Allowable Costs.** A crosswalk of allowable costs across the HSGP programs can be found in Part VIII of this Guidance package, along with additional detail on planning, organization, equipment, training, and exercises costs. The following pages outline global allowable costs guidance applicable to all programs included in the HSGP.

Allowable Investments made in support of the HSGP Priorities as well as other capability-enhancing projects must fall into the categories of planning, organization, equipment, training, or exercises. Additional detail about each of these allowable expense categories, as well as sections on additional activities including explicitly unallowable costs, is provided. In general, grantees should consult their FEMA

Headquarters Program Analyst (for SHSP, UASI, or OPSG questions) or FEMA Regional Program Analyst (for MMRS or CCP questions) prior to making any Investment that does not clearly meet the allowable expense criteria established by the Guidance.

Planning Activities (SHSP, UASI, OPSG, MMRS, CCP)

States and Urban Areas may use FY 2010 HSGP funds for planning efforts that enable them to prioritize needs, build capabilities, update preparedness strategies, allocate resources, and deliver preparedness programs across disciplines (e.g., tribal governments, law enforcement, fire, EMS, health care systems, public health, behavioral health, public works, rural water associations, agriculture, and information technology) and levels of government. States and Urban Areas are further encouraged to include disciplines responsible for the health, safety, education, and care of infants and children and those responsible for integrating the accessibility and functional needs of children and adults with disabilities. Planning activities should focus on the four homeland security mission areas of prevention, protection, response, and recovery. HSGP funds should also be leveraged to integrate specialized programs, such as the Regional Catastrophic Preparedness Grant Program, into the overall framework at the State and Urban Area level. All jurisdictions are encouraged to work through Citizen Corps Councils, nongovernmental entities, and the general public in planning activities.⁴ Grantees are encouraged to use the *Comprehensive Preparedness Guide 101, Producing Emergency Plans: A Guide for All-Hazard Operations Planning for State, Territorial, Local and Tribal Governments* in order to develop robust and effective plans.

Organizational Activities (SHSP and UASI only)

Section 2008 of the *Homeland Security Act of 2002*, as amended by the 9/11 Act, includes the following allowable activities:

- Responding to an increase in the threat level under the Homeland Security Advisory System, or needs resulting from a National Special Security Event
- Establishing, enhancing, and staffing State and Major Urban Area fusion centers
- Paying salaries and benefits for personnel to serve as qualified intelligence analysts

States and Urban Areas must justify proposed expenditures of SHSP or UASI funds to support organization activities within their IJ submission by using historical data or other analysis.⁵ All States are allowed to utilize up to 50 percent of their FY 2010 SHSP funding and all Urban Areas are allowed up to 50 percent of their FY 2010 UASI funding

⁴ Nongovernmental entities include the private sector, private nonprofits, faith-based, community, volunteer, and other nongovernmental organizations.

⁵ The effectiveness of a request for the use of funds for allowable organizational costs will be judged on the Investment Justification's ability to illustrate the need for such resources to effectively achieve a capability that will have a meaningful impact in the reduction of risk.

for organizational activities.⁶ At the request of a recipient of a grant, the Administrator may grant a waiver of the limitation noted above (50 percent).

- **Intelligence Analysts** – Per the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412), SHSP and UASI funds may be used to hire new staff and/or contractor positions to serve as intelligence analysts to enable information/intelligence sharing capabilities, as well as support existing intelligence analysts previously covered by SHSP or UASI funding. In order to be hired as an intelligence analyst, staff and/or contractor personnel must meet at least one of the following criteria:
 - Successfully complete training to ensure baseline proficiency in *intelligence analysis and production* within six months of being hired; and/or,
 - Previously served as an intelligence analyst for a minimum of two years either in a Federal intelligence agency, the military, or State and/or local law enforcement intelligence unit

All intelligence analyst training should be in accordance with the Global Justice Information Sharing Initiative's (Global) *Minimum Criminal Intelligence Training Standards for Law Enforcement and Other Criminal Justice Agencies in the United States*, which outlines the minimum categories of training needed for intelligence analysts. These include subject-matter expertise, analytic methodologies, customer-service ethics, information handling and processing skills, critical thinking skills, computer literacy, and objectivity and intellectual honesty. A certificate of completion of such training must be on file with the SAA and must be made available to FEMA Program Analysts upon request.

- **Overtime Costs** – Overtime costs are allowable for personnel to participate in information, investigative, and intelligence sharing activities specifically related to homeland security and specifically requested by a Federal agency. Allowable costs are limited to overtime associated with Federally requested participation in eligible fusion activities including anti-terrorism task forces, Joint Terrorism Task Forces (JTTFs), Area Maritime Security Committees (as required by the *Maritime Transportation Security Act of 2002*), DHS Border Enforcement Security Task Forces, and Integrated Border Enforcement Teams. Grant funding can only be used in proportion to the Federal man-hour estimate, and only after funding for these activities from other Federal sources (i.e. FBI JTTF payments to State and local agencies) has been exhausted. Under no circumstances should DHS grant funding be used to pay for costs already supported by funding from another Federal source.

⁶ Note: Both organizational costs (e.g., intelligence analysts, operational overtime), planning, equipment, training, and exercise personnel costs are applied towards the 50 percent personnel cap.

- **Operational Overtime Costs** – In support of efforts to enhance capabilities for detecting, deterring, disrupting, and preventing acts of terrorism, operational overtime costs are allowable for increased security measures at critical infrastructure sites. FY 2010 SHSP or UASI funds for organizational costs may be used to support select operational expenses associated with increased security measures at critical infrastructure sites in the following authorized categories:
 - Backfill and overtime expenses (as defined in this Guidance) for staffing State or Major Urban Area fusion centers
 - Hiring of contracted security for critical infrastructure sites
 - Public safety overtime (as defined in this Guidance)
 - Title 32 or State Active Duty National Guard deployments to protect critical infrastructure sites, including all resources that are part of the standard National Guard deployment package (Note: Consumable costs, such as fuel expenses, are not allowed except as part of the standard National Guard deployment package)
 - Increased border security activities in coordination with CBP, as outlined in Information Bulletin #135

FY 2010 SHSP or UASI funds may only be spent for operational overtime costs upon prior approval provided in writing by the FEMA Administrator.

Note: States with UASI jurisdictions can use funds retained at the State level to reimburse eligible operational overtime expenses incurred by the State (per the above guidance limitations and up to a maximum of 50 percent of the State share of the UASI grant). Any UASI funds retained by the State must be used in **direct** support of the Urban Area. States must provide documentation to the UAWG and FEMA upon request demonstrating how any UASI funds retained by the State would directly support the Urban Area.

