

## NOTICE OF PUBLIC HEARING AND AVAILABILITY OF STUDIES I-110/C Street Interchange Project

### WHAT'S BEING PLANNED?

The California Department of Transportation, District 7 (Caltrans), in cooperation with the Port of Los Angeles (Port), proposes to improve the existing Interstate 110 (I-110)/C Street interchange. The proposed project would include a northbound off-ramp for direct access to Harry Bridges Boulevard, modification of the northbound on-ramp from C Street, realignment of Harry Bridges Boulevard, and combining the I-110 ramp terminal/C Street/Figueroa Street intersection with the John S. Gibson Boulevard/Harry Bridges Boulevard intersection. Concrete sidewalks are proposed along the local roadways to provide a clear and unobstructed path for pedestrian travel within the project limits. Curb ramps would be constructed at intersection and street crossings and existing bicycle routes will be maintained. Pedestrian signals and cross walk pavement delineation would also be provided.
