

CDP No. 24-04 to the Port of Los Angeles for the Berths 302-305 On-Dock Rail Yard Expansion Project

August 22, 2024

Michael Keenan

Director of Planning & Strategy

THE PORT
OF LOS ANGELES 

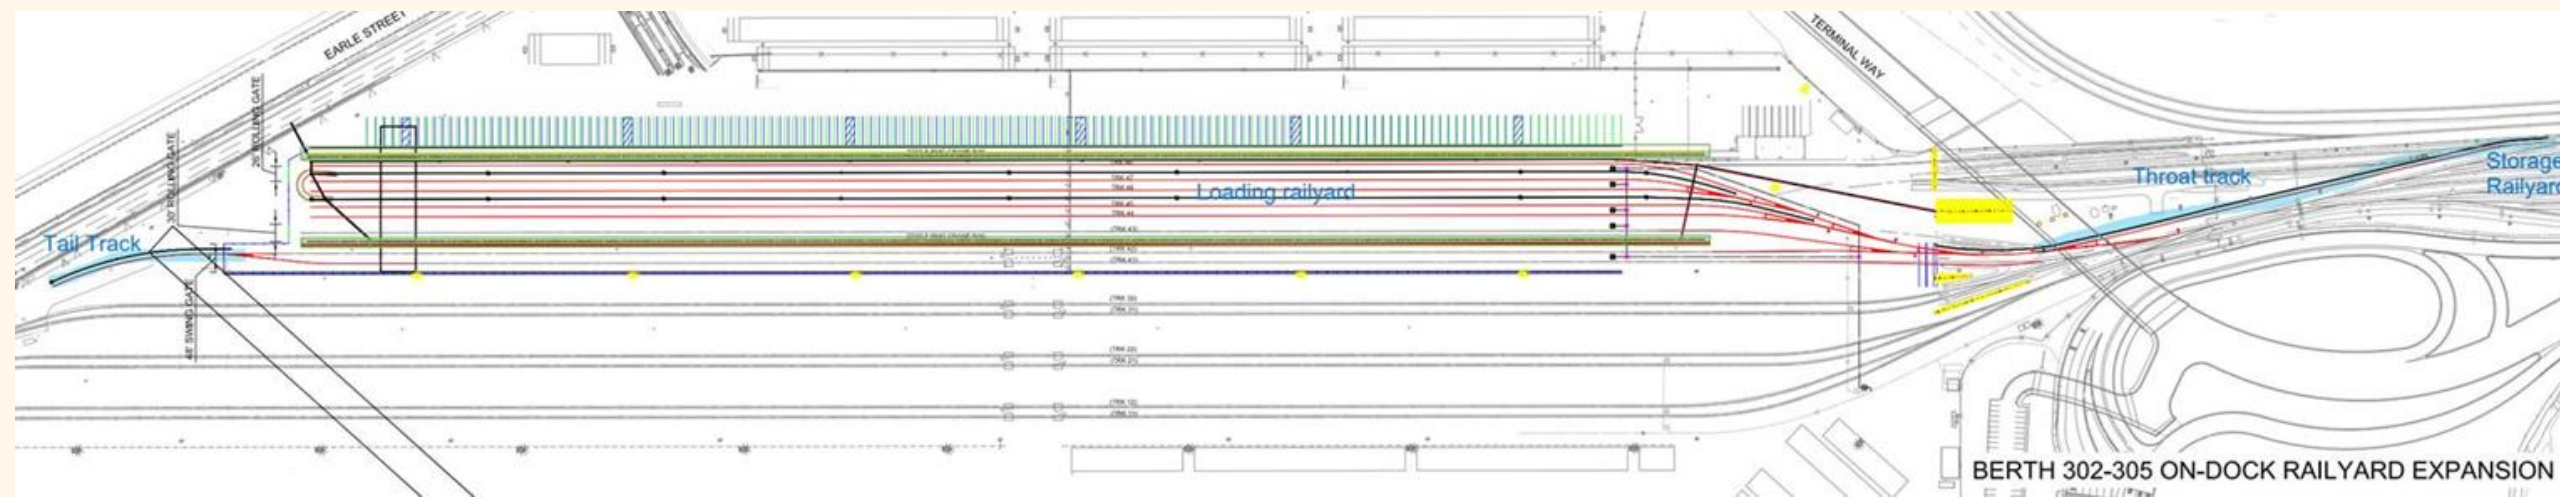

Project Location

- Located in Planning Area 3 on Terminal Island
- Rail yard within the Fenix Marine Services Container Terminal serving Pier 300
- Site currently contains nine rail tracks

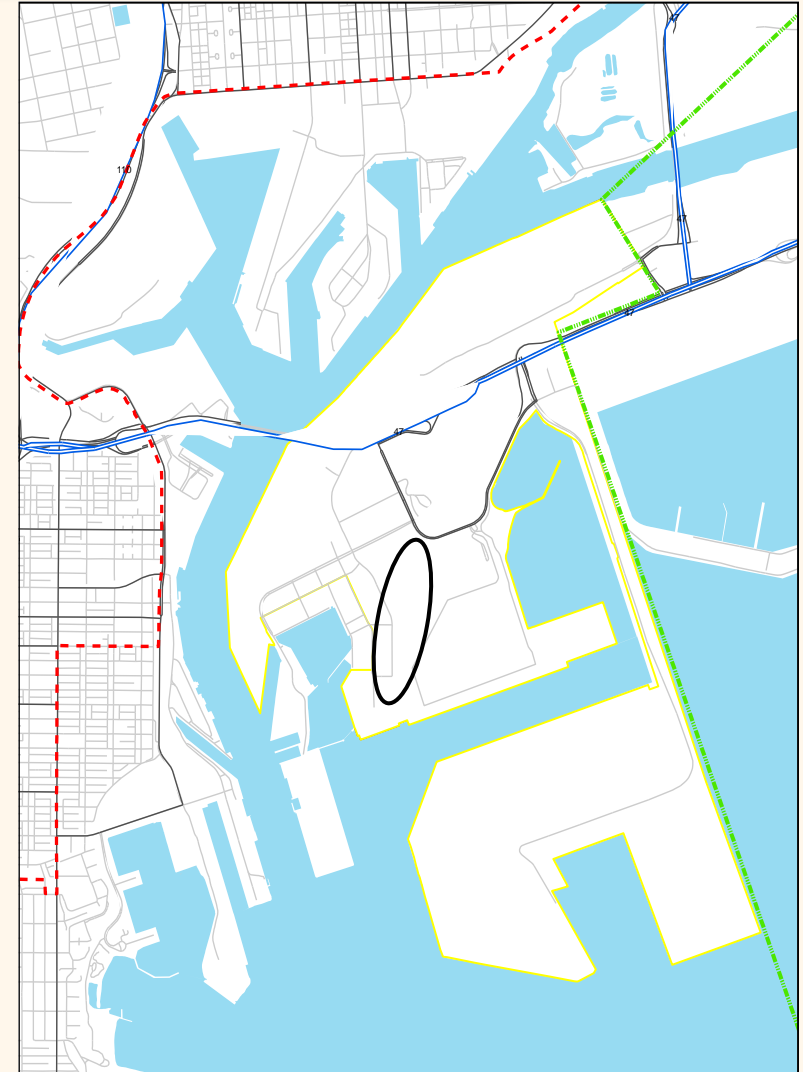

Project Description

- Construct five new tracks on the northern on-dock rail yard section totaling approximately 15,000 linear feet
- Additional work includes grading, paving, drainage and storm water improvements, fire protection, electrical improvements, striping, and signage.

Permit Evaluation

- Project requires a Non-Appealable Level II Coastal Development Permit (CDP)
- Project is consistent with Port Master Plan land use designation of “Container” for this site
- Staff recommends that the Board approve the proposed project and direct staff to issue CDP 24-04

Questions from the Board and Public Comment
