inflows of Resources – In addition to assets, the Port reports a separate section for deferred outflows of resources. This represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until then. The Port has three items that qualified for reporting in this category. They are deferred charges on debt refunding, deferred outflows of resources related to pensions, and deferred outflows of resources related to postemployment benefits other than pensions (other postemployment benefits or OPEB). A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the Port reports a separate section for deferred inflows of resources. This represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. The Port has two items that qualified for reporting in this category – deferred inflows of resources related to pensions and deferred inflows of resources related to OPEB.

Deferred outflows and inflows of resources related to pensions result from diverse pension related transactions and events including pension contributions subsequent to measurement date, changes of assumptions or other inputs, difference between expected and actual experience in the total pension liabilities, changes in proportionate share of contributions, and net differences between projected and actual pension plan investment earnings.

Deferred outflows and inflows of resources related to OPEB result from diverse OPEB related transactions and events including OPEB contributions subsequent to measurement date, changes of assumptions or other inputs, difference between expected and actual experience in the total OPEB liabilities, changes in proportionate share of contributions, and net differences between projected and actual plan investment earnings.

Operating and Nonoperating Revenues and Expenses – The Port differentiates between operating revenues and expenses, and nonoperating revenues and expenses. Operating revenues and expenses generally result from the Port's primary ongoing operations. All revenues and expenses other than these are reported as nonoperating revenues and expenses.

Revenues from shipping services, rental fees, and royalties are the major sources of the Port's revenues. Shipping services revenues consist of fees assessed for various activities relating to vessel and cargo movement. Twenty-foot equivalent units (TEUs) and metric tons are the measures used to determine cargo volumes that move through the Port. Rental fees are collected from the lease of various types of rental properties in Port-controlled lands. Rental rates are set using various methodologies, and are appraised periodically to evaluate and establish benchmark rates. Rental rates may be adjusted, within reason, to reflect general market conditions. The Port

Notes to Financial Statements

June 30, 2020 and 2019

levies fees for various activities such as royalties from oil and natural gas production, fees for parking lots, and miscellaneous concessions.

Operating Expenses – The Port presents operating expenses at net of direct and indirect overhead costs allocated to capitalized construction projects. Direct costs are costs of materials, labor, and expenses assigned or identified with specific capitalized construction projects. Indirect costs are those that are not directly identifiable with a particular capital project and hence, are allocated to all outstanding construction projects. Indirect overhead costs such as administrative expenses, maintenance salaries and City services are allocated to projects based on the average outstanding balance of capitalized construction projects.

Indirect overhead costs are defined to be the costs not directly attributable to those activities related to a capital project. The overhead rate is calculated based on the ratio of the costs of the direct amount of work assigned to capital projects to the total amount of hours worked by Port staff. The resulting rate is defined as the indirect overhead rate and is applied to the operating expenses of those divisions that participate both directly and indirectly in the activities related to capital projects. The resulting indirect overhead amount is then allocated on a pro-rata basis to capitalized construction projects based on the outstanding balance of each project.

Operating Leases – The Port leases a substantial portion of land and facilities to others. Leases relating to terminal operations tend to be long-term in nature (as long as 66 years), which generate 94.7% of the Port's operating revenues through shipping related activities. Short-term real estate entitlement such as revocable permits and space assignments can be canceled on a 30-day notice by either party. The majority of the Port's leases provide retention of ownership by the Port or restoration of the property to pre-leased conditions at the expiration of the agreement; accordingly, no leases are considered capital leases. See note 12 on page 79 for additional information.

Pension and OPEB Plans – All full-time civilian Port employees are eligible to participate in the Los Angeles City Employees' Retirement System (LACERS), a defined benefit single-employer retirement plan. All full-time Port police officers are eligible to participate in the City of Los Angeles Fire and Police Pension System (LAFPP), a defined benefit single-employer retirement plan. The Port funds fully its entire annual share of LACERS and LAFPP pensions and the respective OPEB contributions. The funding amounts are determined at the start of each fiscal year and are incorporated as part of the Port's payroll to reimburse the City for the Port's pro rata contribution share.

For purposes of measuring the net pension liabilities and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of LACERS and LAFPP, and additions to/deductions from LACERS and LAFPP's fiduciary net positions have been determined on the same basis as they are reported by LACERS and LAFPP. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements

June 30, 2020 and 2019

For fiscal years ended June 30, 2020 and 2019, the Port reported total net pension liabilities, deferred outflows/inflows or resources related to pensions, and pension expense as follows (in thousands):

	2020	2019
Net pension liabilities:		
LACERS - proportionate shares	\$220,724	\$215,435
LAFPP - proportionate shares	7,260	4,585
Total net pension liabilities	\$227,984	\$220,020
Deferred outflows of resources related to pensions:		
LACERS - proportionate shares	\$ 38,901	\$ 48,375
LAFPP - proportionate shares	7,478	5,285
Total deferred outflows of resources related to pensions	\$ 46,379	\$ 53,660
Deferred inflows of resources related to pensions:		
LACERS - proportionate shares	\$ 19,210	\$ 26,836
LAFPP - proportionate shares	2,754	4,580
Total deferred inflows of resources related to pensions	\$ 21,964	\$ 31,416
Pension expense:		
LACERS - proportionate shares	\$ 26,048	\$ 19,267
LAFPP - proportionate shares	2,757	1,646
Total pension expense	\$ 28,805	\$ 20,913

See note 13 starting on page 80 and note 14 starting on page 93, as well as required supplementary information on pages 109-114, for additional information.

For purpose of measuring the net OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net positions of LACERS and LAFPP, and additions to/deductions from LACERS and LAFPP's OPEB fiduciary net positions have been determined on the same basis as they are reported by LACERS and LAFPP. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to Financial Statements

June 30, 2020 and 2019

For the fiscal years ended June 30, 2020 and 2019, the Port reported total net OPEB liabilities, deferred outflows/inflows or resources related to OPEB, and OPEB expense as follows (in thousands):

		2020	2019	
Net OPEB liabilities:				
LACERS - proportionate shares	\$	19,085	\$	21,785
LAFPP - proportionate shares		3,018		2,447
Total net OPEB liabilities	\$	22,103	\$	24,232
Deferred outflows of resources related to OPEB:				
LACERS - proportionate shares	\$	8,231	\$	8,311
LAFPP - proportionate shares		2,302		1,582
Total deferred outflows of resources related to OPEB	\$	10,533	\$	9,893
Deferred inflows of resources related to OPEB:				
LACERS - proportionate shares	\$	9,186	\$	7,726
LAFPP - proportionate shares	• 	628		478
Total deferred inflows of resources related to OPEB	\$	9,814	\$	8,204
OPEB expense:				
LACERS - proportionate shares	\$	2,597	\$	3,164
LAFPP - proportionate shares	Ψ	1,082	Ψ	919
		<u> </u>		
Total OPEB expense	\$	3,679	\$	4,083

See note 13 starting on page 80 and note 14 starting on page 93, as well as required supplementary information on pages 109 -114, for additional information.

Capital Contributions – The Port may receive grants for the purpose of acquisition or construction of property and equipment. These grants are generally structured as reimbursements against expenditures. Grants and similar items are recognized as capital contributions as soon as all eligibility requirements imposed by the provider have been met.

Net Position – The statements of net position are designed to display the financial position of the Port. The Port's equity is reported as net position, which is classified into the following categories:

 Net investment in capital assets – This category consists of capital assets, reduced by accumulated depreciation and by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this category.

Notes to Financial Statements

June 30, 2020 and 2019

- *Restricted* This category consists of restrictions placed on net position through external constraints imposed by creditors (such as debt covenants), grantors, contributors, or law or regulations of other governments. Constraints may also be imposed by law or constitutional provisions or enabling legislation.
- Unrestricted This category consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Port's policy to use unrestricted resources as needed and restricted resources for the purpose for which the restriction exists first.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Reclassifications – Certain reclassifications have been made to amounts reported in fiscal year 2019 to conform to the fiscal year 2020 presentation. Such reclassification had no impact on the change in net position previously reported.

Notes to Financial Statements

June 30, 2020 and 2019

2. Adoption of New GASB Pronouncements

<u>GASB Statement No. 84, *"Fiduciary Activities."* Issued in January 2017, this statement establishes criteria for identifying fiduciary activities for accounting and financial reporting purposes and describes four fiduciary funds that should be reported, if applicable. The statement has no impact on the Port's financial statements.</u>

<u>GASB Statement No. 89, "Accounting for Interest Cost Incurred before the End of a Construction</u> <u>Period."</u> Issued in June 2018, this statement (1) enhances the relevance and comparability of information about capital assets and cost of borrowing for a reporting period and (2) simplifies accounting for interest cost incurred before the end of a construction period. The statement has been early implemented at the beginning fiscal year 2020. Interest costs incurred in fiscal year 2020 have been expensed instead of capitalized.

GASB Statement No. 90, "Majority Equity Interests—an amendment of GASB Statements No. 14 and <u>No. 61.</u>" Issued in August 2018, this statement improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and improves the relevance of financial statement information for certain component units. The statement has no material impact on the Port's financial statements.

<u>GASB Statement No. 95, "Postponement of the Effective Dates of Certain Authoritative Guidance."</u> Issued in May 2020, the objective of this statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic by postponing the effective dates of certain GASB provisions. The statement is effective immediately and postponed the following pronouncements and related implementation guides by one year:

- Statement No. 83, Certain Asset Retirement Obligations
- Statement No. 84, *Fiduciary Activities*
- Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period
- Statement No. 90, *Majority Equity Interests*
- Statement No. 91, *Conduit Debt Obligations*
- Statement No. 92, *Omnibus 2020*
- Statement No. 93, *Replacement of Interbank Offered Rates*

The effective date of the following pronouncement and related implementation guide is postponed by 18 months:

• Statement No. 87, *Leases*

- 55 -

Notes to Financial Statements

June 30, 2020 and 2019

3. Recent GASB Pronouncements for Future Adoption

The GASB has issued several pronouncements that have effective dates that may affect future presentations. GASB Statement No. 95 postponed the effective dates for GASB Statement Nos. 87, 91, 92 and 93. The effective dates noted below reflect the new effective dates for those statements. The Port is evaluating the potential impacts of the following GASB statements on its accounting practices and financial statements.

<u>GASB Statement No. 87, "Leases.</u>" Issued in June 2017, this statement increases the usefulness of government's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on payment provisions of the contract. It also establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The statement will be effective beginning fiscal year 2022.

<u>GASB Statement No. 91, "Conduit Debt Obligations."</u> Issued in May 2019, this statement provides a single method of reporting conduit debt obligations by issuers and eliminates diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. The statement will be effective beginning fiscal year 2023.

<u>GASB Statement No. 92, "Omnibus 2020."</u> Issued in January 2020, this statement for clarity and consistency by addressing practice issues identified from the implementation and application of certain GASB statements. The statement will be effective beginning fiscal year 2022.

<u>GASB Statement No. 93, "Replacement of Interbank Offered Rates."</u> Issued in March 2020, this statement is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate (IBOR) such as the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021. The statement will be effective beginning fiscal year 2022.

GASB Statement No. 94, *"Public-Private and Public-Public Partnerships and Availability Payment* <u>Arrangements.</u>" Issued in March 2020, this statement is to improve financial reporting by establishing the definitions of public-private and public-public partnership arrangements (PPPs) and available payment arrangement (APAs) and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. The statement will be effective beginning fiscal year 2023.

<u>GASB Statement No. 96, "Subscription-Based Information Technology Arrangements."</u> Issued in June 2020, the statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for governments by (1) defining a SBITA, (2) establishing that a SBITA results in a right-to-use subscription asset-an intangible assetand a corresponding subscription liability, (3) providing the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA, and (4) requiring note disclosures regarding a SBITA. The statement will be effective beginning fiscal year 2023.

Notes to Financial Statements

June 30, 2020 and 2019

<u>GASB Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting</u> for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB <u>Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32."</u> Issued in June 2020, the statement will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans (e.g., certain Section 457 plans), while mitigating the costs associated with reporting those plans. The statement will be effective beginning fiscal year 2022.

Notes to Financial Statements

June 30, 2020 and 2019

4. Cash and Investments

The Port's cash and investments consist of the following (in thousands):

	2020			2019		
Cash in bank and certificates of deposit	\$	239	\$	239		
Investment in U.S. Treasury and money market fund		42,281		63,348		
Equity in the City of Los Angeles Investment Pool		951,705		855,625		
Total cash and investments	\$	994,225	\$	919,212		

Certain of the Port's cash and investments are restricted as to use by reason of bond indenture requirements or similar legal mandate. The Port's unrestricted and restricted cash and investments are as follows (in thousands):

	 2020	 2019
Unrestricted cash and cash equivalents	\$ 928,706	\$ 830,703
Restricted cash and cash equivalents Current		
China Shipping Mitigation Fund	9,246	12,166
Community Mitigation Trust Fund – Trapac	122	117
Narcotics/Customs Enforcement Forfeiture Fund	727	598
Clean Truck Program and Fee Fund	5	5
Other	 1,966	 1,876
Subtotal – Current	 12,066	 14,762
Noncurrent		
Harbor Revenue Bond Funds	42,281	63,348
Customer Security Deposits	3,127	3,060
Batiquitos Environmental Fund	7,449	6,753
Harbor Restoration Fund	 596	 586
Subtotal – Noncurrent	 53,453	 73,747
Total restricted cash and investments	 65,519	 88,509
Total cash and investments	\$ 994,225	\$ 919,212

Notes to Financial Statements

June 30, 2020 and 2019

A. Deposits

The Port had cash deposits and certificates of deposit with several major financial institutions amounting to \$0.2 million at June 30, 2020 and 2019. The deposits were entirely covered by federal depository insurance or collateralized by securities held by the financial institutions in the Port's name in conformance with the California Government Code.

B. Pooled Investments

The cash balances of substantially all funds on deposit in the City Treasury are pooled and invested by the City Treasurer for the purpose of maximizing interest earnings through pooled investment activities but safety and liquidity still take precedence over return. Interest earned on pooled investments is allocated to and recorded in certain participating funds, as authorized by the Los Angeles City Council (City Council) and permitted by the City Charter and the California Government Code, based on each fund's average daily deposit balance. Investments in the City Treasury are measured and categorized by using fair value measurement guidelines established by generally accepted accounting principles.

Pursuant to California Government Code Section 53607 (State Code) and the City Council File No. 94-2160, the City Treasury provides the City Council a statement of investment policy (the Policy) annually. City Council File No. 11-1740 was adopted for the City's investment policy effective September 1, 2018. This Policy shall remain in effect until the City Council and the Mayor approve a subsequent revision. The Policy governs the City's pooled investment practices. The Policy addresses soundness of financial institutions in which the City Treasurer will deposit funds and types of investment instruments permitted by California Government Code Sections 53600-53638, 16340 and 16429.1. The City Treasury further reports that the current policy allows for the purchase of investments with maturities up to thirty (30) years.

Examples of investments permitted by the Policy are obligations of the U.S. Treasury and agencies, local agency bonds, commercial paper notes, certificates of deposit (CD) placement service, bankers' acceptances, medium term notes, repurchase agreements, mutual funds, money market mutual funds, and the State of California Local Agency Investment Fund.

The Port had \$951.7 million and \$855.6 million invested in the City's General Pool and three Special Investment Pools, representing approximately 7.5% and 7.3% of the City Treasury's General Pool and Special Investment Pools at June 30, 2020 and 2019, respectively.

The complete disclosures for the entire cash and investment pool are included in a publicly available financial report issued by the City. The report may be obtained by writing or calling: City of Los Angeles Office of the City Controller, 200 N. Main Street, City Hall East Room 300, Los Angeles, CA 90012, (213) 978-7555 or the Los Angeles City Controller's website http://www.lacontroller.org/reports.

Notes to Financial Statements

June 30, 2020 and 2019

C. Special Investment Pools

Out of \$951.7 million and \$855.6 million invested in the City's pooled investments, \$58.6 million and \$57.0 million were invested in the City's Special Investment Pools as of June 30, 2020 and 2019, respectively. They are the Emergency/ACTA Reserve Fund 751, the Restoration Fund 70L, and the Batiquitos Long-term Investment Fund 72W. Investments in the Special Investment Pools are managed in accordance with the California Government Code Sections 53600-53635 and the City's Policy.

At June 30, 2020 and 2019, investments held in the City's Special Investment Pools and their maturities are as follows (in thousands):

Fiscal Year 2020

			Investment Maturities											
			1	to 30	31 1	to 60	6	1 to 180		Over				
Type of Investments	A	Amount		Days		ays	Days		180 Days

U.S. Agencies securities		18,596						11,290		7,306				
Short-term investment funds		146		146										
Total investments in special pools	\$	58,625	\$	146	\$		\$	51,173	\$	7,306				

Fiscal Year 2019

			Investment Maturities								
				1 to 30 31 to		to 60	6	61 to 180		Over	
Type of Investments	Amount		Days		Days		Days		180 Days		
U.S. Agencies securities	\$	53,942	\$	39,190	\$		\$	7,999	\$	6,753	
Commercial paper		3,105						3,105			
Short-term investment funds		2		2							
Total investments in special pools	\$	57,049	\$	39,192	\$		\$	11,104	\$	6,753	

Interest Rate Risk. The Policy limits the maturity of its investments to five years for the U.S. Treasury and U.S. Agencies securities, local agency bonds, medium term notes, CD placement service, negotiable and non-negotiable certificates of deposit, collateralized bank deposits, mortgage pass-through securities, supranational obligations, state and local agency obligations, and bank/time deposits; one year for repurchase agreements; 270 days for commercial paper; 180 days for bankers' acceptances; 92 days for reverse repurchase agreements; and no maturity for mutual funds. The Policy also allows City funds with longer-term investments horizons, to be invested in securities that at the time of the investment have a term remaining to maturity in excess of five years, but with a maximum final maturity of thirty years.

Credit Risk. The Policy establishes minimum credit rating requirements for investments. There are no credit quality requirements for U.S. Treasury securities and U.S. Agencies securities. Investments in U.S. Agencies securities were not rated individually by S&P nor Moody's (issuers of these securities are rated "AA+/A-1+" by S&P and "Aaa/P-1" by Moody's).

Commercial paper issues must have the highest letter and number rating by nationally recognized statistical rating organization (NRSRO). The issuing corporation must be organized and operating

Notes to Financial Statements

June 30, 2020 and 2019

within the United States and have assets in excess of \$500.0 million. The Port's investments in commercial paper were rated A-1+ by S&P and P-1 by Moody's.

Concentration of Credit Risk. The Policy does not allow more than 40% of its investment portfolio to be invested in commercial paper and bankers' acceptances, 30% in certificates of deposit, and medium term notes, 20% in mutual funds, money market mutual funds or mortgage pass-through securities. The Policy further provides for a maximum concentration limit of 10% in any one issuer including its related entities. There is no percentage limitation on the amount that can be invested in the U.S. Treasury and government agencies. The City's pooled investments comply with these requirements.

D. Other Investments

In each issuance of a parity obligation, the Port is required to establish a reserve fund with a trustee pursuant to the indenture. All moneys in the reserve funds or accounts shall be invested by the trustee solely in permitted investments. Permitted investments on deposit in the debt service reserve funds are valued at fair value and marked to market at least once per half year to meet the specific requirement under the indenture. Investments held in the debt service reserve funds shall mature no later than the final maturity of the bonds.

The Port evaluates the value of the reserve funds on or at August 1 of each year, in accordance with the Indenture of Trust (Indenture). The common reserve was \$42.3 million at June 30, 2020 versus \$63.3 million at June 30, 2019. The reserve funds were invested in money market funds and U.S. Treasuries.

At June 30, 2020 and 2019, investments held in the reserve funds and their maturities are as follows (in thousands):

Invoctment Maturities

Fiscal Year 2020

		1	to 30	9	31 to 60	61 t	o 180	Over		
Type of Investments	 Amount		Days		Days	Days		180 Days

Total investments in reserve funds	\$	63,348	\$	567	\$	20,602	\$		\$	42,179	

Proceeds from any new money bonds should be invested in the "Permitted Investments" specified as follows: (1) direct obligations of the United States of America or obligations of the principal of and interest on which are unconditionally guaranteed by the United States of America; (2) bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by the federal or U.S. government agencies identified in the Indenture; (3) money market funds registered under

Notes to Financial Statements

June 30, 2020 and 2019

the Federal Securities Act of 1933, and having a rating of AAAm-G, AAA-m, or AA-m by S&P and Aaa, Aa1, or Aa2 by Moody's; (4) certificates of deposit issued by commercial bank, savings and loan associations, or mutual saving banks and secured at all times by collateral held by a third party; (5) certificates of deposits, savings accounts, deposit accounts, or money market deposits, which are fully insured by the Federal Deposit Insurance Corporation (FDIC), including the Bank Insurance Fund (BIF) and the Savings Association Insurance Fund (SAIF); (6) investment agreements including guaranteed investment contracts, forward purchase agreements, and reserve fund agreements with a provider whose long-term unsecured debt is rated not lower than the second highest rating category of Moody's, and S&P; (7) commercial paper rated at the time of purchase, "Prime-1" by Moody's, and "A-1" or better by S&P; (8) bonds or notes issued by any state or municipality, which are rated by Moody's and S&P in one of the two highest rating categories assigned by such agencies; (9) federal funds or banker's acceptances with a maximum term of one year of any bank, which has an unsecured, uninsured, and unguaranteed obligation rating of "Prime-1" or "A3" or better by Moody's and "A-1" or "A" or better by S&P; and (10) repurchase agreements between the Port and a dealer bank and securities firm. The term of the repurchase agreement may be up to 30 days and the value of the collateral must be equal to 104% of the amount of cash transferred to the dealer bank plus accrued interest. If the value of securities held as collateral slips below 104% of the value of the cash transferred by the Port, then additional cash and/or acceptable securities must be transferred. If, however, the securities used as collateral are the Federal National Mortgage Association (FNMA) or the Federal Home Loan Mortgage Corporation (FHLMC) then the value of collateral must equal to 105%.

For investments in reserve funds, there are no credit quality requirements for U.S. Treasury securities that are unconditionally guaranteed by the United States of America. Investments in short-term investment funds were rated AAA-m by S&P and Aaa by Moody's. There were no investments containing 5 percent or more of total investments in a single issuer except for U.S. Treasury securities that are unconditionally guaranteed by the United States of America.

E. City of Los Angeles Securities Lending Program

Portions of the Port funds are also used by the City in a Securities Lending Program (SLP) as part of the investment strategy relative to the total pool of funds invested by the City. The SLP is permitted and limited under provisions of California Government Code Section 53601. The City Council approved the SLP on October 22, 1991 under Council File No. 91-1860, which complies with the California Government Code. The objectives of the SLP in priority order are safety of loaned securities and prudent investment of cash collateral to enhance revenue from the investment program. The SLP is governed by a separate policy and guidelines.

The City's custodial bank acts as the securities lending agent. In the event a counterparty defaults by reason of an act of insolvency, the bank shall take all actions which it deems necessary or appropriate to liquidate permitted investment and collateral in connection with such transaction and shall make a reasonable effort for within two business days (Replacement Period) to apply the proceeds thereof to the purchase of securities identical to the loaned securities not returned. If during the Replacement Period, the collateral liquidation proceeds are insufficient to replace any of the loaned securities not returned, the bank shall, subject to payment by the City of the amount of any losses on any permitted investments, pay such additional amounts as necessary to make such replacement.

Notes to Financial Statements

June 30, 2020 and 2019

Under the provisions of the SLP, and in accordance with the California Government Code, no more than 20% of the fair value of the General Investment Pool (the Pool) is available for lending. The City loans out U.S. Treasury Notes, U.S. Agencies securities (e.g., Fannie Mae, Freddie Mac, Federal Home Loan Bank, Farmer Mac, Federal Farm Credit Bank and Tennessee Valley Authority), Medium-term Notes, and Supranational Obligations. The City receives cash as collateral on the loaned securities, which is reinvested in securities permitted under the Policy. In addition, the City receives securities as collateral on loaned securities, which the City has no ability to pledge or sell without borrower default. In accordance with the California Government Code, the securities lending agent marks to market the value of both the collateral and the reinvestments daily. Except for open loans where either party can terminate a lending contract on demand, term loans have a maximum life of 60 days. Earnings from securities lending accrue to the Pool and are allocated on a pro-rata basis to all Pool participants.

During fiscal years 2020 and 2019, collateralizations on all loaned securities were compliant with the required 102% of the fair value. The City can sell collateral securities only in the event of borrower default. The lending agent provides indemnification for borrower default. There were no violations of legal or contractual provisions and no borrower or lending agent default losses during the fiscal year. There was no credit risk exposure to the City because the amounts owed to the borrowers exceeded the amounts borrowed. Loaned securities are held by the City's agents in the City's name and are not subject to custodial credit risk.

The Port's share in the assets and liabilities from the reinvested cash collateral amounted to \$5.6 million and \$8.2 million as of June 30, 2020 and 2019, respectively.

Notes to Financial Statements

June 30, 2020 and 2019

F. Fair Value Measurement

The Port categorizes its fair value measurement within the fair value hierarchy established by GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets;
- Level 2 inputs are quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived from valuation techniques in which all significant inputs are observable; and
- Level 3 inputs are unobservable inputs.

The Port has the following recurring fair value measurements as of June 30, 2020:

	 Total	L	evel 1	L	evel 2	Level 3	
U.S. Treasury securities	\$ 41,789	\$	41,789	\$		\$	
Total investments - bond funds	\$ \$ 41,789		41,789	\$		\$	
U.S. Treasury securities	\$ 39,883	\$	39,883	\$		\$	
U.S. Agencies securities	 18,596				18,596		
Total investments - special pools	\$ 58,479	\$	39,883	\$	18,596	\$	

The Port has the following recurring fair value measurements as of June 30, 2019:

	Total		L	evel 1	L	evel 2	Le	vel 3
U.S. Treasury notes	\$	62,781	\$	62,781	\$		\$	
Total investments - bond funds	\$	\$ 62,781		62,781	\$		\$	
U.S. Agencies securities	\$	53,942	\$		\$	53,942	\$	
Commerical paper		3,105				3,105		
Total investments - special pools	\$	57,047	\$		\$	57,047	\$	

Investments in Short-term Investment Funds of the City's Special Investment Pools and Bond Reserve Funds are considered cash equivalents due to their liquidity and are excluded from the fair value measurement.

Net interest expense of \$24.7 million was expensed in fiscal year 2020 in accordance with GASB Statement No. 89 (see page 55). Net interest expense of \$31.6 million was capitalized in fiscal year 2019.

Notes to Financial Statements

June 30, 2020 and 2019

6. Investment in Joint Powers Authorities and Other Entities

The Port has entered into two joint powers agreements as follows:

A. Intermodal Container Transfer Facility Joint Powers Authority

The Port and the Harbor Department of the City of Long Beach, California (POLB) entered into a joint powers agreement to form the Intermodal Container Transfer Facility Joint Powers Authority (ICTF) for the purpose of financing and constructing a facility to transfer cargo containers between trucks and railroad cars. The Port contributed \$2.5 million to the ICTF as part of the agreement. The facility, which began operations in December 1986, was developed and operated by Southern Pacific Transportation Company (SPTC) under a long-term lease agreement. SPTC was subsequently merged and continues operations as Union Pacific Corporation (UPC). The Port appoints two members of the ICTF's five-member governing board and accounts for its investment using the equity method. Both the Port and POLB share income and equity distributions equally.

ICTF has issued bonds in prior years. At June 30, 2020 and 2019, there were no outstanding bonds.

The ICTF's operations are financed from lease revenues by ICTF activities. The ICTF is empowered to perform those actions necessary for the development of the facility, including acquiring, constructing, leasing, and selling any of its property. The Port's share of the ICTF's net position totaled \$6.8 million and \$6.3 million at June 30, 2020 and 2019, respectively. Separate financial statements for ICTF may be obtained from the Executive Director, Intermodal Container Transfer Facility Joint Powers Authority, 415 W. Ocean Boulevard, Long Beach, California 90802 or the ICTF's website at http://ictf-jpa.org/document_library.php.

B. Alameda Corridor Transportation Authority

In August 1989, the Alameda Corridor Transportation Authority (ACTA) was established through a Joint Exercise of Powers Agreement between the Cities of Los Angeles and Long Beach, California. The purpose of ACTA is to acquire, construct, finance, and operate a 20-mile-long consolidated transportation corridor; including an improved railroad expressway between the Port, POLB, and downtown Los Angeles.

The Port has no share of the ACTA's net position and income at June 30, 2020 and 2019, and accordingly, they have not been recorded in the accompanying financial statements due to the separate legal status. If in the future, ACTA is entitled to distribute income or make equity distributions, the Port and POLB shall share such income and equity distributions equally. See Note 15.C. for additional discussion related to the guarantee the Port has made related to the ACTA.

Separate financial statements for ACTA may be obtained from the ACTA's website http://www.acta.org/revenue_finance/financial_statement.asp or the Chief Financial Officer, Alameda Corridor Transportation Authority, 3760 Kilroy Airport Way, Suite 200, Long Beach, California, 90806.

Notes to Financial Statements

June 30, 2020 and 2019

7. Long-Term Debt

A. Bonds and Commercial Paper

Bonds issued by the Port are payable solely from the Port's revenues pledged under indentures and are not general obligations of the City. The Port has agreed to certain covenants with respect to bonds. Significant covenants include the requirement that the Port's revenues, as defined under indentures, will be sufficient to pay future bond interest and principal maturities. In compliance with the bond indenture Article VII, Sections 7.01 and 7.02 in the event of default by the Port in the due and punctual payment of parity obligations, the trustee may and shall at the direction of the bond certificate owners of not less than a majority in aggregate principal amount of the bonds at the time outstanding, upon notice in writing to the Port, shall declare the principal of all of the bonds then outstanding, and the interest accrued thereon, to be due and payable immediately. Proceeds from sales of bonds are used to finance capital projects around the Port or refund prior issuances to generate debt service savings.

B. Bond Premium

Original bond premium is amortized over the life of the bonds. At the time of bond refunding, the unamortized premium is amortized over the life of the refunded bonds or the life of the refunding bonds, whichever is shorter.

The unamortized premium for the outstanding bonds for fiscal years 2020 and 2019 are as follows (in thousands):

Harbor Revenue Bonds	 2020	 2019
Issue of 2009, Series A	\$ 	\$ 331
Issue of 2009, Series C	28	1,684
Issue of 2011, Series A	285	589
Issue of 2011, Series B	1,309	1,614
Issue of 2014, Series A	17,100	18,754
Issue of 2014, Series B	9,170	9,932
Issue of 2014, Series C	4,644	4,965
Issue of 2015, Series A	2,244	3,003
Issue of 2016, Series A	2,534	4,404
Issue of 2016, Series B	10,092	10,938
Issue of 2016, Series C	3,591	3,736
Issue of 2019, Series A	14,631	
Issue of 2019, Series B	8,310	
Issue of 2019, Series C-1	906	
Issue of 2019, Series C-2	 2,565	
Total	\$ 77,409	\$ 59,950

C. Principal Maturities and Interest

The Port's scheduled annual debt service payments for bonds as of June 30, 2020 are as follows (in thousands):

Fiscal Year	 Principal	 Interest	 Total
2021	\$ 45,410	\$ 33,660	\$ 79,070
2022	47,190	31,368	78,558
2023	49,755	28,969	78,724
2024	53,380	26,411	79,791
2025	53,945	23,738	77,683
2026 – 2030	147,375	87,240	234,615
2031 – 2035	112,850	61,970	174,820
2036 – 2040	124,575	32,897	157,472
2041 – 2045	76,600	 9,957	 86,557
Total	\$ 711,080	\$ 336,210	\$ 1,047,290

D. New Issuances

Fiscal Year 2020

On September 19, 2019, the Port redeemed an aggregate par amount of \$215.6 million of its outstanding bonds comprised of all of 2009 Series A Bonds for total of \$61.3 million and all of 2009 Series C Bonds for total of \$154.3 million except for the non-callable 2009 Series C Bonds for \$5.0 million maturing in 2021 with coupon of 5.25%. The liability for the defeased portion of all 2009 bonds has been removed from the statements of net position. The reacquiring price exceeded the net carrying amount of the old debt by \$2.9 million. The amount is reported as a deferred outflow of resources and amortized over the remaining life of the refunding debt. The 2019 Refunding Revenue Bonds were issued on September 18, 2019 in aggregate principal amount of \$163.1 million. The 2019 Refunding Bonds were issued in four series; Series A (AMT) for \$115.1 million; Series B (Non-AMT) for \$32.3 million; Series C-1 (AMT) Green Bonds for \$5.0 million: and Series C-2 (Non-AMT) Green Bonds for \$10.7 million. The 2019 Refunding Revenue Bonds were issued without contributing to the Common Reserve and therefore an excess of \$22.2 million was released from the Common Reserve toward the transaction, reducing the total borrowing. Total present value savings from the transaction was \$43.7 million or 26.8% of the refunding bonds. The nominal savings in debt service due to refunding is \$71.7 million or an average of \$5.9 million per fiscal year.

Fiscal Year 2019

There were no new issuances in fiscal year 2019.

Notes to Financial Statements

June 30, 2020 and 2019

E. Commercial Paper and Revolving Obligations

The Port has established a Commercial Paper program (Program) supported by bank credit lines to issue commercial paper notes to provide interim financing primarily for the construction, maintenance, and replacement of the Port's structures, facilities, and equipment needs.

Pursuant to an Indenture of Trust dated as of June 1, 2019 by and between the Port and U.S. Bank, National Association and the credit agreement dated as of June 1, 2019 by and between the Port and PNC Bank, National Association, the Port is authorized to issue and to have outstanding up to \$150.0 million aggregate principal amount of the Harbor Department of the City of Los Angeles Revenue Revolving Obligations (Revolving Obligations) which constitute parity obligations.

There was no outstanding revolving obligations as of June 30, 2020 and 2019.

F. Prior Years' Defeasance of Debt

The Port defeased previously issued bonds by placing the proceeds of refunding bonds in irrevocable trusts to provide for all future debt service payments on old bonds. Accordingly, the trust account assets and liability for the defeased bonds are not included in the Port's financial statements. An escrow for the advance refunding of 2009 Series B Bonds was established in October 2016 with remaining balance of zero and \$102.2 million at June 30, 2020 and 2019, respectively.

Notes to Financial Statements

June 30, 2020 and 2019

9. Pollution Remediation Obligations

The Port's estimated pollution remediation liability as of June 30, 2020 and 2019 totaled \$73.8 million and \$76.6 million, respectively. These costs relate mostly to soil and ground water contamination on sites within the Port premises. As certain sites were formerly used for a variety of industrial purposes, legacy contamination or environmental impairments exist. As environmental risks may be managed, the Port has adopted the "Managed Environmental Risk" approach in estimating the remediation liability. The Port uses a combination of in-house specialists as well as outside consultants to perform estimates of potential liability. Certain remediation contracts are included in site development plans as final uses for the sites have been identified.

The changes in the Port's pollution remediation obligations for fiscal year 2020 are as follows (in thousands):

	.lı	Balance uly 1, 2019		Additions		Deductions		Balance une 30, 2020		Due Within One Year

Notes to Financial Statements

June 30, 2020 and 2019

10. Employee Deferred Compensation Plan

The City offers a deferred compensation plan created in accordance with Internal Revenue Code Section 457 to its employees, in which Port employees participate, allowing them to defer receipt of income. All amounts deferred by the Port's employees are paid to the City, which in turn transfers them to the deferred compensation plan administrator. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts are held in such custodial account for the exclusive benefit of the employee participants and their beneficiaries. Information on the Port employees' share of plan assets is not available and is not recorded in the Port's financial statements.

While the City has full power and authority to administer and to adopt rules and regulations for the plan, all investment decisions under the plan are the responsibility of the plan participants. The City has no liability for losses under the plan, but does have the duty of due care that would be required of an ordinary prudent investor. Under certain circumstances, employees may modify their arrangements with the plan to provide for greater or lesser contributions or to terminate their participation. If participants retire under the plan or terminate service with the City, they may be eligible to receive payments under the plan in accordance with the provisions thereof. In the event of serious financial emergency, the City may approve, upon request, withdrawals from the plan by the participants, along with their allocated contributions.

Notes to Financial Statements

June 30, 2020 and 2019

11. Risk Management

The Port purchases insurance for a variety of exposures associated with property, automobiles, vessels, employment practices, travel, police, pilotage, special events, cyber and terrorism. The City is self-insured for workers' compensation, and the Port participates in the City's self-insurance program. Prior to October 1, 2017, third party general liability exposures were self-insured by the Port for \$1.0 million and the excess liability is maintained over the self-insured retention. The Port has purchased a primary general liability insurance policy effective on October 1, 2017 to cover general liability up to \$1 million with \$500,000 deductible for indemnity defense. There have been no settlements in the past three years that have exceeded the Port's insurance coverage.

The actuarially determined accrued liability for workers' compensation includes provision for incurred but not reported claims and loss adjustment expenses. The Port's accrued workers' compensation liability at June 30, 2020 and 2019 were \$14.0 million and \$14.3 million, respectively.

A number of lawsuits were pending against the Port that arose in the normal course of operations. The Port recognizes a liability for claims and when it is probable that a loss has been incurred and the amount of that loss, including those incurred but not reported, can be reasonably estimated. The City Attorney provides estimates for the amount of liabilities to be probable of occurring from lawsuits. The Port's liability for litigation and other claims at June 30, 2020 and 2019 were \$1.2 million and \$1.0 million, respectively.

Notes to Financial Statements

June 30, 2020 and 2019

The changes in the Port's estimated claims payable are as follows (in thousands):

	 2020	 2019	 2018

Notes to Financial Statements

June 30, 2020 and 2019

12. Leases, Rentals, and Minimum Annual Guarantee (MAG) Agreements

The Port leases a substantial portion of lands and facilities to others. Leases relating to terminal operations tend to be long-term in nature (as long as 66 years), which generate 94.7% and 94.1% of the Port's operating revenues for the fiscal years ended June 30, 2020 and 2019, respectively. Short-term real estate entitlement such as revocable permits and space assignments can be canceled on a 30-day notice by either party. The majority of the Port's leases provide retention of ownership by the Port or restoration of the property to pre-leased conditions at the expiration of the agreement; accordingly, no leases are considered capital leases.

MAG agreements relate to shipping services and certain concessions provide for the additional payment beyond the fixed portion, based upon tenant usage, revenues, or volumes.

Agreements relating to terminal operations tend to be long-term in nature (as long as 66 years) and are made to provide the Port with a firm tenant commitment. These agreements are subject to periodic review and reset of base amounts. For the fiscal years ended June 30, 2020 and 2019, the minimum rental income from such lease agreements was approximately \$65.3 million and \$66.0 million, respectively. For the fiscal years ended June 30, 2020 and 2019, the MAG payments were approximately \$309.2 million and \$291.2 million, respectively, and were reported under shipping services revenue. Assuming that current agreements are carried to contractual termination, minimum tenant commitments due to the Port over the next five years are as follows (in thousands):

Fiscal Year	 Rental income	 MAG income
2021 2022	\$ 65,797 66,329	\$ 312,334 314,468
2023 2024 2025	 66,866 67,409 67,957	315,239 316,039 317,017
Total	\$ 334,358	\$ 1,575,097

The carrying cost and related accumulated depreciation of property held for operating leases as of June 30, 2020 and 2019 are as follows (in thousands):

Υ.		2020	 2019
Wharves and sheds	\$	1,203,115	\$ 1,199,128
Cranes and bulk facilities		27,028	27,028

Total	-	2,540,701	 2,484,132
Less accumulated depreciation		(1,434,576)	(1,351,420)
Net	\$	1,106,125	\$ 1,132,712

Notes to Financial Statements

June 30, 2020 and 2019

13. Los Angeles City Employees' Retirement System (LACERS)

A. General Information about LACERS

Plan description. All full-time employees of the Port are eligible to participate in LACERS, a singleemployer public employee retirement system whose main function is to provide pension benefits such as service and disability retirement benefits as well as death benefits to the civilian employees of the City of Los Angeles. LACERS also administers and provides other postemployment benefits (OPEB) to eligible retirees and their eligible spouses/domestic partners. Under the provisions of the City Charter and California State Constitution, the Board of Administration (LACERS Board) has the responsibility and authority to administer LACERS and to invest its assets. The LACERS Board consists of seven members – four appointed by the Mayor, two elected by active members (current employees), and one elected by retired members. The LACERS Board serve as trustees and must act in the exclusive interest of the LACERS' members and beneficiaries. Changes to the benefit terms require approval of the City Council.

LACERS issues a publicly available financial report that may be obtained by writing or calling: Los Angeles City Employees' Retirement System, 202 W. First Street, Suite 500, Los Angeles, CA 90012, (800) 779-8328 or LACERS' website http://lacers.org/aboutlacers/reports/index.html.