Equipment Activities (SHSP, UASI, MMRS, CCP)

The 21 allowable prevention, protection, response, and recovery equipment categories and equipment standards for FY 2010 HSGP are listed on the web-based version of the Authorized Equipment List (AEL) on the Responder Knowledge Base (RKB), at <https://www.rkb.us>. Unless otherwise stated, equipment must meet all mandatory regulatory and/or DHS-adopted standards to be eligible for purchase using these funds. In addition, agencies will be responsible for obtaining and maintaining all necessary certifications and licenses for the requested equipment.

States that are using FY 2010 HSGP funds to purchase Interoperable Communications Equipment (Category 6) must consult SAFECOM's coordinated grant guidance, which outlines standards and equipment information to enhance interoperable communications. This guidance can be found at <http://www.safecomprogram.gov>. Additionally, grantees are required to coordinate with other State and local partners in

integrating their interoperable communications plans and projects as outlined in each State's Statewide Communication Interoperability Plan.

Training Activities (SHSP, UASI, MMRS, CCP)

States, territories, and Urban Areas may use HSGP funds to develop a homeland security training program. Allowable training-related costs under HSGP include the establishment, support, conduct, and attendance of training specifically identified under the SHSP, UASI, MMRS, and CCP grant programs and/or in conjunction with emergency preparedness training by other Federal agencies (e.g., HHS, DOT). Allowable training topics include, but are not limited to, CBRNE terrorism, cyber/agriculture/food security, intelligence gathering and analysis, NIMS related training, citizen and community preparedness, interoperable and emergency communications, and training for volunteers, infants and children and individuals with disabilities in disasters, pediatric medical surge, and evacuation and sheltering with particular emphasis on children, keeping children with parents or guardians, addressing needs of unaccompanied minors, and integrating the accessibility and functional needs of children and adults with disabilities (see *Comprehensive Preparedness Guide 301 [CPG-301]: Interim Emergency Management Planning Guide for Special Needs Populations* and other resources for additional information).

Training conducted using HSGP funds should address a performance gap identified through an After Action Report/Improvement Plan (AAR/IP) or contribute to building a capability that will be evaluated through an exercise. Exercises should be used to provide the opportunity to demonstrate and validate skills learned in training, as well as to identify training gaps. Any training or training gaps should be identified in the AAR/IP and addressed in the State or Urban Area training cycle. All training and exercises conducted with HSGP funds should support the development and testing of the jurisdiction's EOP or specific annexes, where applicable.

Exercise Activities (SHSP, UASI, MMRS, CCP)

Exercises conducted with FEMA support must be managed and executed in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP). HSEEP Guidance for exercise design, development, conduct, evaluation, and improvement planning is located at <https://hseep.dhs.gov>. The HSEEP Library provides sample exercise materials and templates.

All exercises using HSGP funding must be NIMS compliant. More information is available online at the NIMS Integration Center, <http://www.fema.gov/emergency/nims/index.shtm>.

All Urban Areas are required to develop a Multi-Year Training and Exercise Plan (TEP) and submit to the FEMA Grants and Preparedness Community of Interest (COI) on the Homeland Security Information Network (HSIN). Further, Urban Areas are encouraged to develop a Multi-Year Plan and Schedule that takes into consideration anticipated training needs of the Urban Area for at least the immediate year, with exercises being timed to provide responders the opportunity to utilize training received. Further

guidance concerning the Training and Exercise Plan and the Training and Exercise Plan Workshop can be found at <https://hseep.dhs.gov>.

Where applicable, the Training and Exercise Plans should include training and exercises that support specialized programs, such as the Regional Catastrophic Preparedness Grant Program.

Urban Areas are eligible for Regional Exercise Support Program (RESP) funds but must do so in conjunction with the SAA.

States and Urban Areas are encouraged to exercise their capabilities with regard to infants and children across all aspects of response and recovery, including pediatric medical surge capabilities and integrating the accessibility and functional needs of children and adults with disabilities.

Personnel Activities (SHSP, UASI, MMRS, CCP)

Personnel hiring, overtime, and backfill expenses are permitted under this grant in order to perform allowable FY 2010 HSGP planning, training, exercise, and equipment activities.

- A personnel cost cap of up to 50 percent of total **SHSP and UASI** program funds may be used for personnel and personnel-related activities as directed by the *Personnel Reimbursement for Intelligence Cooperation and Enhancement (PRICE) of Homeland Security Act* (Public Law 110-412). Grantees who wish to seek a waiver from the personnel cost cap must provide documentation explaining why the cap is unacceptable; waiver requests will be considered only under extreme circumstances. In general, the use of SHSP and UASI funding to pay for staff and/or contractor regular time or overtime/backfill is considered a personnel cost. **Neither MMRS nor CCP have a personnel cost cap.** Activities that are considered “personnel” and “personnel-related,” and therefore count against the personnel cost cap of 50 percent, include, but are not limited to:
 - Operational overtime
 - Overtime/backfill to participate in approved training or exercise deliveries
 - Salaries and personnel costs of intelligence analysts
 - Overtime to participate in intelligence sharing activities
 - Salaries and personnel costs of planners, equipment managers, exercise coordinators, and/or training coordinators
 - Salaries and personnel costs under the M&A category
 - Contractor costs associated with performing the above activities

These activities are also subject to the funding and eligibility requirements detailed under the allowable cost categories. For further details SAAs should contact their FEMA Headquarters Program Analyst.

FY 2010 HSGP funds may not be used to support the hiring of any personnel for the purposes of fulfilling traditional public health and safety duties or to supplant traditional public health and safety positions and responsibilities.

The following are definitions for the terms as used in this grant guidance:

- **Hiring** – State and local entities may use grant funding to cover the salary of newly hired personnel who are exclusively undertaking allowable FEMA program activities as specified in this guidance. This may not include new personnel who are hired to fulfill any non-FEMA program activities under any circumstances. Hiring will always result in a net increase of Full Time Equivalent (FTE) employees.
- **Overtime** – These expenses are limited to the additional costs which result from personnel working over and above 40 hours of weekly work time as a direct result of their performance of FEMA-approved activities specified in this guidance. Overtime associated with any other activity is not eligible.
- **Backfill-related Overtime** – Also called “Overtime as Backfill,” these expenses are limited to overtime costs which result from personnel who are working overtime (as identified above) to perform the duties of other personnel who are temporarily assigned to FEMA-approved activities outside their core responsibilities. Neither overtime nor backfill expenses are the result of an increase of FTE employees.
- **Supplanting** – Grant funds will be used to supplement existing funds, and will not replace (supplant) funds that have been appropriated for the same purpose. Applicants or grantees may be required to supply documentation certifying that a reduction in non-Federal resources occurred for reasons other than the receipt or expected receipt of Federal funds.

Construction and Renovation (SHSP, UASI)

Use of HSGP funds for construction is generally prohibited except as outlined below. Such construction shall be strictly limited and allowable only when it is a necessary component of a security system at critical infrastructure facilities. OPSG, CCP, and MMRS funds may not be used for any type of construction. Project construction not exceeding \$1,000,000 is allowable as deemed necessary.

The following types of projects are considered to constitute construction or renovation and must be submitted to FEMA for compliance review under Federal environmental planning and historic preservation (EHP) laws and requirements prior to initiation of the project:

- Construction and renovation of guard facilities which are intended to provide enhanced security at grantee-designated critical infrastructure sites
- Renovation of and modifications, including the installation of security and communication equipment, to buildings and structures that are 50 years old or older

- Any other construction or renovation efforts that change or expand the footprint of a facility or structure, including security enhancements to improve perimeter security
- Physical security enhancements including, but not limited to:
 - Lighting
 - Fencing
 - Closed-circuit television (CCTV) systems
 - Motion detection systems
 - Barriers, doors, gates, and related security enhancements

In addition, the erection of communications towers that are included in a jurisdiction's interoperable communications plan is allowed, subject to all applicable laws, regulations, and licensing provisions. Communication tower projects must be submitted to FEMA for EHP review. Per the Department of Homeland Security Appropriations Act, 2010 (Public Law 111-83), communications towers are not subject to the \$1,000,000 construction cap.

In order to draw down funds for construction and renovation costs under HSGP, grantees must provide to FEMA:

- A description of the asset or facility, asset location, whether the infrastructure is publicly or privately owned, and the construction or renovation project
- Certification that a facility vulnerability assessment has been conducted
- An outline addressing how the construction or renovation project will address the identified vulnerabilities from the assessment
- Consequences of not implementing the construction or renovation project
- Any additional information requested by FEMA to ensure compliance with Federal EHP requirements

For more information on FEMA's EHP requirements, SAAs should refer to FEMA's Information Bulletin #329, *Environmental Planning and Historic Preservation Requirements for Grants*, available at <http://www.fema.gov/pdf/government/grant/bulletins/info329.pdf>. Additional information and resources can also be found at <http://www.fema.gov/plan/ehp/ehp-applicant-help.shtm>.

Law Enforcement Terrorism Prevention-Oriented Allowable Costs (SHSP, UASI)

Sections 2006 and 2008 of the *Homeland Security Act of 2002*, as amended by the 9/11 Act, includes, but is not limited to, the following allowable activities:

- Overtime expenses consistent with a State Homeland Security Plan, including enhanced operations in support of Federal agencies, border security, and border crossing enforcement
- Establishing, enhancing, and staffing State and Major Urban Area fusion centers

- Paying salaries and benefits for personnel to serve as qualified intelligence analysts
- Information sharing and analysis
- Target hardening
- Threat recognition
- Terrorist interdiction
- Subject to the limitations on organization and personnel costs outlined above, overtime expenses consistent with a State Homeland Security Plan, including for the provision of enhanced law enforcement operations in support of Federal agencies, for increased border security, and border crossing enforcement
- Subject to the limitations on organization and personnel costs outlined above, establishing, enhancing, and staffing State and Major Urban Area fusion centers with appropriately qualified personnel
- Subject to the limitations on organization and personnel costs outlined above, paying salaries and benefits for personnel, including individuals employed by the grant recipient on the date of the relevant grant application, to serve as qualified intelligence analysts
- Any other terrorism prevention activity authorized by the Administrator, pursuant to authority(ies) provided by Congress directly or delegated to the Administrator by the Secretary

OPSG Allowable Costs

The intent of OPSG is to focus on operational aspects of enhancing coordination between Federal, State, local, tribal, and territorial law enforcement agencies to increase the security of the U.S. Borders. While equipment is an allowable expense, the FY 2010 OPSG is not intended to be an equipment-centric grant.

- **Operational Overtime.** Operational overtime costs associated with law enforcement activities, in support of border law enforcement agencies for increased border security enhancement. Per the *PRICE of Homeland Security Act* (Public Law 110-412), all grantees are allowed to utilize up to 50 percent of their FY 2010 OPSG funding for personnel related costs, which include overtime activities. At the request of a grant recipient, the FEMA Administrator may waive the 50 percent personnel cap. Waiver decisions are at the discretion of the FEMA Administrator and will be considered on a case-by-case basis. A formal FY 2010 OPSG personnel waiver request should:
 - Be requested on official letterhead, include a written justification, and be signed by the authorized representative of the SAA
 - Include a budget and method of calculation of personnel costs both in percentage of the grant award and in total dollar amount. To avoid supplanting issues, the request must also include a three-year staffing history for the requesting entity
 - Include an approved Operations Order from the CBP/BP Sector office which supports the SAA's written justification

- Be forwarded electronically by the SAA to FEMA GPD Program Analyst
- **Part Time Personnel.** FY 2010 OPSG funds may be used to pay additional current part time law enforcement personnel salaries in order to bring them to full time status.
- **Travel, Per Diem, and Lodging.** Travel and per diem costs associated with the deployment/redeployment of personnel to border areas and for travel associated with law enforcement entities assisting other local jurisdictions in law enforcement activities. In addition, costs to support up to six (6) month deployment of law enforcement personnel to critical Southwest Border locations to support operational activities (travel costs must be in accordance with applicable travel regulations).
- **Vehicle and Equipment Rentals**
- **Vehicle/Equipment Maintenance**
- **Fuel Cost and/or Mileage Reimbursement.** The reimbursement cap for operational activities is removed under FY 2010 OPSG.
- **Activate Reserve State, local, tribal, and territorial law enforcement personnel.** Supporting a request to the Governor to activate, deploy, or redeploy specialized National Guard Units/Package and/or elements of State law enforcement to increase or augment specialized/technical law enforcement elements operational activities.
- **Backfill.** Costs associated with backfill for personnel supporting operational activities.
- **Law Enforcement Readiness.** Use of FY 2010 OPSG funds may be used to increase operational, material, and technological readiness of State, local, tribal, and territorial law enforcement agencies.

OPSG Unallowable Costs. OPSG unallowable costs include costs associated with staffing and general IT computing equipment and hardware, such as personal computers, faxes, copy machines, modems, etc. The FY 2010 OPSG is not intended as a hiring program. Therefore, applying funds toward hiring full-time or permanent sworn public safety officers is also unallowable. FY 2010 OPSG funding shall not be used to supplant inherent routine patrols and law enforcement operations or activities not directly related to providing enhanced coordination between local and Federal law enforcement agencies. In addition, no HSGP M&A funds may be used to support FY 2010 OPSG. Finally, construction and/or renovation costs are prohibited under OPSG. Applicants should contact their FEMA Headquarters Program Analyst at (800) 368-6498 for guidance and clarification.

Other Allowable Costs – Maintenance and Sustainment

The use of FEMA preparedness grant funds for maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees are allowable under all active and future grant awards, unless otherwise noted. Grantees are reminded to be sensitive to supplanting issues. Maintenance contracts, warranties, repair or replacement costs, upgrades, and user fees previously purchased with State and or local funds cannot be

replaced with Federal grant funding. Routine upkeep (e.g., gasoline, tire replacement, routine oil changes, monthly inspections, grounds, and facility maintenance, etc.) is the responsibility of the grantee and may not be funded with preparedness grant funding.

- **Maintenance Contracts and Warranties.** To increase the useful life of the equipment, maintenance contracts and warranties may be purchased using grant funding from one fiscal year to cover equipment purchased with funding from a different fiscal year. The use of grant funding for the purchase of maintenance contracts and warranties must meet the following conditions:
 - Maintenance contracts and warranties may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, maintenance contracts and warranties must be purchased using funds from the same grant program used to purchase the original equipment
 - The term of the maintenance contract or warranty shall not exceed the period of performance of the grant to which the contract is being charged
 - Equipment provided to States and local jurisdictions by the Commercial Equipment Direct Assistance Program (CEDAP) is also eligible for support through maintenance contracts and warranties since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
 - Equipment and support provided directly to States and local jurisdictions by any DHS component is also eligible for support through maintenance contracts or warranties once funding for those programs has ended. This includes the Domestic Nuclear Detection Office's (DNDO) limited duration programs such as the Southeast Transportation Pilot (SETCP), West Coast Maritime Pilot (WCMP), and Securing the Cities (STC) (SHSP and UASI programs only)

- **Repair and Replacement Costs.** The cost of repair and replacement parts for equipment purchased using FEMA preparedness grant funding is an allowable expense.
 - Repair and replacement parts may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, repair and replacement parts must be purchased using the same grant program used to purchase the original equipment
 - Repair and replacement parts for equipment provided to States and local jurisdictions by CEDAP are also eligible for support since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
 - Repair and replacement parts for equipment provided directly to States and local jurisdictions by any DHS component are also eligible for support once funding for those programs has ended. This includes the DNDO's limited duration programs such as the SETCP, WCMP, and STC (SHSP and UASI programs only)

- **Upgrades.** FEMA preparedness grant funding may be used to upgrade previously purchased allowable equipment. For example, if the grantee purchased risk management software with HSGP funds in FY 2005 and would like to use FY 2009 grant funding to upgrade the software, this is allowable.
 - Upgrades may only be purchased for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, upgrades must be purchased using the same grant program used to purchase the original equipment
 - Upgrades for equipment provided to States and local jurisdictions by CEDAP are also eligible for support since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
 - Upgrades for equipment provided directly to States and local jurisdictions by any DHS component are also eligible for support once funding for those programs has ended. This includes the DNDO's limited duration programs such as the SETCP, WCMP, and STC (SHSP and UASI programs only)

- **User fees.** User fees are viewed as costs for specific services required to maintain and provide continued operation of equipment or systems. An example would be the recurring service fees associated with handheld radios or mobile data computers.
 - User fees may only be paid for equipment that has been purchased using FEMA preparedness grant funding
 - To avoid supplementing Congressional appropriations for specific programs, user fees must be paid for using the same grant program used to purchase the original equipment. The service time purchased shall not exceed the period of performance of the grant to which the user fee is being charged
 - User fees for equipment provided to States and local jurisdictions by CEDAP are also eligible for support since CEDAP is a one-time equipment grant program and not a recurring grant (SHSP and UASI programs only)
 - User fees for equipment provided directly to States and local jurisdictions by any DHS component also eligible for support once funding for those programs has ended. This includes the DNDO's limited duration programs such as the SETCP, WCMP, and STC (SHSP and UASI programs only)
 - Requests for maintenance, repair or replacement costs, upgrades or user fees for equipment purchased with funds from FEMA preparedness grants that no longer exist (e.g., Law Enforcement Terrorism Prevention Program [LETPP]) are allowable. Sufficient documentation should be maintained to identify the original grant used to purchase the equipment (SHSP and UASI programs only)

- **Implementation.** Planned or actual expenditures for maintenance contracts and warranties, repair and replacement costs, upgrades, and user fees must be reflected in the Initial Strategy Implementation Plan (ISIP) or Biannual Strategy Implementation Report (BSIR).

Grantees must comply with all the requirements in 44 CFR Part 13 and 2 CFR Part 215.

Other Allowable Costs - Secure Identification (SHSP)

In addition to the expenditures outlined above, SHSP funds may be used to support the implementation activities associated with the Western Hemisphere Travel Initiative (WHTI), including the issuance of WHTI-compliant tribal identification cards. More information on the WHTI may be found at http://www.dhs.gov/files/programs/gc_1200693579776.shtm or http://www.getyouhome.gov/html/eng_map.html.

Other Secure Identification Initiatives

SHSP funds may also be used to support the Department's additional efforts to enhance secure identification. Activities that facilitate secure identification, including IT enhancements for identification management and verification systems, are a priority. DHS is currently developing and implementing a number of high profile screening programs in which secure identification credentials figure prominently. These include the Driver's License Security Grant Program (DLSGP) which aims to enhance the security, integrity, and protection of licensing and identification systems across the country; the Transportation Worker Identification Credential (TWIC) program which promotes tamper-resistant biometric credentials for workers who require unescorted access to secure areas of ports, vessels, outer continental shelf facilities, and all credentialed merchant mariners; and the credentialing of first responders which entails enhancing real-time electronic authentication of identity and attribute(s) (qualification, certification, authorization, and/or privilege) of emergency response/critical government personnel responding to terrorist attacks or other catastrophic events.

DLSGP specific allowable activities include: planning activities related to DLSGP compliance, related personal identification verification systems enhancements, personnel and management costs related to DLSGP compliance activities, and acquisitions for hardware and software related to ensuring compatibility with DLSGP technologies.

With respect to TWIC, specific allowable activities include: projects that involve new installations or upgrades to access control and identity management systems that exhibit compliance with TWIC standards and program specifications.

As to credentialing of first responders, specific allowable activities include: development of standards-based technologies, policies, protocols, and practices for portable and functional solutions to first responder identification and verification issues.

Note: Secure identification projects requested and funded under SHSP must directly support SHSP mission goals and cannot supplant projects/activities funded under other grant programs (e.g., DLSGP).

F. Other Submission Requirements

Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award.

Section B - HSGP Allowable Expenses

Overview

The following provides guidance on allowable costs within planning, equipment, training, and exercise activities.

Planning Activities Information

The *FY 2010 HSGP Guidance and Application Kit* defines five broad categories of allowable planning costs. Following are examples for each of the categories. As noted on page seven, an emphasis of this year's grant is to enhance and expand capabilities through partnerships. A specific emphasis should be placed on the preparedness of child congregate care systems, providers and facilities, and especially school districts and child/day care. Additional examples are group residential facilities operated by State and local child welfare authorities, and juvenile detention facilities.

MMRS Planning. The MMRS Leadership shall ensure that local strategic goals, objectives, operational capabilities, and resource requirements align with State and Urban Area Homeland Security Strategies. Critical factors in planning are to ensure that MMRS jurisdictions have:

- Applicable and up to date plans for responding to mass casualty incidents caused by any hazards
- Applicable procedures and operational guides to implement the response actions within the local plan including patient tracking that addresses identifying and tracking children and keeping families intact where possible
- Identified resources for medical supplies necessary to support children during an emergency, including pharmaceuticals and pediatric-sized equipment on which first responders and medical providers are trained

CCP Planning. Integrating non-governmental entities into the planning process is critical to achieve comprehensive community preparedness. To meet this important objective, HSGP funds may be used to support the following:

- Establishing and sustaining bodies to serve as Citizen Corps Councils
- Assuring that State and local government homeland security strategies, policies, guidance, plans, and evaluations include a greater emphasis on government/non-governmental collaboration, citizen preparedness, and volunteer participation
- Developing and implementing a community preparedness strategy for the State/local jurisdiction
- Developing or reproducing accessible public education and outreach materials to: increase citizen preparedness and knowledge of protective actions (to include the national *Ready Campaign* materials); promote training,

exercise, and volunteer opportunities; and inform the public about emergency plans, evacuation routes, shelter locations, and public alerts/warnings

- All public education and outreach materials must include the national or jurisdiction's Citizen Corps logo, tagline or website or the Ready logo, tagline, or website and comply with logo standards. For more information go to <http://www.citizencorps.gov>. In addition, all public education and outreach materials should incorporate special needs considerations, to include language, content, and method of communication
- Allowable expenditures include:
 - Media campaigns: Public Service Announcements (PSAs), camera-ready materials, website support, and newsletters
 - Outreach activities and public events: Booth displays, event backdrops or signs, displays and demonstrations, utilizing translation services, and informational materials such as brochures/flyers
 - Promotional materials: Pens/pencils, pins, patches, magnets, souvenir clothing/headwear, etc. Expenditures for promotional items must not exceed 15 percent of the total Citizen Corps Program allocation (see CCP Equipment for information on equipment caps)
- Establishing, expanding, and maintaining volunteer programs and volunteer recruitment efforts that support disaster preparedness and/or response.
 - Citizen support for emergency responders is critical through year-round volunteer programs and as surge capacity in disaster response. Citizen Corps funding may be used to establish, expand, or maintain volunteer programs that support disaster preparedness and/or response including but not limited to: Neighborhood Watch/USAonWatch, Community Emergency Response Teams (CERT), Volunteers in Police Service (VIPS), Medical Reserve Corps (MRC), Fire Corps, Citizen Corps Affiliate Programs and Organizations, and jurisdiction specific volunteer efforts
 - Allowable expenditures include:
 - Recruiting, screening, and training volunteers (e.g., background checks)
 - Retaining, recognizing, and motivating volunteers (e.g., volunteer recognition items such as certificates or plaques)
 - Purchasing, maintaining, or subscribing to a system to track volunteers (to include identification and credentialing systems, and to track volunteer hours) and other available resources in compliance with applicable privacy laws
 - Necessary non-structural accommodations to include persons with special needs (e.g., sign language interpreters)
 - Evaluating volunteers

- Organizational activities supported with CCP funding are limited to 25 percent of the grantee's CCP funding. Organizational activities include hiring of full- or part-time staff or contractors for emergency management activities.

Additional Equipment Information

MMRS Equipment. MMRS funds may be used for equipment acquisition from the MMRS equipment categories listed in the AEL. MMRS grant funds are intended to ensure an appropriate supply of pharmaceuticals and equipment, personal protective equipment, as well as detection equipment for chemical, biological, radiological, nuclear, and explosive incidents for the first crucial hours of a response to a mass casualty incident.

MMRS grant funds cannot be used to duplicate supplies already available through local and State sources, including local/regional public health offices and hospital associations, or other Federal programs.

Procurements should have a sound threat based justification with an aim to reduce the consequences of mass casualty incidents during the first crucial hours of a response.

Prior to procuring pharmaceuticals and equipment with MMRS grant funds, grantees must have in place an inventory management plan. The inventory management plan should avoid large periodic variations in supplies due to coinciding purchase and expiration dates. MMRS grantees are strongly encouraged to enter into rotational procurement agreements with vendors and distributors.

Purchases of pharmaceuticals have to include a budget for the disposal of expired drugs within the period of performance of the FY 2010 HSGP. The cost of disposal cannot be carried over to another FEMA grant or grant period.

CCP Equipment. States and Urban Areas are encouraged to fully leverage all HSGP resources for equipment to support volunteer personnel in preparedness and response. All allowable equipment costs are listed in the AEL, available at <https://www.rkb.us>.

Any equipment purchased with CCP funding must be used for specific preparedness or volunteer training or by volunteers in carrying out their response functions. CCP funding is intended only to be used for specific preparedness or volunteer training or by trained volunteers in carrying out their response functions. Examples of equipment used to support training and exercises for citizens include items such as burn pans or sample preparedness kits.

Expenditures for kits used in volunteer response (e.g., CERT or MRC kits / backpacks) or clothing for official identification must not exceed 30 percent of the

total Citizen Corps Program allocation. Clothing for official identification includes those items that volunteers are required to wear when engaging in public safety activities or disaster response (e.g., t-shirts for CERT members, baseball caps for Neighborhood Watch/USAonWatch Program foot patrol members).

