## Executive Summary

# 10 revealing stats

Welcome to the 15th annual TradeNumbers publication for the Los Angeles area but the first devoted specifically to the Port of Los Angeles, rather than the Customs district as a whole. Here are 10 things for you to take away from this publication:

**1.** The Port of Los Angeles does more trade with eight of its top 10 trade partners than any of more than 450 other U.S. airports, seaports and border crossings. (You will find that ranking in the upper right-hand corner of all the pages in the country section. Pages 14-33.)

**2.** The port ranks first nationally for two of its top 10 exports and for five of its top 10 imports. (Ranking similarly positioned on pages in the Export and Import sections. Pages 39-48 and 54-63.)

**3.** Trade with two top 10 trade partners has increased at least five consecutive years – Vietnam and Malaysia. (You can see the five-year totals for all countries in the blue “bar charts” near the top of each page, on the left.)

**4.** The Port of Los Angeles played an important role in supplies related to Covid-19 as described by the acronym we all came to know, PPE, or personal protective equipment. While surgical gowns and gloves poured into the port, the one category that rose to rank among the top 10 imports was the one that included masks. Growth rate: 296.29 percent. Seaport’s rank nationally: No. 1. (See data for the category on Page 58 or the source for a good bit of those imports, China, on Page 14.)

**5.** The port outperformed the national average for total trade, total exports and total imports, though it registered declines in all three. As usual, the Port of Los Angeles ranked first nationally. (You can see these percentages in the chart on Page 8, but don’t overlook the two-page infographic on Pages 6-7.)

**6.** The country poised to break into the top 10 is Cambodia, which ranked 11th in 2020, passing Germany and Singapore. If you look at its top imports, four of the five are apparel, a tough category nationally in 2020 but

not with Cambodia and the port. Expect those to jump this year as workers begin going back to the office and children back to school.

**7.** Dropping out of the top 20 in 2020 in grand fashion was Iraq. As you will see from the chart on Page 12, the Middle Eastern oil provider tumbled from No. 20 to No. 50, its trade off 83.40 percent.

**8.** Although passenger vehicles continue to be the port’s leading import by value, the port has slipped from a No. 4 national rank to No. 7. (You can see which ports have jumped ahead in the U.S. map on the bottom of Page 54.)

**9.** Brazil was the only former member of the “Billion Dollar Club” in 2020. Its trade fell to \$899.69 million, largely due to a precipitous fall in imports. (See the chart on Page 32, just above the U.S. map, to see what happened.)

**10.** The trade war continued to hurt the port’s China trade, with imports falling a second straight year. (See the “area” chart toward the top, in the middle of Page 14.)

### our products

WorldCity has been producing TradeNumbers publications since 2001 for airports, seaports and border crossings across the United States. They are published annually in three formats: the Executive Summary format, a full 64-page magazine format, and a handy pocket-sized version. WorldCity also hosts a website, [ustradenumbers.com](http://ustradenumbers.com), updated monthly with pages of data for more than 200 countries, more than 1,800 specific export and import commodities, and more than 450 airports, seaports and border crossings. WorldCity produces Trade Matters videos on relevant topics, distributed at the company’s YouTube channel and across social platforms. WorldCity hosts quarterly Trade Trends webinars and distributes a monthly Trade Talk newsletter for specific markets around the country. WorldCity also syndicates its content to airports, seaports and border crossings, updated monthly.

## COUNTRY PAGES

### TRADE SUMMARY

The Port of Los Angeles' change in total trade, exports and imports, with a comparison to the national average. The country's rank with Port of Los Angeles and its rank with the country.

