**THE PORT
OF LOS ANGELES** 

As usual, Los Angeles Leads the way

Next September, in 2021, it will have been 20 years since the 9/11 terrorist strikes. Can it be so? We were frightened then, in the summer of 2001, looking over our shoulders. Do you remember?

A mild recession quickly became a much larger one. Trade slumped. Los Angeles was replaced as the nation's top Customs district, ironically, by New York City. It was a lesson in the role trade plays in our economy. Buying from consumers and businesses alike fell sharply, hammering imports from Asia into Los Angeles.

Through the end of the year, U.S. trade fell rapidly. But then, in 2002, it fell less than 1 percent. And Los Angeles was once again on top.

In 2003, U.S. trade grew and in 2004 set a new record, the first of five straight record years. In 2004, 2005 and 2006, trade grew more than 10 percent annually. By 2008, trade had grown by 83 percent from its trough, nearly doubling.

Of course, coming out of the terrorist strikes, the world was not the same.

We adjusted to taking our belts and shoes off at the airport, taking laptops out, emptying pockets and enduring other inconveniences. It wasn't just inconveniences, though, was it? We struggled with the loss of privacy, a great and defining liberty. We acquiesced to government surveillance unimaginable a year or two earlier.

Fast forward to the spring of 2020. Although trade fell slightly in 2019, in Los Angeles and around the country, largely the result of the U.S.-China trade war, trade is likely to fall much more in 2020. We shut down the U.S. economy in the spring in an attempt to fight the coronavirus pandemic.

At this writing, the U.S. economy had shed 30 million jobs in five weeks, dropping job gains dating back nine years. It's been as stunning as it has been rapid. We are worried, looking over our shoulders. We don't think 20 years out, can't. We worry about tomorrow.

This might be worse than the 2001 terrorist strikes. It's well above my pay

grade to even speculate. But I believe, and hope you believe, in the resilience of Los Angeles, of California, of the United States, of the powerful and positive effects of globalization.

When will the United States again set a record for U.S. trade? I don't want to venture a guess. In 2019, even though U.S. trade fell slightly, it was the second consecutive year trade topped \$4 trillion.

My guess is the decline will be steep, hit by a trifecta of massive challenges: coronavirus, the U.S.-China trade war and the collapse of global oil markets.

All three are having their day, but it won't last. Perhaps by the time you read this, my words will seem dated, a distant memory of difficult times. I hope so.

In the meantime, enjoy the 2020 version of Los Angeles TradeNumbers, a testament to the role your community plays – and will continue to play – in the welfare of the local, state, national and global economies. Los Angeles, long a leader, will continue to be one.

@TradeDataGuy 

our products

WorldCity has been producing TradeNumbers publications since 2001 for airports, seaports and border crossings across the United States. They are published annually in three formats: the Executive Summary format, a full 64-page magazine format, and a handy pocket-sized version. WorldCity also hosts a website, ustradenumbers.com, updated monthly with pages of data for more than 200 countries, more than 1,800 specific export and import commodities, and more than 450 airports, seaports and border crossings. WorldCity produces weekly Trade Matters videos on relevant topics, distributed at the company's YouTube channel and across social platforms. WorldCity also syndicates its content to airports, seaports and border crossings, updated monthly.

Getting started: a user guide for these pages

The source for all data is the U.S. Census Bureau, as analyzed by WorldCity.

COUNTRY PAGES

TRADE SUMMARY

The Los Angeles Customs district's change in total trade, exports and imports, with a comparison to the national average. The country's rank with Los Angeles and its rank with the country.