Training Information and Requirements

- 1. Training Information Reporting System (“Web-Forms”).** Web-Forms is an electronic form/data management system built to assist the SAA and its designated State/territory Training Point of Contact (TPOC) with the reporting of State and Federal sponsored training supported by HSGP funds. Web-Forms can be accessed through the FEMA Toolkit located at <http://www.firstrespondertraining.gov/admin>.
- 2. Types of Training.** FEMA facilitates a number of different training sources:
 - **FEMA Provided Training.** These courses or programs are developed for and/or delivered by institutions and organizations funded directly by FEMA. This includes the Center for Domestic Preparedness (CDP), the National Domestic Preparedness Consortium (NDPC), the Rural Domestic Preparedness Consortium (RDPC), National Emergency Training Center (National Fire Academy and the Emergency Management Institute), and FEMA Training Partners funded through the Continuing and Competitive Training grant programs.
 - **Training Not Provided by FEMA.** These courses are either State sponsored or Federal sponsored, coordinated and approved by the SAA or their designated TPOC, and fall within the FEMA mission scope to prepare State, local, tribal, and territorial personnel to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.
 - **State Sponsored Courses.** These courses are developed for and/or delivered by institutions or organizations other than Federal entities or FEMA and are sponsored by the SAA or their designated TPOC.
 - **Approved State Sponsored Course Catalog.** This catalog lists State/territory sponsored courses that fall within the FEMA mission scope and have been approved through the FEMA course review and approval process. An updated version of this catalog can be accessed at <http://www.firstrespondertraining.gov>.
 - **Federal Sponsored Courses.** This catalog lists courses developed for and/or delivered by institutions funded by Federal entities other than FEMA.
 - **Approved Federal Sponsored Course Catalog.** This catalog lists Federal-sponsored courses that fall within the FEMA mission scope, and have been approved through the FEMA course review and approval process. An updated version of this catalog can be accessed at <http://www.firstrespondertraining.gov>.

FEMA Provided Training. FEMA funds the direct delivery of a variety of courses that States, tribes, and territories can request to meet training needs. These courses are listed in the FEMA approved course catalog listed at <http://www.firstrespondertraining.gov>.

Each FEMA training partner should contact the SAA or designated TPOC for locations within the State that are appropriate for the training. When the direct delivery funds are exhausted, the training partner can continue to offer the classes to the States through one of two methods—the Voluntary Training Enhancement Program (VTEP) or the Excess Delivery Acquisition Program (EDAP).

VTEP is a voluntary program designed to increase flexibility for States and territories while enhancing FEMA’s training delivery capability and complementing the current training partner pool. Funding from previous fiscal years **may** be used to support a State, territory, or Urban Area’s implementation of this program. Through VTEP, the SAA has the authority to adopt various Training and Exercise Integration / Training Operations (TEI/TO) provided programs for delivery by institutions within its State and local jurisdictions, and designate institutions as recognized providers for the identified standardized curriculum.

EDAP allows a FEMA training partner to charge for a course delivery when the Federal grant that developed the program is completed or more deliveries of a requested class are needed than the grant funds can accommodate. This cost per class is approved by FEMA so that States pay for the cost of instruction only, not the curriculum development costs that were paid by FEMA training grant funds. HSGP funds can be used to pay for the delivery of these classes within a State at the request of the SAA/TPOC.

Attending Training Not Provided by FEMA (State or Federal Sponsored Courses). States, territories, and Urban Areas are not required to request approval from FEMA for personnel to attend training not provided by FEMA (State or Federal-sponsored courses) provided that the training is coordinated with and approved by the SAA or TPOC and falls within the FEMA mission scope and the jurisdiction’s EOP and strategy of preparing State, local, tribal, and territorial personnel or citizens to prevent, protect against, respond to, and recover from acts of terrorism or catastrophic events.

States, territories, and Urban Areas are required, within 30 days after attendance, to submit information through the SAA or TPOC via Web-Forms on all training not provided by FEMA, but supported with HSGP funds. This information will consist of course title, course description, mission area, level of training, the training provider, the date of the course, the number and associated disciplines of the individuals, and the sponsoring jurisdiction. States, territories, and Urban Areas intending to use FEMA funds to support attendance at training not provided by FEMA must ensure these courses:

- Fall within the FEMA mission scope to prepare State, local, tribal, and territorial personnel to prevent, protect against, respond to, and recover from acts of terrorism and catastrophic events
- Build additional capabilities that: (a) support a specific training need identified by the State, territory, and Urban Area, and (b) comport with the State, territory, or Urban Area Homeland Security Strategy
- Address specific tasks and/or competencies articulated in FEMA's *Emergency Responder Guidelines* and the *Homeland Security Guidelines for Prevention and Deterrence*
- Address specific capabilities and related tasks articulated in the September 2007 version of the TCL
- Support the specific program training activities identified in the individual HSGP grant programs (SHSP, UASI, OPSG, MMRS, CCP) for which the funding will be used
- Comport with all applicable Federal, State, and local regulations, certifications, guidelines, and policies deemed appropriate for the type and level of training

In support of the continuing efforts to build common catalogs of approved training not provided by FEMA, the SAA/TPOC will be allowed three deliveries of the same course within a State/territory before the course is required to go through the FEMA State course review and approval process. Additional course deliveries will be authorized during the review period. However, if the course is disapproved as part of the process, no additional FEMA funds can be dedicated to attending the course.

State and Federal-Sponsored Course Catalogs. Courses approved by FEMA will be added to either the approved State Sponsored Course Catalog or the Federal Sponsored Course Catalog. Courses identified within these catalogs may be attended on an unlimited basis within any State/territory as long as the training is coordinated and approved by the SAA/TPOC. A full description of the FEMA Course Development, Review, and Approval Process, as well as the approved course catalogs, can be found at http://www.firstrespondertraining.gov/odp_webforms.

FEMA will respond to the initial request for review within 15 days with one of the following outcomes:

- Course concept is approved as consistent with the State plan and the State should submit the full course package for subject matter expert review and comment.
- Course concept is disapproved as inconsistent with State plan, FEMA guidance, or is exactly the same as another course in the catalog (no need for another approval, refer to the curriculum already developed and approved).

At any time, the SAA/TPOC (for State-sponsored courses) or the Federal Agency POC (for Federal sponsored courses) may request the addition of a course to the corresponding approved catalog by submitting the associated Web-Form (i.e., Request for Addition to the Approved State-Sponsored Catalog) for review. If a class on the same subject is already in the catalog, the submitting State should provide documentation as to why the course is unique, after contacting the owner(s) of the other

courses to review the curriculum. This step is required to avoid unnecessary duplication of similar courses in the catalog, allow States to share course development costs, permit all States to have access to new or unique courses developed by other providers, and allow States to direct their training dollars to delivery rather than development. If it is determined that the proposed course meets the above listed criteria, the providing entity (SAA/TPOC or Federal Agency POC) will be invited to submit the Course Review and Approval Request Form along with all supporting training materials.