Plan Memberships. As of June 30, 2019 and 2018 (measurement date), pension plan membership consisted of the following:

	2019	2018
Retired members or beneficiaries currently receiving benefits	20,034	19,379
Vested terminated members entitled to, but not yet receiving benefits	8,588	8,028
Active members	26,632	26,042
Total	55,254	53,449

As of June 30, 2019 and 2018 (measurement date), OPEB plan membership consisted of the following:

	2019	2018
Retired members or surviving spouses currently receiving benefits	15,791	15,144
Vested terminated members entitled to, but not yet receiving benefits	1,474	1,401
Active members	26,632	26,042
Total	43,897	42,587

Benefits provided – Pension. LACERS provides service retirement, disability, death and survivor benefits to eligible employees based on employees' years of service, age, and final compensation. There are two tiers of memberships. Under Tier 1, employees with 10 or more years of continuous service may retire if they are at age 60 or at least 30 years of service at age 55, or with any years of service at age 70 or older. Full-unreduced retirement benefits are determined as 2.16% per year of the employee's service credit (not greater than 100%), multiplied

Notes to Financial Statements

June 30, 2020 and 2019

by the employee's average monthly pensionable salary during the employee's last 12 months of service, or during any other 12 consecutive months of service. Normal retirement allowances are reduced for employees who retire at age 55 with 10 or more years of continuous service, or at any age with 30 or more years of service. Membership to Tier 1 is closed to new entrants. Eligible employees hired on or after July 1, 2013 become members of Tier 2. However, on July 9, 2015, the City and the Coalition of the Los Angeles City Unions representing more than half of the City's civilian workforce reached an agreement which rescinded Tier 2 and created a new tier of benefits. As a result, Ordinance 184134 was adopted on January 12, 2016, and all active Tier 2 members were transferred to Tier 1 as of February 21, 2016.

On or after February 21, 2016, new members became Tier 3 members of LACERS. Under Tier 3, employees may retire at age 60 with at least 10 or more years of service (including 5 years of continuous service) to receive full-unreduced benefits with a 1.50% retirement factor, or at age 55 with at least 30 years of service (including 5 years of continuous service) to receive full-unreduced retirement benefits with a 2.0% retirement factor. In addition, the employee may retire at age 63 with at least 10 years of service to receive an enhanced retirement benefit with a 2.0% retirement factor, or at age 63 with 30 years of service with a 2.1% retirement factor. Full-unreduced retirement benefits are determined as the applicable retirement factor (1.5%, 2.0%, or 2.1%) per year of the employee's service credit (not greater than 80%), multiplied by the employee's last 36 months of final average compensation or any other 36 consecutive months of service. Normal retirement allowances are reduced for employees who retire prior to age 55. LACERS does not have a mandatory retirement age.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustments are made each July 1 based on the percentage change in the average Consumer Price Index for the Los Angeles-Long Beach-Anaheim Area – All Items For All Urban Consumers, to a maximum increase in retirement allowance of 3% per year, excess banked, for Tier 1 members and 2% per year, excess not banked, for Tier 3 members.

LACERS covers all full-time personnel and department-certified part-time employees of the Port, except for sworn employees of certain Port Police officers.

Benefits provided – OPEB. LACERS also provides postemployment health care benefits to eligible retirees and their eligible spouses/domestic partners who participate in the pension plan. These benefits may also extend to the coverage of other eligible dependent(s). Eligible retirees and their eligible spouses/domestic partners can choose from health plans including medical, dental, and vision benefits or participate in a premium reimbursement program. Members with ten or more years of service who retire after age 55, or employees who retire at age 70 with no minimum service requirement, are eligible for the benefits with an approved health carrier. The eligible employees earn 4% per year of service credit for their annual medical subsidy. Eligible spouses/domestic partners of plan members are entitled to the postemployment health care benefits after the retired member's death.

Contributions – Pension. The LACERS Board establishes and may amend the contribution requirements of the System members and the City in accordance with Article XI Sections 1158

Notes to Financial Statements

June 30, 2020 and 2019

and 1160 of the Los Angeles City Charter, which provides for periodic employer contributions at actuarially-determined rates that, expressed as percentages of annual covered payroll together with certain fixed amounts, are sufficient to accumulate the required assets to pay benefits when due. The average employer contribution rates for pension benefits are 22.% and 23.15% of covered payroll for the fiscal years ended June 30, 2020 and 2019, respectively. The Port has made 100% of the actuarially determined contributions for both fiscal years. All members are required to make pension contributions to LACERS regardless of the tier in which they are included. Currently, Tiers 1 and 3 members contribute at 11% of compensation.

Contributions – *OPEB.* The LACERS Board establishes and may amend the contribution requirements of the System members and the City in accordance with Article XI Sections 1158 and 1160 of the Los Angeles City Charter, which provides for periodic employer contributions at actuarially-determined rates that, expressed as percentages of annual covered payroll together with certain fixed amounts, are sufficient to accumulate the required assets to pay benefits when due. The average employer contribution rates are 4.51% and 5.15% of covered payroll for the fiscal years ended June 30, 2020 and 2019, respectively. The Port has made 100% of the actuarially determined contributions for both fiscal years. Members are not required to contribute to the OPEB plan.

Pension plan fiduciary net position and OPEB plan fiduciary net position. Detailed information about the pension and OPEB plans' fiduciary net positions are available in the separately issued LACERS financial report.

B. Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At June 30, 2020 and 2019, the Port reported a liability of \$220.7 million and \$215.4 million, respectively, for its proportionate shares of the net pension liability of LACERS. The net pension liability was measured as of June 30, 2019 and 2018, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Port's proportion of the net pension liability was based on the Port's share of actual contributions to the pension plan relative to the actual contributions of all participating departments, actuarially determined. The Port's proportionate share was determined to be 3.692% and 3.773% for fiscal years ended June 30, 2020 and 2019, respectively.

Notes to Financial Statements

June 30, 2020 and 2019

For the fiscal years ended June 30, 2020 and 2019, the Port recognized pension expense of \$26.0 million and \$19.3 million, respectively.

At June 30, 2020 and 2019, the Port reported deferred outflows of resources related to pensions from the following sources (in thousands).

	 2020	 2019
Pension contributions subsequent to measurement date Changes of assumptions or other inputs Differences between actual and expected experience in the	\$ 19,284 16,324	\$ 18,050 25,921
total pension liability	 3,293	4,404
Total	\$ 38,901	\$ 48,375

At June 30, 2020 and 2019, the Port reported deferred inflows of resources related to pensions from the following sources (in thousands).

	 2020	 2019
Changes in proportion and differences between employer's contributions and proportionate share of contributions	\$ 10,743	\$ 11,650
Net excess of actual over projected earnings on pension investments Differences between expected and actual experience in the	1,822	4,928
total pension liability	 6,645	 10,258
Total	\$ 19,210	\$ 26,836

Notes to Financial Statements

June 30, 2020 and 2019

At June 30, 2020 and 2019, the net amount reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense during the next five years and thereafter as follows (in thousands):

	 Deferred outflows/(inflows)		
Year ending June 30	 2020		2019
2020	\$ N/A	\$	5,281
2021	(178)		(680)
2022	(2,884)		(3,484)
2023	2,044		1,531
2024	1,425		841
2025			
Thereafter			

The amortization table does not include pension contributions made after the measurement date. Deferred outflows of \$19.3 million related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021.

Notes to Financial Statements

June 30, 2020 and 2019

Actuarial assumptions. The Port's net pension liabilities as of June 30, 2020 and 2019 were determined by actuarial valuations as of June 30, 2019 and 2018, respectively. The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2014 through June 30, 2017 and the June 30, 2017 review of economic actuarial assumptions. The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial valuation were based on the results of an actuarial assumptions. The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2014 through June 30, 2017 and the June 30, 2017 review of economic actuarial assumptions were applied to all periods included in the measurement for the June 30, 2019 and 2018 actuarial valuations:

Actuarial assumptions	2019	2018
Actuarial cost method	Entry age	Entry age
Inflation	3.00%	3.00%
Projected salary increases	Ranges from 3.90% to 10.00% based on years of service	Ranges from 3.90% to 10.00% based on years of service
Cost-of-living adjustments	3.00% maximum for Tier 1 and 2.00% maximum for Tier 3	3.00% maximum for Tier 1 and 2.00% maximum for Tier 3
Investment rate of return	7.25%	7.25%
Mortality (Post- Retirement)	Healthy: Headcount- Weighted RP-2014 table projected with Scale MP- 2017	Healthy: Headcount- Weighted RP-2014 table projected with Scale MP- 2017

Notes to Financial Statements

June 30, 2020 and 2019

Long-term expected rate of return by asset class. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rate of return for each major asset class, after deducting inflation, but before deducting investment expenses are summarized in the following table. These values were used in the derivation of the long-term expected investment rate of return assumption for the actuarial valuations as of June 30, 2019 and 2018. This information is subject to change every three years based on an actuarial experience study.

	June 30, 2019 and 2018			
		Long-term (Arithmetic)		
		Expected Real Rate of		
Asset Class	Target Allocation	Return		
U.S. Larger Cap Equity	14.00%	5.32%		
U.S. Small Cap Equity	5.00%	6.07%		
Developed International Large Cap Equity	17.00%	6.67%		
Developed International Small Cap Equity	3.00%	7.14%		
Emerging Market Equity	7.00%	8.87%

Private Equity	14.00%	8.97%		
Total	100.00%			

Notes to Financial Statements

June 30, 2020 and 2019

Discount rate. The discount rate used to measure the total pension liability was 7.25% as of June 30, 2019 and 2018. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at rates equal to actuarially determined contribution rates. For this purpose, only employee and employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of both June 30, 2019 and 2018.

Sensitivity of the Port's proportionate share of net pension liability to change in the discount rate. The following presents the Port's proportionate share of the net pension liability as of June 30, 2020 and 2019, calculated using the discount rate of 7.25%, as well as what the Port's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate (in thousands):

Port's proportionate share of the net pension liability	1% Decrease (6.25%)	Discount rate (7.25%)	1% Increase (8.25%)
June 30, 2020	\$324,828	\$220,724	\$134,876
June 30, 2019	\$318,845	\$215,435	\$130,219

Notes to Financial Statements

June 30, 2020 and 2019

C. Net OPEB Liability, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020 and 2019, the Port reported a liability of \$19.1 million and \$21.8 million for its proportionate shares of the net OPEB liability of LACERS. The net OPEB liability was measured as of June 30, 2019 and 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Port's proportion of the net OPEB liability was based on the Port's share of actual contributions to the OPEB plan relative to the actual contributions of all participating departments, actuarially determined. The Port's proportionate share was determined to be 3.655% and 3.753% for the fiscal years ended June 30, 2020 and 2019, respectively.

For the fiscal years ended June 30, 2020 and 2019, the Port recognized OPEB expense of \$2.6 million and \$3.2 million, respectively.

At June 30, 2020 and 2019, the Port reported deferred outflows of resources related to OPEB from the following sources (in thousands).

	2020		2019	
OPEB contributions subsequent to measurement date	\$	3,823 4.027	\$	4,011 3,793
Changes of assumptions or other inputs Differences between expected and actual experience in the total OPEB liability		4,027		507
Total	\$	8,231	\$	8,311

At June 30, 2020 and 2019, the Port reported deferred inflows of resources related to OPEB from the following sources (in thousands).

	2020	2019
Changes in proportion and differences between employer's contributions and proportionate share of contributions	\$ 1,327	\$ 991
Net excess of actual over projected earnings on OPEB plan investments	3,563	6,502
Differences between expected and actual experience in the total OPEB liability	 4,296	 233
Total	\$ 9,186	\$ 7,726

Notes to Financial Statements

June 30, 2020 and 2019

At June 30, 2020 and 2019, the net amount reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense during the next five years and thereafter is as follows (in thousands):

		Deferred outflows/(inflows)		
Year ending June 30	_	2020		2019
2020	\$	N/A	\$	(1,337)
2021		(1,779)		(1,337)
2022		(1,779)		(1,337)
2023		(550)		(74)
2024		(23)		465
2025		(502)		194
Thereafter		(145)		

The amortization table does not include OPEB contributions made after the measurement date. Deferred outflows of \$3.8 million related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021.

Notes to Financial Statements

June 30, 2020 and 2019

Actuarial assumptions. The Port's net OPEB liabilities as of June 30, 2020 and 2019 were determined by actuarial valuations as of June 30, 2019 and 2018, respectively. The actuarial assumptions used in both the June 30, 2019 and 2018 valuations were based on the results of the July 1, 2014 through June 30, 2017 Actuarial Experience Study dated June 29, 2018, economic assumption review dated June 30, 2017, and retiree health assumptions letter dated September 17, 2019 and September 18, 2018, respectively. The following actuarial assumptions were applied to all periods included in the measurement for the June 30, 2019 and 2018 actuarial valuations:

Actuarial assumptions	2019	2018
Actuarial cost method	Entry age	Entry age
Inflation	3.00%	3.00%
Projected salary increases	Ranges from 3.90% to 10.00% based on years of service	Ranges from 3.90% to 10.00% based on years of service
Investment rate of return	7.25%	7.25%
Mortality (Post- Retirement)	Healthy: Headcount- Weighted RP-2014 table projected with Scale MP- 2017	Healthy: Headcount- Weighted RP-2014 table projected with Scale MP- 2017
Healthcare cost trend rates	6.62% graded down to 4.50% over 9 years for non- Medicare medical plan costs; 6.12% graded down to 4.50% over 7 years for Medicare medical plan costs; and 4.00% for all years for dental; and 4.50% for Medicare Part B costs	6.87% graded down to 4.50% over 10 years for non-Medicare medical plan costs; 6.37% graded down to 4.50% over 8 years for Medicare medical plan costs; and 4.00% for all years for dental and Medicare Part B costs

Notes to Financial Statements

June 30, 2020 and 2019

Long-term expected rate of return by asset class. The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rate of return for each major asset class, after deducting inflation, but before deducting investment expenses, are summarized in the following table. These values were used in the derivation of the long-term expected investment rate of return assumption for the actuarial valuations as of June 30, 2019 and 2018. This information is subject to change every three years based on the actuarial experience study.

	June 30, 2019 and 2018			
Asset Class	Target Allocation	Long-term (Arithmetic) Expected Real Rate of Return		
U.S. Larger Cap Equity	14.00%	5.32%		
U.S. Small Cap Equity	5.00%	6.07%		
Developed International Large Cap Equity	17.00%	6.67%		
Developed International Small Cap Equity	3.00%	7.14%		
Emerging Market Equity	7.00%	8.87%		
Core Bonds	13.75%	1.04%		
High Yield Bond	2.00%	3.09%		
Bank Loan	2.00%	3.00%		
TIPS	3.50%	0.97%		
Emerging Market Debt (External)	4.50%	3.44%		
Real Estate	7.00%	4.68%		
Cash	1.00%	0.01%		
Commodities	1.00%	3.36%		
Additional Public Real Assets	1.00%	4.76%		
Real Estate Investment Trust	0.50%	5.91%		
Private Debt	3.75%	5.50%		
Private Equity	14.00%	8.97%		
Total	100.00%			

Notes to Financial Statements

June 30, 2020 and 2019

Discount rate. The discount rate used to measure the total OPEB liability were 7.25% as of June 30, 2019 and 2018, respectively. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rates. For this purpose, only employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability as of both June 30, 2019 and June 30, 2018.

Sensitivity of the Port's proportionate share of net OPEB liability to change in the discount rate. The following presents the Port's proportionate share of the net OPEB liability, calculated using the discount rate of 7.25%, as well as what the Port's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate (in thousands):

Port's proportionate share of the	1%	Discount	1%
	Decrease	rate	Increase
net OPEB liability	(6.25%)	(7.25%)	(8.25%)
June 30, 2020	\$36,551	\$19,085	\$4,817
June 30, 2019	\$39,347	\$21,785	\$7,432

Sensitivity of the Port's proportionate share of net OPEB liability to change in the healthcare cost trend rate. The following presents the Port's proportionate share of the net OPEB liability, as well as what LACERS' net OPEB liability would be if it were calculated using a trend rate that is one percentage point lower or one percentage point higher than the current healthcare trend rate (in thousands):

Port's proportionate share of the net OPEB liability	1% Decrease	Current healthcare trend rate*	1% Increase
June 30, 2020	\$2,955	\$19,085	\$40,250
June 30, 2019	\$5,439	\$21,785	\$43,215

*See page 90 for current healthcare trend rate.

Notes to Financial Statements

June 30, 2020 and 2019

14. City of Los Angeles Fire and Police Pension System (LAFPP)

A. General Information about LAFPP

Plan description. LAFPP is a single-employer public employee retirement system whose main function is to provide defined benefit pension benefits to the safety members employed by the City of Los Angeles. Members of LAFPP are entitled to other postemployment benefits (OPEB) such as healthcare subsidy. LAFPP is administered by a Board of Commissioners (LAFPP Board) composed of five commissioners who are appointed by the Mayor, two commissioners elected by Police members of the plan and two commissioners elected by Fire members of the plan. Under provisions of the City Charter, the City Administrative Code and the State Constitution, the LAFPP Board has the responsibility to administer the plan. Changes to the benefit terms require approval by the City Council.

LAFPP is composed of six tiers. Tier 6 is the current tier for all Harbor Port Police Officers hired on or after July 1, 2011. Tier 5 was the tier for all Harbor Port Police officers hired on or after January 8, 2006 through June 30, 2011.

LAFPP issues a publicly available financial report that may be obtained by writing or calling: Los Angeles Fire and Police Pension system, 360 E. Second Street, Suite 400, Los Angeles, CA 90012, (213) 978-4545 or LAFPP's website https://www.lafpp.com/about/financial-reports.

Plan Memberships. As of June 30, 2019 and 2018 (measurement date), pension plan membership consisted of the following:

	2019	2018	
Retired members or beneficiaries currently receiving benefits	13,097	12,890	
Vested terminated members entitled to, but not yet receiving benefits	523	534	
Active members	13,535	13,442	
Total	27,155	26,866	

As of June 30, 2019 and 2018 (measurement date), OPEB plan membership consisted of the following:

	2019	2018
Retired members, married dependents and beneficiaries currently		
receiving benefits	17,333	17,160
Vested terminated members entitled to, but not yet receiving benefits	886	899
Active members	13,535	13,442
Total	31,754	31,501

Benefits provided – Pension. LAFPP provides service retirement, disability, death and survivor benefits to eligible sworn members. Sworn employees become members upon graduation from the Police Academy or Fire Drill Tower. Information about benefits for Tiers 1 through 4 members is available in the separately issued LAFPP financial report. Tier 5 members must be at least age 50, with 20 or more years of service, to be entitled to a service pension. Annual pension

Notes to Financial Statements

June 30, 2020 and 2019

benefits are equal to 50% of their one-year average compensation, increasing for each year of service over 20 years, to a maximum of 90% for 33 years. Tier 5 provides for postemployment COLAs based on the Consumer Price Index (CPI) to a maximum of 3% per year. However, any increase in CPI greater than 3% per year is placed into a COLA bank for use in years in which the increase in CPI is less than 3%. The City Council may also grant a discretionary ad-hoc COLA no more than every three years, subject to certain conditions. Members who terminate their employment are entitled to a refund of their contributions plus Board-approved interest if they do not qualify for a pension or if they waive their pension entitlements.

Tier 6 members must be at least age 50, with 20 or more years of service, to be entitled to a service pension. Annual pension benefits are equal to 40% of their two-year average compensation, increasing for each year of service over 20 years, to a maximum of 90% for 33 years. Tier 6 provides for postemployment COLAs based on the CPI to a maximum of 3% per year. However, any increase in the CPI greater 3% per year is placed into a COLA bank for use in years in which the increase in CPI is less than 3%. The City Council may also grant a discretionary ad-hoc COLA no more than every three years, subject to certain conditions. Members who terminate their employment are entitled to a refund of their contributions plus Board-approved interest if they do not qualify for a pension or if they waive their pension entitlements.

Benefits Provided – OPEB. LAFPP provides the following other postemployment benefits (OPEB) to eligible members:

- Subsidy for members not eligible for Medicare A & B 4% per year of service, to a maximum of 100%, times a monthly maximum subsidy amount, subject to a maximum of actual premium paid to the LAFPP Board's approved health carrier.
- Subsidy for members eligible for Medicare A & B For retirees, the health subsidy is provided subject to the following vesting schedule. Surviving spouses/domestic partners are eligible for benefits upon the death of the member.

Completed Years	Vested
of Services	Percentage
10-14	75%
15-19	90%
20+	100%

- Medicare Part B Related Subsidy For retired members enrolled in Medicare A & B who are receiving a subsidy, the LAFPP provides payment of Part B premiums.
- Dental Subsidy 4% per year of service, to a maximum of 100%, times a monthly maximum subsidy amount, subject to a maximum of the single-party premium paid to the LAFPP Board approved dental carrier.

Notes to Financial Statements

June 30, 2020 and 2019

Contributions – *Pension.* The LAFPP Board establishes and may amend the contribution requirements of members and the City. The City's annual contribution for the LAFPP plan is actuarially determined and represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize unfunded actuarial liabilities over a period not to exceed thirty years. The City Administrative Code and related ordinance define member contributions.