IN DEPTH TRADE NUMBERS

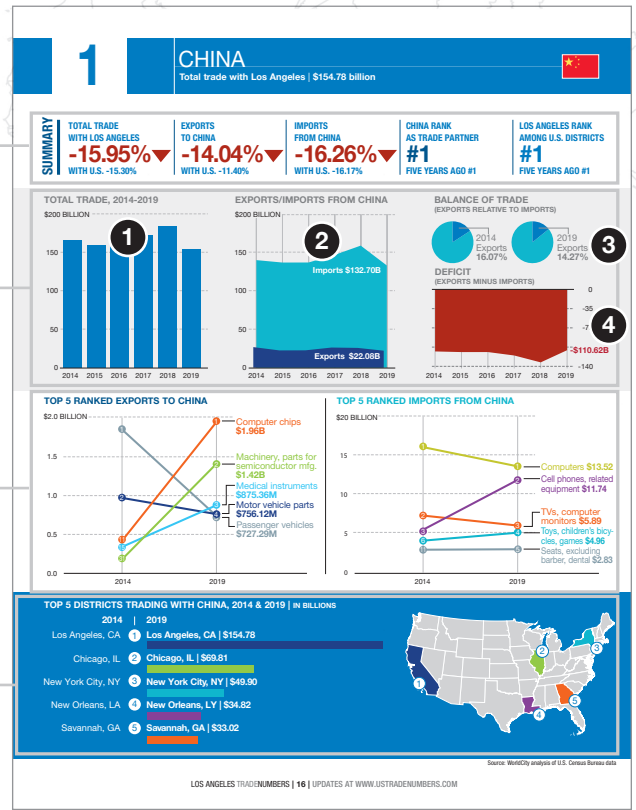

- Overall trade with country, 2014-2019.
- Broken down into exports and imports.
- The percentage that was an export vs. an import.
- The surplus or deficit.

TOP COMMODITIES

A look at the five top exports and imports and their change from 2014 to 2019.

PORT COMPARISON

How Los Angeles stacked up compared to the top five airports, seaports and border crossings.

COMMODITY PAGES

TRADE SUMMARY

- Los Angeles' performance compared to the nation.
- The commodity's rank with Los Angeles.
- Los Angeles' national rank for this commodity.

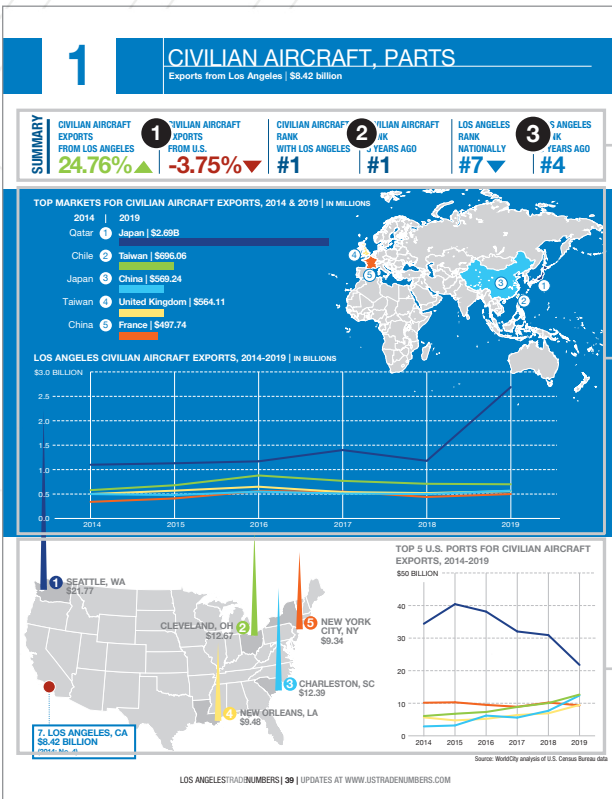

MARKETS & SOURCES

For exports, where the top five commodities went in 2019 and how they have performed since 2014.

For imports, where the top five commodities originated in 2019 and how they have performed since 2014.

2019 LOS ANGELES CUSTOMS A CLOSER LOOK

THE PACE OF CHANGE

HOW TOP 10 EXPORTS AND IMPORTS FARED

Total trade for the nation-leading Los Angeles Customs district in 2019 was \$428.23 billion. That was lower than the previous year total but the third consecutive year above \$400 billion. The visualizations on these two pages as well as Page 11 illustrate why: the top exports and imports that rose and fell, and, on Page 11, the same for top trade partners.

LAX

YOUR CONNECTION TO GLOBAL MARKETS.

LAX is an established economic engine in international trade and contributes over \$118 billion to export/import markets with 22 different countries.

In 2019, LAX recorded over 2.3 million tons of cargo and ranked 4th in the U.S. in air cargo tonnage.

As a premier gateway to the world, it is our mission to connect markets all over the globe with their cargo.