For further information on developing courses using the instructional design methodology and tools that can facilitate the process, SAAs and TPOCs are encouraged to review the FEMA Strategy for Blended Learning and access the Responder Training Development Center (RTDC) available at <http://www.firstrespondertraining.gov/rtdc/state/>.

FEMA funds must be used to supplement, not supplant, existing funds that have been appropriated for the same purpose. FEMA will conduct periodic reviews of all State, territory, and Urban Area training funded by FEMA. These reviews may include requests for all course materials and physical observation of, or participation in, the funded training. If these reviews determine that courses are outside the scope of this guidance, grantees will be asked to repay grant funds expended in support of those efforts.

States and territories are required to conduct an Improvement Plan Workshop and Training and Exercise Plan Workshop to identify best practices, capability gaps, key priorities, and major events over a multi-year time frame and to align training and exercises in support of those priorities. A Multi-year Training and Exercise Plan will be produced from the Training and Exercise Plan Workshop to include the State's training and exercise priorities, associated training and exercise capabilities, and a multi-year training and exercise schedule. Further guidance concerning the Multi-year Training and Exercise Plan can be found in the Exercises discussion immediately following.

CCP Training. Training funded through the CCP includes but is not limited to: all-hazards safety such as emergency preparedness, basic first aid, life saving skills, crime prevention and terrorism awareness, school preparedness, public health issues, mitigation/property damage prevention, safety in the home, light search and rescue skills, principles of NIMS/ICS, community relations, volunteer management, serving people with disabilities, pet care preparedness, any training necessary to participate in volunteer activities, any training necessary to fulfill surge capacity roles, or other training that promotes individual, family, or community safety and preparedness.

There is no cap on the number of deliveries State or local jurisdictions may conduct of non-responder community-based training workshops, seminars, demonstrations, or conferences. Examples include: CPR/AED training, identity theft workshops, terrorism awareness seminars, chain-saw safety demonstrations, and community preparedness conferences.

Funding for CERT training includes the delivery of the CERT Basic Training Course, supplemental training for CERT members who have completed the basic training, and the CERT Train-the-Trainer training. Any CERT Basic training conducted by State or local entities must: 1) include the topics covered in the FEMA CERT Basic Training Course; 2) be instructor-led; and 3) classroom-based, using lecture, demonstration, and hands-on practice throughout. Note that the Independent Study course, "Introduction to CERT" (IS 317) must not be substituted for classroom delivery of CERT Basic Training. There is no cap on the number of deliveries State or local jurisdictions may conduct of the CERT Basic Training, the CERT Train-the-Trainer, Campus CERT Train-the-Trainer, or Teen CERT Train-the-Trainer courses, or supplemental/advanced training for CERT program participants.

Any training supported with these CCP funds should be delivered with specific consideration to include all ages, ethnic and cultural groups, persons with disabilities, and special needs populations at venues throughout the community, to include schools, neighborhoods, places of worship, the private sector, non-governmental organizations, and government locations. Expenditures to provide necessary non-structural accommodations for persons with special needs is allowable (e.g., sign language interpreters). Jurisdictions are also encouraged to leverage existing training provided via educational/professional facilities and to incorporate non-traditional methodologies such as the internet, distance learning, or home study whenever such delivery supports training objectives. Pilot courses and innovative approaches to training citizens and instructors are encouraged.

Instruction for trainers and training to support the Citizen Corps Council members in their efforts to manage and coordinate the Citizen Corps mission is also an allowable use of the FY 2010 CCP funding.

Allowable Training Costs

Allowable training-related costs include, but are not limited to, the following:

- **Developing, Delivering, and Evaluating Training** – Includes costs related to administering the training, planning, scheduling, facilities, materials and supplies, reproduction of materials, and equipment.
- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of attendance at FEMA and/or approved training courses and programs, are allowable. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.

- **Travel** – Costs (e.g., airfare, mileage, per diem, hotel) are allowable as expenses by employees who are on travel status for official business related to approved training.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants** – Payment of salaries and fringe benefits to full or part-time staff or contractors/consultants must be in accordance with the policies of the State or unit(s) of local government and have the approval of the State or awarding agency, whichever is applicable. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation as specified in section E.6. In no case is dual compensation allowable (see above).
- **Certification/Recertification of Instructors** – States are encouraged to follow the FEMA Instructor Quality Assurance Program to ensure a minimum level of competency and corresponding levels of evaluation of student learning. This is particularly important for those courses that involve training of trainers. This information is contained in Information Bulletin #193, issued October 20, 2005.

Exercise Requirements

1. **Training and Exercise Plan Workshop.** States and Urban Areas are required to conduct an annual Improvement Plan Workshop (IPW) and a Training and Exercise Plan Workshop (TEPW). A Multi-year Training and Exercise Plan must be developed from the workshops and submitted to the State's respective Exercise Manager and Program Analyst. This plan must be updated annually.

The Training and Exercise Plan will include the State's prioritized capabilities and a multi-year training and exercise schedule that supports the identified capabilities. The Plan, inclusive of the training and exercise schedule, must be submitted within 90 days of the workshop. All scheduled training and exercises must be entered in the National Exercise Schedule (NEXS), located in the HSEEP Toolkit on the HSEEP website <https://hseep.dhs.gov>. An IPW and TEPW user guide and a template of the Multi-Year Training and Exercise Plan can be found on the HSEEP website <https://hseep.dhs.gov>.

States must complete a cycle of exercise activity during the period of this grant. States and Urban Areas are encouraged to use exercises as an opportunity to meet the requirements of multiple exercise programs. To this end, grantees are encouraged to invite representatives/planners involved with other Federally-mandated or private exercise activities. States and Urban Areas are encouraged to share, at a minimum, the multi-year training and exercise schedule with those departments, agencies, and organizations included in the plan.

2. **Exercise Scenarios.** The scenarios used in HSGP-funded exercises must be based on the State/Urban Area's Homeland Security Strategy and plans. Acceptable scenarios for SHSP, UASI, MMRS, and CCP exercises include: chemical, biological, radiological, nuclear, explosive, cyber, agricultural and natural

or technological disasters. Exercise scenarios must be catastrophic in scope and size as defined by the *National Response Framework*.

The scenarios used in HSGP-funded exercises must focus on validating existing capabilities and must be large enough in scope and size to exercise multiple tasks and warrant involvement from multiple jurisdictions and disciplines and non-governmental organizations. Exercise scenarios should also be based on the Multi-year Training and Exercise Plan.