All members are required to make contributions to LAFPP based on the member's contribution rate for his or her tier. These rates range from 8 to 9 % of salaries for members in Tiers 3 through 5, while members in Tier 6 contribute 11 % of salary. However, members are exempt from making contributions when their continuous service exceeds 30 years for Tier 1 through 4, and 33 years for Tier 5 and Tier 6. Members under Tiers 1 and 2 are retired or have completed at least 30 years of service and therefore no longer make pension contributions.

For fiscal years 2020 and 2019, the average employer contribution rates for pension benefits are 26.20% and 26.63%, respectively, of covered payroll. The Port has made 100% of the actuarially determined contributions for both fiscal years.

Contributions – *OPEB.* The LAFPP Board establishes and may amend the contribution requirements of members and the City. The City's annual contribution for the LAFPP plan is actuarially determined and represents a level of funding that, if paid on an ongoing basis, is expected to be sufficient to make all benefit payments to current members. The average employer contribution rates are 7.32% and 7.43% of covered payroll for fiscal years ended June 30, 2020 and 2019, respectively. Members are not required to contribute to the OPEB plan.

Pension plan fiduciary net position and OPEB plan fiduciary net position. Detailed information about the LAFPP's pension and OPEB plans' fiduciary net position is available in the separately issued LAFPP financial report.

B. Net Pension Liability, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

At June 30, 2020 and 2019, the Port reported a liability of \$7.3 million and \$4.6 million, respectively, for its proportionate shares of the net pension liability of LAFPP. The net pension liability was measured as of June 30, 2019 and 2018, respectively. The total pension liability (TPL) as of June 30, 2019 was determined by an actuarial valuation as of June 30, 2018 and remeasured as of June 30, 2019 to reflect the mortality assumption that the LAFPP Board has approved for use in the pension funding valuation as of June 30, 2019. The TPL as of June 30, 2018 was determined by an actuarial valuation as of June 30, 2017. The Port's proportion of the net pension liability was based on the Port's share of actual contributions to the pension plan relative to the actual contributions of all participating employers, actuarially determined. The Port's proportionate share was determined to be 0.418% and 0.365% for fiscal years ended June 30, 2020 and 2019, respectively.

For the fiscal years ended June 30, 2020 and 2019, the Port recognized pension expense of \$2.8 million and \$1.6 million, respectively.

Notes to Financial Statements

June 30, 2020 and 2019

At June 30, 2020 and 2019, the Port reported deferred outflows of resources related to pensions from the following sources (in thousands).

	2020		 2019	
Pension contributions subsequent to measurement date	\$	4,052	\$ 3,883	
Changes of assumptions or other inputs		2,851	928	
Differences between actual and expected experience in the				
total pension liability		575	 474	
Total	\$	7,478	\$ 5,285	

At June 30, 2020 and 2019, the Port reported deferred inflows of resources related to pensions from the following sources (in thousands).

	2020		2019	
Changes of assumptions or other inputs	\$		\$	60
Differences between expected and actual experience in the				
total pension liability		1,762		2,805
Net excess of actual over projected earnings on				
pension plan investments		992		1,715
Total	\$	2,754	\$	4,580

At June 30, 2020 and 2019, the net amount reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense during the next five years and thereafter as follows (in thousands):

		Deferred outflows/(inflows)		
Year ending June 30	_	2020		2019
2020	\$	N/A	\$	(844)
2021		(267)		(922)
2022		(495)		(1,150)
2023		312		(343)
2024		735		81
2025		387		
Thereafter				

The amortization table does not include pension contributions made after the measurement date. Deferred outflows of \$4.1 million related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021.

Notes to Financial Statements

June 30, 2020 and 2019

Actuarial assumptions. The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study for the period from the July 1, 2013 through June 30, 2016 Actuarial Experience Study. The actuarial valuation was remeasured as of June 30, 2019 to reflect the Mortality Experience Study During the Period July 1, 2010 through June 30, 2019. The actuarial assumptions used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2013 through June 30, 2016. The following actuarial assumptions were used to measure the net pension liabilities as of June 30, 2019 and 2018:

Actuarial assumptions	2019	2018
Actuarial cost method	Entry age	Entry age
Inflation	3.00%	3.00%
Projected salary increases	Ranges from 4.30% to 12.00% based on years of service	Ranges from 4.30% to 12.00% based on years of service
Investment rate of return	7.25%	7.25%
Cost-of-living adjustments	3.00% of retirement income for all Tiers	3.25% of Tiers 1 and 2 retirement income and 3.00% of Tiers 3, 4, 5 and 6 retirement income
Mortality (Post- Retirement)	Healthy: Pub-2010 Safety Healthy Retiree Amount- Weighted Above-Median Mortality table projected with Scale MP-2019	Healthy: Headcount- Weighted RP-2014 table projected with Scale MP- 2016

Notes to Financial Statements

June 30, 2020 and 2019

Long-term expected rate of return by asset class. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and deducting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rate of return for each measurement class, after deducting inflation, but before reduction for investment expenses are summarized in the following table. These values were used in the derivation of the long-term expected investment rate of return assumption for the actuarial valuations as of June 30, 2019 and June 30, 2018. The information will change every three years based on the actuarial experience study.

AssetClass	Target Allocation	Long-term (Arithmetic) Expected Real Rate of Return
Lorgo Con LLS. Equity	23.00%	5.61%
Large Cap U.S. Equity		
Small Cap U.S. Equity	6.00%	6.37%
Developed International Equity	16.00%	6.96%
Emerging Market Equity	5.00%	9.28%
U.S. Core Fixed Income	12.00%	1.06%
High Yield Bonds	3.00%	3.65%
Real Estate	10.00%	4.37%
TIPS	5.00%	0.94%
Commodities	5.00%	3.76%
Cash	1.00%	-0.17%
Unconstrained Fixed Income	2.00%	2.50%
Private Equity	12.00%	7.50%
Total	100.00%	5.11%

Discount rate. The discount rate used to measure the total pension liability was 7.25% as of June 30, 2019 and 2018, respectively. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate for each tier and that employer contributions will be made at rates equal to the actuarially determined contribution rates for each tier. For this purpose, only employer contributions that are intended to fund benefits for current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the

Notes to Financial Statements

June 30, 2020 and 2019

long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of both June 30, 2019 and 2018.

Sensitivity of the Port's proportionate share of net pension liability to change in the discount rate. The following presents the Port's proportionate share of the net pension liability as of June 30, 2020 and 2019, calculated using the discount rate of 7.25%, as well as what the Port's proportionate share of the net pension liability would be if it were calculated using a discount rate what is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate (in thousands):

Port's proportionate share of the	1%	Discount	1%
net pension liability	Decrease	rate	Increase
	(6.25%)	(7.25%)	(8.25%)
June 30, 2020	\$23,124	\$7,260	\$(5,292)
June 30, 2019	\$17,997	\$4,585	\$(6,119)

Notes to Financial Statements

June 30, 2020 and 2019

C. Net OPEB Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020 and 2019, the Port reported a liability of \$3.0 million and \$2.4 million for its proportionate shares of the net OPEB liability of LAFPP. The net OPEB liability was measured as of June 30, 2019 and 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Port's proportion of the net OPEB liability was based on the Port's share of actual contributions to the OPEB plan relative to the actual contributions of all participating departments, actuarially determined. The Port's proportionate share was determined to be 0.191% and 0.143% for the fiscal years June 30, 2020 and 2019, respectively.

For the fiscal years ended June 30, 2020 and 2019, the Port recognized OPEB expense of \$1.1 million and \$0.9 million, respectively.

At June 30, 2020 and 2019, the Port reported deferred outflows of resources related to OPEB from the following sources (in thousands).

	 2020		2019	
OPEB contributions subsequent to measurement date Changes of assumptions or other inputs Differences between expected and actual experience in the	\$ 1,131 950	\$	1,084 222	
total OPEB liability	 221		276	
Total	\$ 2,302	\$	1,582	

Notes to Financial Statements

June 30, 2020 and 2019

At June 30, 2020 and 2019, the Port reported deferred inflows of resources related to OPEB from the following sources (in thousands).

	2020		2019	
Changes of assumptions or other inputs	\$	22	\$	28
Differences between expected and actual experience in the total OPEB liability		457		27
Net excess of actual over projected earnings on		140		400
OPEB plan investments		149		423
Total	\$	628	\$	478

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

	_	Deferred outflows/(inflows)		
Year ending June 30	_	2020		2019
2020	\$	N/A	\$	(45)
2021		46		(45)
2022		46		(45)
2023		126		35
2024		172		81
2025		87		33
Thereafter		66		6

.

The amortization table does not include OPEB contributions made after the measurement date. Deferred outflows of \$1.1 million related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021

Notes to Financial Statements

June 30, 2020 and 2019

Actuarial assumptions. The Port's net OPEB liability as of June 30, 2020 and 2019 were determined by actuarial valuations as of June 30, 2019 and 2018, respectively. The actuarial assumptions used in the June 30, 2019 actuarial valuation were based on the results of the July 1, 2013 through June 30, 2016 Actuarial Experience Study and the Mortality Experience Study During the Period July 1, 2010 through June 30, 2019. The actuarial valuations used in the June 30, 2018 actuarial valuation were based on the results of an actuarial experience study for the period from July 1, 2011 through June 30, 2014. The following actuarial assumptions were applied to all periods included in the measurement for the June 30, 2019 and 2018 actuarial valuations:

Actuarial assumptions	2019	2018	
Actuarial cost method	Entry age	Entry age	
Inflation	3.00%	3.00%	
Projected salary increases	Ranges from 4.30% to 12.00% based on years of service	Ranges from 4.30% to 12.00% based on years of service	
Investment rate of return	7.25%	7.25%	
Mortality (Post- Retirement)	Healthy: Pub-2010 Safety Healthy Retiree Amount- Weighted Above-Median Mortality table projected with Scale MP-2019	Healthy: Headcount- Weighted RP-2014 table projected with Scale MP- 2016	
Healthcare cost trend rates	8.75% graded down to 4.50% over 10 years for non-Medicare medical plan costs; 8.00% graded down to 4.50% over 10 years for Medicare medical plan costs; 4.00% for all years for dental; and 4.50% for all years for Medicare Part B costs.	7.00% graded down to 4.50% over 10 years for non-Medicare medical plan costs; 6.50% graded down to 4.50% over 8 years for Medicare medical plan costs; and 4.00% for all years for dental and Medicare Part B costs.	