### IN DEPTH TRADE NUMBERS

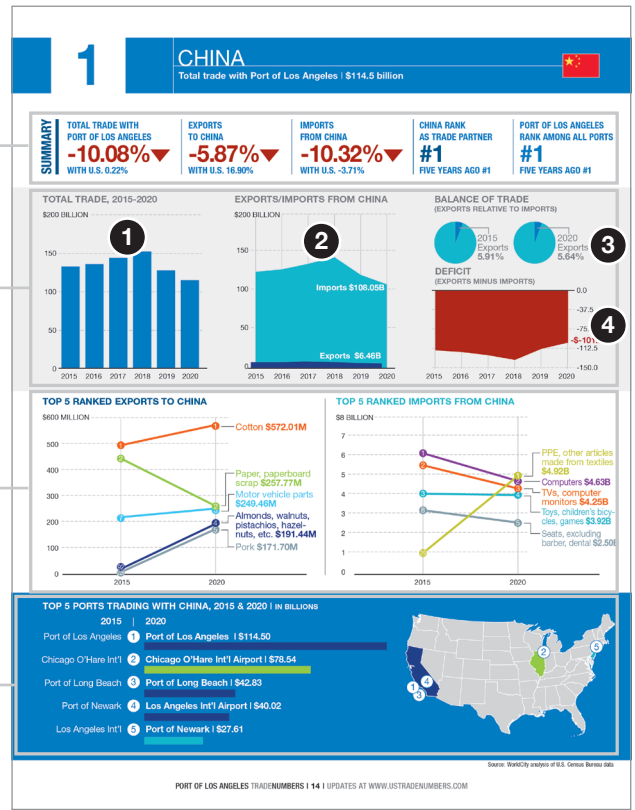

- Overall trade with country, 2015-2020.
- Broken down into exports and imports.
- The percentage that was an export vs. an import.
- The surplus or deficit.

### TOP COMMODITIES

A look at the five top exports and imports and their change from 2015 to 2020.

### PORT COMPARISON

How the Port of Los Angeles stacked up compared to the top five airports, seaports and border crossings trading with each country between 2015 and 2020.

## COMMODITY PAGES

### TRADE SUMMARY

- Port of Los Angeles' performance compared to the nation.
- The commodity's rank with Los Angeles.
- Port of Los Angeles' national rank for this commodity.

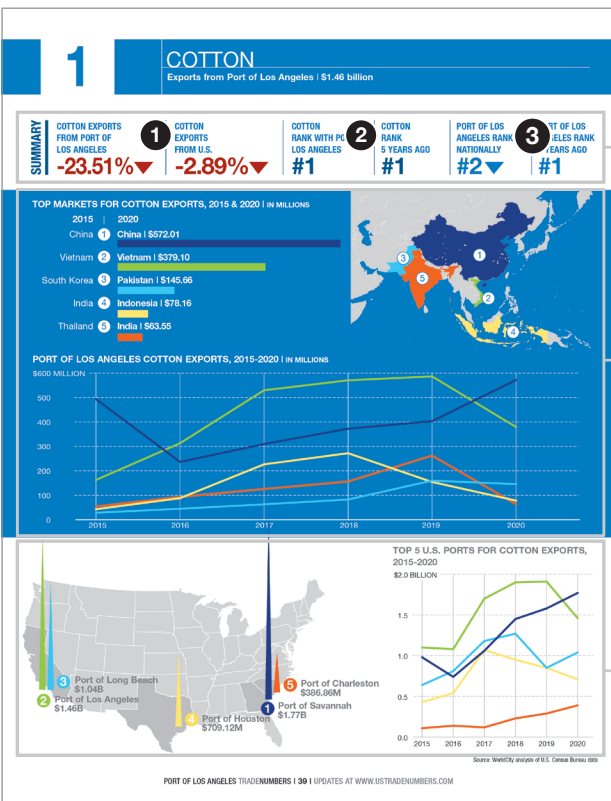

### MARKETS & SOURCES

For exports, where the top five commodities went in 2020 and how they have performed since 2015.

For imports, where the top five commodities originated in 2020 and how they have performed since 2015.

### PORT COMPARISON

How the Port of Los Angeles stacked up for this commodity compared to the top five airports, seaports and border crossings in 2020, charting how they performed since 2015.

# 2020 PORT OF LOS ANGELES A CLOSER LOOK: TOP 20 EXPORTS

## THE PACE OF CHANGE EXPORTS FALL BELOW \$30 BILLION

For the first time since 2009, Port of Los Angeles exports fell below \$30 billion. Nevertheless, 11 of the top 20 increased in value. Over the course of the decade, the port was responsible for more than \$363 billion in U.S. exports, including a record \$43.86 billion in 2011.

### THE YEAR THAT WAS

Pork increased, frozen beef decreased. Aluminum scrap increased, paperboard scrap decreased. Soybeans increased, almonds and other nuts decreased.