- 3. Special Event Planning.** If a State or Urban Area will be hosting a special event (e.g., Super Bowl, G-8 Summit) they are approved to participate in a Tier I or Tier II exercise as approved by the National Exercise Program (NEP) Executive Steering Committee per the NEP Implementation Plan. They should plan to use SHSP or UASI funding to finance training and exercise activities in preparation for those events. States and Urban Areas should also consider exercises at major venues (e.g., arenas, convention centers) that focus on evacuations, communications, and command and control. States should also anticipate participating in at least one Regional Exercise annually. States must include all confirmed or planned special events in the Multi-year Training and Exercise Plan.
- 4. Exercise Evaluation.** All exercises will be capabilities and performance-based and evaluated using Exercise Evaluation Guides (EEGs) found on the HSEEP website at <https://hseep.dhs.gov>. An After-Action Report/Improvement Plan (AAR/IP) will be prepared and submitted to the FEMA Grants and Preparedness Community of Interest (COI) on the Homeland Security Information Network (HSIN) within 90 days following completion of the exercise, regardless of type or scope. AAR/IPs must conform to the HSEEP format, should capture objective data pertaining to exercise conduct, and must be developed based on information gathered through EEGs found in HSEEP. All applicants are encouraged to use the Lessons Learned Information Sharing System as a source for lessons learned and to exchange best practices.
- 5. Self-Sustaining Exercise Programs.** States are expected to develop a self-sustaining exercise program. A self-sustaining exercise program is one that is successfully able to implement, maintain, and oversee the Multi-year Training and Exercise Plan, including the development and delivery of HSGP-funded exercises. The program must utilize a multi-disciplinary approach to the development and delivery of exercises, and build upon existing plans, training, and equipment.
- 6. Role of Non-Governmental Entities in Exercises.** Non-governmental participation in all levels of exercises is strongly encouraged. Leaders from non-governmental entities should be included in the planning, conduct, and evaluation of an exercise. State, local, tribal, and territorial jurisdictions are encouraged to develop exercises that test the integration and use of non-governmental resources provided by non-governmental entities, defined as the private sector and private non-profit, faith-based, community, volunteer, and other non-governmental

organizations. Non-governmental participation in exercises should be coordinated with the local Citizen Corps Council(s) and other partner agencies.

MMRS Exercises. The scenarios used in MMRS exercises should focus on incidents that would be catastrophic to the grant implementer's community and/or have national impact caused by any hazard. Grantees are encouraged to use scenarios with a focus on medical issues related to preparedness and response. Scenarios should test appropriate Target Capabilities that support the MMRS mission.

Citizen participation in exercises is strongly encouraged and should be coordinated with the local Medical Reserve Corps and Citizen Corps Council. Volunteer roles and responsibilities include, but are not limited to, backfilling non-professional tasks for first responders deployed on exercise planning and implementation, providing simulated victims, media, and members of the public, supporting surge capacity functions, and participating in the after-action review.

MMRS jurisdictions, in coordination with regional, Urban Area, and State exercises, and public health officials (e.g., EMS), are expected to schedule, design, conduct, and evaluate mass casualty exercises that are in compliance with both FEMA and CDC Public Health Emergency Preparedness Cooperative Agreement Exercise requirements and guidance.

CCP Exercises. Exercises specifically designed for or that include participation from non-governmental entities and the general public are allowable activities and may include testing public warning systems, evacuation/shelter in-place capabilities, family/school/business preparedness, and participating in table-top or full scale emergency responder exercises at the local, State, tribal, territorial, or national level, to include the National Level Exercises (formally known as Top Officials Exercise [TOPOFF]).

Allowable Exercise Costs

Allowable exercise-related costs include:

- **Funds Used to Design, Develop, Conduct, and Evaluate an Exercise –** Includes costs related to planning, meeting space and other meeting costs, facilitation costs, materials and supplies, travel, and documentation. Grantees are encouraged to use government facilities to conduct meetings and conferences whenever possible.
- **Hiring of Full or Part-Time Staff or Contractors/Consultants –** Full or part-time staff may be hired to support exercise-related activities. Such costs must be included within the funding allowed for program management personnel expenses, which must not exceed 15 percent of the total allocation. The applicant's formal written procurement policy or the Federal Acquisition Regulations (FAR) – whichever is more stringent – must be followed. In no case is dual compensation allowable.

- **Overtime and Backfill** – The entire amount of overtime costs, including payments related to backfilling personnel, which are the direct result of time spent on the design, development, and conduct of exercises are allowable expenses. These costs are allowed only to the extent the payment for such services is in accordance with the policies of the State or unit(s) of local government and has the approval of the State or the awarding agency, whichever is applicable. In no case is dual compensation allowable. That is, an employee of a unit of government may not receive compensation from their unit or agency of government AND from an award for a single period of time (e.g., 1:00 p.m. to 5:00 p.m.), even though such work may benefit both activities.
- **Travel** – Travel costs are allowable as expenses by employees who are on travel status for official business related to the planning and conduct of exercise project(s) or HSEEP programmatic requirements as described in the HSEEP website (e.g., Improvement Plan Workshops, Training and Exercise Plan).
- **Supplies** – Supplies are items that are expended or consumed during the course of the planning and conduct of the exercise project(s) (e.g., copying paper, gloves, tape, non-sterile masks, and disposable protective equipment).
- **Other Items** – These costs include the rental of equipment (e.g., portable toilets, tents), food, gasoline, exercise signs, badges, etc.

Unauthorized Exercise Costs

Unauthorized exercise-related costs include:

- Reimbursement for the maintenance and/or wear and tear costs of general use vehicles (e.g., construction vehicles) and emergency response apparatus (e.g., fire trucks, ambulances).
- Equipment that is purchased for permanent installation and/or use, beyond the scope of exercise conduct (e.g., electronic messaging signs).

A certificate of completion of all intelligence analyst training must be on file with the SAA and must be made available to Program Analysts upon request upon the hiring of personnel.

Funds utilized to establish or enhance designated State and Major Urban Area fusion centers must support the development of a statewide fusion process that corresponds with the Global Justice/Homeland Security Advisory Council (HSAC) Fusion Center Guidelines and the National Strategy for Information Sharing, and achievement of a baseline level of capability as defined by Global's *Baseline Capabilities for State and Major Urban Area Fusion Centers*, a supplement to the Fusion Center Guidelines, located at <http://www.it.ojp.gov/documents/baselinecapabilitiesa.pdf>.