Notes to Financial Statements

June 30, 2020 and 2019

Long-term expected rate of return by asset class. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and deducting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rate of return for each measurement class, after deducting inflation, but before reduction for investment expenses are summarized in the following table. These values were used in the derivation of the long-term expected investment rate of return assumption for the actuarial valuations as of June 30, 2019 and June 30, 2018. The information will change every three years based on the actuarial experience study.

	÷ ,	Long-term (Arithmetic)
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Large Cap U.S. Equity	23.00%	5.61%
Small Cap U.S. Equity	6.00%	6.37%
Developed International Equity	16.00%	6.96%
Emerging Market Equity	5.00%	9.28%
U.S. Core Fixed Income	12.00%	1.06%
High Yield Bonds	3.00%	3.65%
Real Estate	10.00%	4.37%
TIPS	5.00%	0.94%
Commodities	5.00%	3.76%
Cash	1.00%	-0.17%
Unconstrained Fixed Income	2.00%	2.50%
Private Equity	12.00%	7.50%
Total	100.00%	5.11%

Discount rate. The discount rate used to measure the total OPEB liability was 7.25% as of June 30, 2019 and 2018. As contributions that are required to be made by the City to amortize the unfunded actuarial accrued liability in the funding valuation are determined on an actuarial basis, the future actuarially determined contributions are current plan assets, when projected in accordance with the method prescribed by GASB Statement No. 75, are expected to be sufficient to make all benefit payments to current members.

Notes to Financial Statements

June 30, 2020 and 2019

Sensitivity of the Port's proportionate share of net OPEB liability to change in the discount rate. The following presents the Port's proportionate share of the net OPEB liability as of June 30, 2020 and 2019, calculated using the discount rate of 7.25%, as well as what the Port's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (6.25%) or one percentage point higher (8.25%) than the current rate (in thousands):

Port's proportionate share of the net OPEB liability	1% Decrease (6.25%)	Discount rate (7.25%)	1% Increase (8.25%)
June 30, 2020	\$6,392	\$3,018	\$386
June 30, 2019	\$5,332	\$2,447	\$179

Sensitivity of the Port's proportionate share of net OPEB liability to change in the healthcare cost trend rate. The following presents the Port's proportionate share of the net OPEB liability, as well as what LAFPP net OPEB liability would be if it were calculated using a trend rate that is one percentage point lower or one percentage point higher than the current healthcare trend rate (in thousands):

Port's proportionate share of the net OPEB liability	1% Decrease	Current healthcare trend rate*	1% Increase
June 30, 2020	\$(234)	\$3,018	\$7,944
June 30, 2019	\$(419)	\$2,447	\$6,822

*See page 102 for current healthcare trend rate.

Note 14. A to C on LAFPP pension and OPEB plans were derived from information prepared by LAFPP and the City.

Notes to Financial Statements

June 30, 2020 and 2019

15. Commitments, Litigation and Contingencies

A. Commitments

Open purchase orders and uncompleted construction contracts amounted to approximately \$30.9 million and \$21.0 million as of June 30, 2020 and 2019, respectively. Such open commitments do not lapse at the end of the Port's fiscal year and are carried forth to succeeding periods until fulfilled.

In 1985, the Port received a parcel of land, with an estimated value of \$14.0 million from the federal government, for the purpose of constructing a marina. The Port has agreed to reimburse the federal government up to \$14.0 million from excess revenues, if any, generated from marina operations after the Port has recovered all costs of construction. No such payments were made in fiscal years 2020 and 2019.

B. Litigation

The Port is also involved in certain litigation arising in the normal course of business. In the opinion of management, there is no pending litigation or unasserted claims, the outcome of which would materially affect the financial position of the Port.

C. Alameda Corridor Transportation Authority (ACTA) Agreement

In August 1989, the Port and the POLB (the Ports) entered into a joint exercise of powers agreement and formed ACTA for the purpose of establishing a comprehensive transportation corridor and related facilities consisting of street and railroad rights-of-way and an improved highway and railroad network along Alameda Street between the Santa Monica Freeway and the Ports in San Pedro Bay, linking the Ports to the central Los Angeles area. The Alameda Corridor began operating on April 15, 2002. ACTA is governed by a seven-member board, which is comprised of two members from each Port, one each from the Cities of Los Angeles and Long Beach and one from the Metropolitan Transportation Authority. If in the future, ACTA is able to distribute income or make equity distributions, the Ports shall share such income and equity distributions equally.

In October 1998, the Ports, ACTA, and the railroad companies, which operate on the corridor, entered into a Corridor Use and Operating Agreement (Corridor Agreement). The Corridor Agreement provides for operation of the corridor to transport cargo into and out of the Ports. Payment of use fees and container charges, as defined in the Corridor Agreement are used to pay (a) the debt service that ACTA incurs on approximately \$2 billion of outstanding bonds, (b) for the cost of funding required reserves and costs associated with the financing, including credit enhancement and rebate requirements, and (c) repayment and reimbursement obligations to the Ports, (collectively, ACTA Obligations). Use fees end in 2062 or sooner if the ACTA Obligations are paid off earlier.

If ACTA revenues are insufficient to pay ACTA Obligations outlined in (a) and (b) above, the Corridor Agreement obligates each Port to pay up to twenty percent (20%) of the shortfall (Shortfall) for each debt service payment date. If this event occurs, the Ports' payments to ACTA

Notes to Financial Statements

June 30, 2020 and 2019

are intended to provide cash for debt service payments and to assure that the Alameda Corridor is available to maintain continued cargo movement through the Ports. The Ports are required to include expected Shortfall payments in their budgets, but Shortfall payments are subordinate to other obligations of the Port, including the bonds and commercial paper currently outstanding. The Port does not and is not required to take Shortfall payments into account when determining whether it may incur additional indebtedness or when calculating compliance with rate covenants under the respective bond indentures and resolutions related to each Port bond or indebtedness.

An amended and restated Corridor Agreement became effective December 15, 2016, which (1) incorporated the July 5, 2006 First Amendment to the Corridor Agreement; (2) replaced the Operating Committee with an alternative decision making process for management of Alameda Corridor maintenance and operations; and (3) removed construction related provisions and updated certain other provisions to reflect current conditions and practices. The Los Angeles Board of Harbor Commissioners approved the amended and restated Corridor Agreement at a meeting held on October 24, 2016.

In 2016, ACTA issued Tax-Exempt First and Second Subordinate Lien Revenue Refunding Bonds, Series 2016A and Series 2016B (Series 2016 Bonds). With the intent of reducing future Shortfall payments, the issuance of the Series 2016 Bonds advance refunded most of ACTA's Refunding Series 2004A Bonds. There were no Shortfall payments in both fiscal years 2020 and 2019.

Notes to Financial Statements

June 30, 2020 and 2019

16. Related-Party Transactions

During the normal course of business, the Port is charged for services provided by the City, the most significant of which is related to fire protection, museum and park maintenance, and legal services. Total amounts charged by the City for services approximate \$48.4 million and \$45.2 million in fiscal years 2020 and 2019, respectively. In addition, the amounts charged by the City for water and electricity usage approximate \$18.3 million and \$19.5 million in fiscal years 2020 and 2019, respectively.

17. Capital Contributions

Amounts either received or to be reimbursed for the restricted purpose of the acquisition, construction of capital assets, or other grant-related capital expenditures are recorded as capital contributions. During the fiscal years ended June 30, 2020 and 2019, the Port reported capital contributions of \$3.4 million and \$3.5 million, respectively, for certain capital construction grant projects.

18. Cash Funding of Reserve Fund

As of June 30, 2020 and 2019, the Port had \$788.5 million and \$870.1 million of outstanding parity bonds (including net unamortized premiums). The Port holds cash reserves for each Indenture of the outstanding bonds. On September 18, 2008, the BHC approved the full cash funding of the entire reserve requirement of \$61.5 million that was transferred to the Port's bond trustee in December 2008. The cash funding of the reserve took place to reassure bondholders of the strong commitment of the Port to its financial wherewithal as rating agencies had reduced the AAA ratings of the surety companies that had provided insurance for the bonds that the Port had issued.

As of June 30, 2020 and 2019, the balance in the Common Reserve fund totaled \$42.3 million and \$63.3 million, respectively. Any excess amounts in the Common Reserve resulting from principal repayments will be transferred to the interest fund and/or redemption fund to be used to pay interest and redeem bonds. The required amount for the reserve fund will be reevaluated on a yearly basis. The funds in the reserve are invested in the U.S. Treasury securities and money market funds.

Notes to Financial Statements

June 30, 2020 and 2019

19. Impact of COVID-19 Pandemic

In March 2020, the World Health Organization declared the outbreak of the coronavirus (COVID-19) a global pandemic. On March 31, 2020, President Trump declared a national state of emergency. Measures taken by various governments to contain the virus have affected global and international economies, which has affected the Port's shipping volumes and revenues. Although the Port's operations have continued largely uninterrupted throughout the COVID-19 Pandemic (Pandemic) due to the essential nature of its core businesses, the Port's operations, as well as the finances and operations of many of its tenants and operators, have been materially adversely affected by the impact of the Pandemic and the measures taken and imposed to counter it.

The Port reported declines in both import and export containers volume between March and June 2020 due to impacts of the Pandemic on global shipping. Those declines resulted in an 11.6% decrease in annual containers volume relative to the prior fiscal year. However, increases in container volume for the period from July to October 2020 have recovered a portion of those declines.

All cruise lines operating out of the Port of Los Angeles have suspended their cruises until further notice. Although cruising has paused, cruise ships periodically dock at the Port to refuel and restock. The Port has not granted requests for rent relief but is considering rent deferral requests on a case-by-case basis.

⁽¹⁾ Data pertaining to principal employers was obtained from Los Angeles Business Journal (LABJ) dated August 31, 2020. LABJ note: The information on this list was provided by representatives of the employers themselves. Companies are ranked by the current number of full-time employees in Los Angeles County. Several companies may have qualified for this list, but failed to submit information or do not break out local employment data. Government entities are excluded.

⁽²⁾ Total County employment amounts are obtained from California Employment Development Department labor force report which is available at https://www.labormarketinfo.edd.ca.gov.

OTHER REPORT

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Honorable Members of the Board of Harbor Commissioners Port of Los Angeles (Harbor Department of the City of Los Angeles)

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Port of Los Angeles (Harbor Department of the City of Los Angeles) (Port), an enterprise fund of the City of Los Angeles, California (City), as of and for the fiscal year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Port's basic financial statements, and have issued our report thereon dated November 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Port's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Port's internal control. Accordingly, we do not express an opinion on the effectiveness of the Port's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Port's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
