Project Title: Addendum to the Innovative Barracuda Chassis Depot Project

Project Applicant: Innovative Terminal Services

Project Location (include county): 915 Earle St., San Pedro, Port of Los Angeles, County of Los Angeles

Project Description:

The proposed Project would entitle property currently operated as a chassis depot to include the new use of cargo handling support, which adds the storage and handling of shipping containers for the entire premises. The new activities would operate in conjunction with the chassis depot operations evaluated in the Final IS/ND. Additionally, an approximately 2.65 acre expansion would be added for existing truck trip queuing and as-needed storage on Barracuda and Bass Streets, which are currently closed off from thoroughfare, expanding the entitled area to approximately 16.40 acres. These street entitlements would be terminated when street access needs to be restored. Also, a minor construction component would be added, which is grading and laying of crushed aggregate base or gravel for the duration of a short-term entitlement. This entitlement would not exceed 12 months and includes incorporation of Best Management Practices. The facility is part of Port property located on the western portion of Terminal Island. The proposed modifications would create no potential adverse impacts or substantial changes to impact areas previously analyzed in the Final IS/ND.

This is to advise that the Los Angeles Harbor Department has considered the above
(Lead Agency)
described project on March 11, 2021 and has made the following determinations regarding the above
(date)
described project.

- 1. An Addendum to the Innovative Barracuda Initial Study/Negative Declaration, previously certified by the Board of Harbor Commissioners on October 15, 2020, was prepared and considered for this project pursuant to the provisions of CEQA.
- 2. There has been no change to the project or substantial changes in circumstances or new information that would warrant subsequent environmental analysis in accordance with CEQA.
- 3. Executive Director, Gene Seroka, acting for the Board of Harbor Commissioners under State CEQA Guidelines Section 15164(d) considered this Addendum on March 11, 2021 when the accompanying Space Assignment was approved.

This is to certify that the considered Addendum and certified Final ND with comments and responses and record of project approval is available to the General Public at:
