GENERAL: It is the intent of this specification to describe in a general form the requirements of the equipment and options desired. Equipment of equal performance and capability, but differing in detail from the specification may be considered providing it meets the intent of the specifications. When specifications for a particular item(s) is not defined, the manufacturer's standards are satisfactory.

Bidder must indicate with a check mark, in the spaces provided, after each item, if they COMPLY with the specifications for that item. If they do not comply, each deviation must be described in the space that follows. If insufficient space, indicate "see attached" and describe all deviations on an attachment to the bid. Make sure all deviations are labeled to identify the item for which the deviation is taken. A cover letter must be included indicating that deviations to the specifications are in a separate attachment to the bid. Failure to properly complete this required information may result in bid being rejected as non-responsive.

SERVICES REQUESTED: Provide International Brotherhood of Electrical Workers (IBEW) certified Wire Splicer to reconstruct medium and high voltage (600-35000 volts) terminations. Wire sizes 4/0 to 500 KCMIL. Terminations will be supplied by the Port. Locations will be on Port terminals.

TERMINATIONS WILL BE IN THE FOLLOWING EQUIPMENT:
1. Metalclad switcher gear (58 substations)
2. Cavotec alternate marine power gear (80 alternate marine power boxes)
3. Cavotec alternate marine power carts (3)

PLEASE QUOTE HOURLY PRICES FOR:
1. Regular time
2. Over time
3. Emergency call-outs (Port will expect that technicians will be available for emergency call-outs)

FINAL NOTES
1. Transportation Worker Identification Credential (TWIC) card mandatory
2. Certifications required:
   i. California Contractors License Bond Verification Card
   ii. C10 – Electrical Certification
3. Vendor to indicate:
   i. Contact Person:
   ii. Phone:
   iii. FAX:
   iv. E-mail:
